

CERTIFICATES OF VETERINARY INSPECTION

Importation Requirements for Companion Animals and Equine

Abbreviations:

CVI: Certificate of Veterinary Inspection; **OHC:** Official Health Certificate; **HC:** Health Certificate

EIA: Equine Infectious Anemia; **VS:** Vesicular Stomatitis; **CEM:** Contagious Equine Metritis; **EVA:** Equine Viral Arteritis

State	Dogs	Cats	Ferrets	Pet Birds	Rabbits	Horses (and other equidae)	Comments
AL	<p>CVI required.</p> <ul style="list-style-type: none"> ❖ Must show official vaccination against rabies, vaccination certificates and rabies tags. ❖ Puppies under 3 months of age may be admitted without vaccination 	<p>CVI required.</p> <ul style="list-style-type: none"> ❖ Must show official vaccination against rabies, vaccination certificates and rabies tags. ❖ Domesticated kittens under 3 months of age may be admitted without vaccination 	N/A	N/A	N/A	<p>CVI required.</p> <ul style="list-style-type: none"> ❖ Must state they are free of contagious, infectious or communicable disease. ❖ Must contain documented negative EIA test within 12 months prior to entry. 	<ul style="list-style-type: none"> ❖ Dogs and cats imported into the state for exhibition purposes and which do not remain in the state for more than 21 days are exempt. ❖ Horses and mules of the U.S. Army are exempt.
AK	<p>Official Health Certificate required.</p> <ul style="list-style-type: none"> ❖ Certification that dog has not been exposed to rabies and has been vaccinated against rabies. 	<p>Official Health Certificate required.</p> <ul style="list-style-type: none"> ❖ Certification that cat has not been exposed to rabies and has been vaccinated against rabies. 	<p>Official Health Certificate required.</p> <p>Certification that ferret has not been exposed to rabies and has been vaccinated against rabies.</p>	N/A	N/A	<p>Official Health Certificate and Import Permit required.</p> <ul style="list-style-type: none"> ❖ For equine over 6 months, the OHC must include certification of a negative EIA test within 60 days before importation. 	<ul style="list-style-type: none"> ❖ Dogs and cats imported from a rabies quarantine area must have an import permit. ❖ Equine EIA test must be performed by laboratory approved by USDA.
AZ	<p>CVI required.</p> <ul style="list-style-type: none"> ❖ Certificate must contain an original signature and document that the animal has been vaccinated against rabies. 	<p>CVI required.</p> <ul style="list-style-type: none"> ❖ Certificate must contain an original signature and document that the animal has been vaccinated against rabies. 	<p>CVI required.</p>	<p>CVI required.</p> <ul style="list-style-type: none"> ❖ Certificate must certify that the bird is not infected with and has not been exposed to avian 	<p>CVI required.</p>	<p>CVI required.</p> <ul style="list-style-type: none"> ❖ Horses 6 months and older require a negative EIA test within a year prior to importation. ❖ Horses may not enter the state with a pending EIA test 	<ul style="list-style-type: none"> ❖ All animals and poultry transported or moved into the state of, unless otherwise provided for in state regulation, must be accompanied by an official health certificate from the state of origin, and the

				chlamydia		<p>result.</p> <ul style="list-style-type: none"> ❖ Test result, date of test, lab name and lab accession number must be recorded on the certificate. ❖ Health certificate must include age, sex, breed, color, name, brand, tattoo, scars, and distinctive markings. ❖ Horses with fistulous withers or poll evil cannot be imported. 	documents must be in possession of the driver of the vehicle or person in charge of the animals.
AR	<p>CVI required.</p> <ul style="list-style-type: none"> ❖ Must be vaccinated against rabies not more than 12 months prior to entry ❖ Dogs under 4 months of age are exempt 	<p>CVI required.</p> <ul style="list-style-type: none"> ❖ Must be vaccinated against rabies not more than 12 months prior to entry ❖ Cats under 4 months of age are exempt 	N/A	<p>CVI and entry permit required.</p> <ul style="list-style-type: none"> ❖ CVI must be issued within 30 days of entry ❖ CVI and permit rule for pet birds applies to psittacine birds, passerine birds, and all other non-poultry avian species. 	N/A	<p>CVI required.</p> <ul style="list-style-type: none"> ❖ CVI must contain ID and temperature of the horse. ❖ All equidae over 6 months of age must have a negative EIA test within 12 months prior to entry.* ❖ CVI must show EIA test's case number and laboratory. 	<ul style="list-style-type: none"> ❖ Arkansas will accept a three (3) year rabies vaccination if the dog or cat has had at least one previous rabies vaccine. ❖ Weanlings or foals under 6 months old that the status of dam is unknown, or dam is positive for EIA must show a negative EIA test. ❖ Foals under 6 months old may enter with or without dam if dam has a negative test within 12 months of entry.
CA	<p>CVI not required (exception applies for sellers)</p> <ul style="list-style-type: none"> ❖ Dogs over 4 months of age must have a certificate of current rabies vaccination, but no 	<p>CVI not required.</p> <ul style="list-style-type: none"> ❖ Domestic cats must be apparently healthy, but no CVI is required. 	N/A	N/A	<p>CVI not required.</p> <ul style="list-style-type: none"> ❖ Must be apparently healthy ❖ CVI is recommended, not required. 	<p>CVI from state of origin required.</p> <ul style="list-style-type: none"> ❖ CVI must state that they are free from evidence of any communicable disease ❖ Must have a negative EIA test in 	<ul style="list-style-type: none"> ❖ Pending EIA test results are not accepted. ❖ Other horses exempt from EIA test requirement are: (1) CA "working horses" used for seasonal ranching purposes outside CA if prior permit is obtained;

