To set an alert:

The AVMA Governance Portal offers several ways to create/manage alerts – from the main page of a site or from an individual item list/library. However, you can only create alerts on one list item at a time. Once you have created an alert, you will be sent an email notifying you that "You have successfully created an alert for site name."

1. Select the name of your member entity from the left hand side list to be taken to the members area for your entity (e.g. SAVMA Delegates site, SAVMA Chapter Presidents OR Executive Board site)
2. On the top of the page you will see a title bar, select the “Page” tab.
3. Once the Page tab is opened, you may select “Alert Me” and then “Manage my Alerts” to add an alert.
4. Select “Add Alert” and choose a List or Document Library to be alerted to for changes from the right hand side.
   a. It is recommended you be alerted once someone adds a document or makes changes to the Calendar of Events, Announcements, Minutes Library, Reports Library and Working Library.
5. Select “Next” at the bottom of the page. On the next page you can choose to customize the alert if you wish, or you may select OK to save the changes.

To add a document to the Working Library

1. Select the “Working Library” title to be taken to the Working Library list.
2. From the title bar, select “Documents” and then “Upload Document”