	<p>CVI.</p> <ul style="list-style-type: none"> ❖ Persons bringing dogs into California with intent to sell or transfer ownership must have a health certificate completed by a licensed veterinarian within the 10 days prior to the date of importation. 					<p>a USDA approved laboratory within 6 months prior to entry.</p> <ul style="list-style-type: none"> ❖ Nursing foals less than 6 months of age accompanied by EIA negative dam are exempt from EIA test requirement. 	<p>(2) equidae consigned for immediate slaughter; and (3) equidae moved from CA to another state (continental U.S. only) for a period of not more than 14 days.</p>
CO	<p>CVI required.</p> <ul style="list-style-type: none"> ❖ CVI must be issued by accredited veterinarian within 30 days prior to entry. ❖ Must indicate dog is free from rabies exposure. ❖ Dogs over 3 months of age must be vaccinated for rabies within 12 months prior to entry. ❖ Type of vaccination and date of administration must be listed on CVI. 	<p>CVI required.</p> <ul style="list-style-type: none"> ❖ CVI must be issued by accredited veterinarian within 30 days prior to entry. ❖ Must indicate cat is free from rabies exposure. ❖ Cats over 3 months of age must be vaccinated for rabies within 12 months prior to entry. ❖ Type of vaccination and date of administration must be listed on CVI. 	<p>CVI required.</p> <ul style="list-style-type: none"> ❖ CVI must be issued by accredited veterinarian w/in 30 days prior to entry. ❖ No testing required. 	<p>CVI required.</p> <ul style="list-style-type: none"> ❖ CVI must be issued by accredited veterinarian w/in 30 days prior to entry. ❖ No testing required. 	<p>CVI required.</p> <ul style="list-style-type: none"> ❖ CVI must be issued by accredited veterinarian w/in 30 days prior to entry. ❖ No vaccinations required. 	<p>CVI required.</p> <ul style="list-style-type: none"> ❖ CVI must be issued by accredited veterinarian within 30 days prior to entry. ❖ Official animal ID numbers must be listed. ❖ Negative EIA test within 12 months prior to entry required. ❖ Date of EIA test, results, laboratory, and accession number must be listed on CVI. 	<ul style="list-style-type: none"> ❖ All psittacine birds to be sold or transferred to a new owner shall be banded with an approved bird band prior to entry. ❖ All blood samples for EIA testing shall be collected by a state, federal, or accredited veterinarian except for foals under 6 months that are nursing and accompanied by EIA-negative dam. ❖ If dam does not accompany foal, then foal must test negative prior to entry.
CT	<p>Certificate of Health required.</p> <ul style="list-style-type: none"> ❖ COH must be issued no more than 30 days prior to entry by a licensed veterinarian and 	<p>Certificate of Health required.</p> <ul style="list-style-type: none"> ❖ COH must be issued no more than 30 days prior to entry by a licensed veterinarian and approved by proper livestock sanitary 	N/A	<p>Official Interstate Health Certificate required.</p> <ul style="list-style-type: none"> ❖ All waterfowl and pet zoological or psittacine birds must be 	<p>Official Interstate Health Certificate required.</p>	<p>Official Interstate Health Certificate required.</p> <ul style="list-style-type: none"> ❖ IHC required within 30 days prior to entry ❖ Official negative EIA test within 	<ul style="list-style-type: none"> ❖ Any person may import from another state any licensed dog with a collar and tag, and keep the dog in the state for not more than 30 days without complying with COH or rabies

	<p>approved by proper livestock sanitary official of state of origin.</p> <ul style="list-style-type: none"> ❖ Must state that dog is free from clinical signs of infectious, contagious or communicable disease and is not from an area under rabies quarantine. ❖ Any dog over 3 months of age must have proof of current rabies vaccination given by veterinarian prior to date of importation; and must have no exposure to rabies within past 100 days. 	<p>official of state of origin.</p> <ul style="list-style-type: none"> ❖ Must state that cat is free from clinical signs of infectious, contagious or communicable disease and is not from an area under rabies quarantine. ❖ Any cat over 3 months of age must have proof of current rabies vaccination given by veterinarian prior to date of importation; and must have no exposure to rabies within past 100 days. 		<p>accompanied by a copy of an official interstate health certificate.</p> <ul style="list-style-type: none"> ❖ All psittacine birds, except budgerigars, imported into Connecticut to be offered for sale shall remain in quarantine for a period of not less than seven days. 		<p>period of 12 months prior to entry required.</p> <ul style="list-style-type: none"> ❖ Equine without EIA certificate or a positive EIA test may be shipped into the state for research or immediate slaughter with special permit. ❖ All equines present for public auction must have health certificate issued by a licensed veterinarian and cosigned by the State Veterinarian within 10 days prior to auction; along with negative EIA test within 60 days prior to auction. 	<p>requirements.</p> <ul style="list-style-type: none"> ❖ No person firm or corporation may import or export for purposes of sale or offering for sale, or sell within the state, any dog under age of 8 weeks unless transported with its dam. ❖ Wolves or wolf hybrids are illegal to import into the State of Connecticut. ❖
DE	<p>Official Health Certificate required.</p> <ul style="list-style-type: none"> ❖ Dogs over 4 months of age must be vaccinated for rabies. ❖ Type of rabies vaccine and date of administration must be included on the OHC. ❖ Dogs may not originate in a rabies quarantine area. 	<p>Official Health Certificate required.</p> <ul style="list-style-type: none"> ❖ OHC must state that cats are free of any infectious or contagious disease or exposure thereto. ❖ All cats 6 months of age and older must be vaccinated for rabies. 	N/A	<p>Official Health Certificate required</p> <ul style="list-style-type: none"> ❖ For <i>psittacine birds</i>: A health certificate is required indicating the birds are from an area free of Psittacosis. 	<p>Official Health Certificate required.</p> <ul style="list-style-type: none"> ❖ Must be accompanied by a copy of an official interstate health certificate ❖ Subject to the general animal importation requirements. 	<p>Official Health Certificate required.</p> <ul style="list-style-type: none"> ❖ OHC must state they are free from any infectious or contagious diseases and have not been exposed thereto. ❖ Must have negative EIA test within 12 months prior to entry. ❖ All horses assembled at show, fair, race meet, or other function must have negative EIA test within 12 months prior to the 	<ul style="list-style-type: none"> ❖ OHC must include horses' temperature readings taken not more than 10 days prior to entry. ❖ Horses with temperatures above 102 degrees Fahrenheit are not permitted entry. ❖ All horses consigned to auction or sale in DE must have a negative EIA test conducted within 6 months prior to event.

						event.	
FL	<p>CVI required.</p> <ul style="list-style-type: none"> ❖ CVI must state the dog is free from signs of infectious or communicable disease, did not originate within a rabies quarantine area, and are not known to have a history or exposure to a rabies-infected animal prior to importation. ❖ Dogs 3 months of age and older must have current rabies vaccination. 	<p>CVI required.</p> <ul style="list-style-type: none"> ❖ CVI must state the cat is free from signs of infectious or communicable disease, did not originate within a rabies quarantine area, and are not known to have a history or exposure to a rabies-infected animal prior to importation. ❖ Cats 3 months of age and older must have current rabies vaccination. 	N/A	N/A	N/A	<p>CVI required.</p> <ul style="list-style-type: none"> ❖ Must have negative EIA test within 12 months prior to importation, except foals under 6 months of age accompanied by their dam which is EIA negative. ❖ Equidae consigned directly to a veterinary medical treatment facility for emergency medical care and placed under quarantine at the facility until recovery and then exits the state, are exempt. 	<ul style="list-style-type: none"> ❖ Dogs or cats originating from areas under quarantine for rabies must have prior permission from the Department of Agriculture for entry. ❖ Equidae accompanied by an Equine Event Extension, Equine Interstate Passport Card, or equivalent, of the state of origin, signed by the State Veterinarian or chief animal health official are exempt from the CVI requirement.
GA	<p>CVI required for dogs flying in from another state (not those arriving by car)</p> <ul style="list-style-type: none"> ❖ Dogs 12 weeks of age or older must have proof of a current rabies vaccination. Both 1 and 3 year vaccinations are recognized. 	<p>CVI required for cats flying in from another state (not those arriving by car)</p> <ul style="list-style-type: none"> ❖ Cats 12 weeks of age or older must have proof of a current rabies vaccination. Both 1 and 3 year vaccinations are recognized. 	<p>CVI not required.</p> <ul style="list-style-type: none"> ❖ Ferrets 12 weeks of age or older must have proof of current rabies vaccination. ❖ Ferrets 7 months of age or older must be sexually altered prior to entry except those exempted by license or permit. 	<p>CVI required.</p> <ul style="list-style-type: none"> ❖ All exotic and pet birds entering Georgia for any purpose require a permit from the state Animal health Section ❖ All exotic and pet bird exhibitions and sales are required to obtain a permit at least twenty-one (21) days prior to the opening of the 	<p>CVI required.</p>	<p>CVI required.</p> <ul style="list-style-type: none"> ❖ All equine must have a negative EIA test within 12 months prior to importation. ❖ Negative EIA test must be recorded on the CVI along with the date of test, name and address of the testing laboratory and the accession number. ❖ Suckling foals less than 6 months of age traveling with a negative EIA dam are exempt from EIA testing. ❖ Equine from quarantined herd or 	<ul style="list-style-type: none"> ❖ All pets, except fish and rodents, entering GA for sale, trade, or exchange for a fee or other type of compensation must be accompanied by a CVI issued within the previous 30 days. The CVI must record proof of the health requirements for each species. ❖ Companion animals traveling by commercial carrier require a CVI issued within 10 days of shipment, showing proof of required vaccinations. ❖ Equine imported for exhibition and consigned to petting

				<p>exhibition or sale.</p> <ul style="list-style-type: none"> ❖ The Java Rice Bird and the Quaker or Monk Parakeet are restricted from entry without special permit. ❖ It is unlawful to bring into Georgia any psittacine bird or other exotic bird coming directly or indirectly from outside the U.S. unless the bird was brought into the U.S. in conformity with the quarantine regulations of the USDA. 		<p>areas may not move except under permit obtained from the GA State Veterinarian.</p>	<p>zoos must have an EIA negative test within 12 months prior to entry regardless of age.</p>
HI	<p>Health Certificate required.</p> <ul style="list-style-type: none"> ❖ Health certificate must be accompanied by a dog import form, two rabies vaccination certificates and pre-payment no less than 10 days prior to arrival in order to qualify for the 5-Day-or-Less Quarantine Program or Airport 	<p>Health Certificate required.</p> <ul style="list-style-type: none"> ❖ Health certificate must be accompanied by a cat import form, two rabies vaccination certificates and pre-payment no less than 10 days prior to arrival in order to qualify for the 5-Day-or-Less Quarantine Program or Airport Release Program. ❖ Those cats meeting the requirements qualify for the 5-Day-or-Less 	N/A	<p>CVI required.</p> <ul style="list-style-type: none"> ❖ All poultry, birds, day-old chicks, and hatching eggs require a Poultry and Bird Import Permit (West Nile Virus Import Permit), through the Livestock Disease Control Branch, Department of Agriculture ❖ Most types of 	<p>CVI required.</p> <ul style="list-style-type: none"> ❖ Rabbits imported into Hawaii require a Certificate of Veterinary Inspection (CVI), also known as a health certificate. ❖ The CVI must be issued and signed by a State, Federal, or accredited 	<p>CVI required</p> <ul style="list-style-type: none"> ❖ Tested for Equine Infectious Anemia (EIA) by an USDA Animal and Plant Health Inspection Service approved laboratory within 90 days of shipment. Importer required to have imported horse retested for EIA 45 – 60 days after entry. 	<ul style="list-style-type: none"> ❖ Puppies and kittens unable to meet the requirements of the 5-Day-or-Less Program will be quarantined for 120 days. ❖ The exceptions to the seven days pre-arrival isolation requirement are: hatching eggs and day-old birds, and chickens, pheasants, quail, chuckers, rock doves (domestic pigeons), and budgerigars, that are

	<p>Release Program.</p> <ul style="list-style-type: none"> ❖ Those dogs meeting the requirements qualify for the 5-Day-or-Less Program with a provision for direct release at the Honolulu Airport after inspection. (See “Checklist For 5-Day-Or-Less Program”) ❖ Dogs not meeting the requirements may be quarantined for up to 120 days upon arrival. 	<p>Program with a provision for direct release at the Honolulu Airport after inspection. (See “Checklist For 5-Day-Or-Less Program”)</p> <ul style="list-style-type: none"> ❖ Cats not meeting the requirements may be quarantined for up to 120 days upon arrival. 		<p>birds entering the State must complete a pre-arrival isolation requirement of seven days (168 hours), within 36 hours of entry</p> <ul style="list-style-type: none"> ❖ In addition, a Certificate of Veterinary Inspection (CVI) must state that birds were not vaccinated for any disease with a vaccine containing a live agent within 60 days of shipment. 	<p>veterinarian within seven (7) days prior to arrival in Hawaii.</p>	<ul style="list-style-type: none"> ❖ Sponged or sprayed with a USDA Animal and Plant Health Inspection Service approved pesticide within seven days ❖ Vaccinated with a USDA Animal and Plant Health Inspection Service approved equine encephalomyelitis vaccine, no less than 15 days before shipment. ❖ Include the following statements on the Certificate of Veterinary Inspection (CVI): Animals are free of external parasites and other listed diseases. 	<p>older than four weeks.</p> <ul style="list-style-type: none"> ❖ Rabbits are required to enter the State <u>only through the Honolulu International Airport</u> where they are required to be submitted by an agent of the airline carrier to the Airport Animal Quarantine Holding Facility for inspection
ID	<p>CVI required.</p> <ul style="list-style-type: none"> ❖ All dogs must be free from communicable diseases and require a current rabies vaccination. Dogs 3 months of age and older originating from a rabies quarantine area require a special permit. 	<p>CVI required.</p> <ul style="list-style-type: none"> ❖ All cats must be free of communicable disease and those 3 months of age or older require a current rabies vaccination. 	<p>CVI required.</p>	<p>CVI required.</p> <ul style="list-style-type: none"> ❖ All psittacine birds moving into Idaho for purpose of commercial sale also require an entry permit. 	<p>CVI required.</p>	<p>CVI required.</p> <ul style="list-style-type: none"> ❖ Idaho State Department of Agriculture will accept the 6 month equine health certificate from CA, MT, NV, OR and WA. ❖ All equidae require a negative EIA test within 12 months prior to arrival (except nursing foals under 6 months of age accompanied by the dam). ❖ All intact male 	<ul style="list-style-type: none"> ❖ All animals transported or moved into the state shall be accompanied by a CVI, unless specifically provided otherwise in state regulations. ❖ Equine semen may be imported with one of the above statements, regarding the stallion it came from.

						<p>equines will require one of the following statements on their CVI: (1) “Vaccinated for EVA” (a copy of the animal’s test and vaccination certificate must be attached), (2) “Seropositive Carrier of EVA” (test date required on CVI), (3) “Seropositive Non-Shedder of EVA” (a copy of negative semen EVA virus isolation result must be attached to CVI, or (4) “Unknown EVA Status.”</p>	
IL	<p>CVI required.</p> <ul style="list-style-type: none"> ❖ CVI must be issued within 30 days of arrival and show freedom from disease. ❖ Dogs must originate in a non-rabies quarantine area. ❖ Dogs 16 weeks of age and older must be vaccinated against rabies. 	<p>CVI not required.</p> <ul style="list-style-type: none"> ❖ No entry requirements provided. 	N/A	<p>CVI required.*</p> <ul style="list-style-type: none"> ❖ All psittacine birds must be accompanied by an entry permit and CVI. 	<p>CVI not required.</p> <ul style="list-style-type: none"> ❖ No entry requirements provided. 	<p>CVI required.</p> <ul style="list-style-type: none"> ❖ All equidae over 12 months of age entering for any reason other than immediate slaughter must have an entry permit and CVI issued by accredited veterinarian of the state of origin within 30 days prior to entry. ❖ Must have a negative EIA test within 12 months prior to entry. 	<ul style="list-style-type: none"> ❖ Dogs consigned to hospitals, pharmaceutical companies or licensed research institutions for research or teaching are exempt from CVI and rabies requirements. ❖ Equidae entering the state for immediate slaughter shall be accompanied by a consignment direct to slaughter at an approved equine slaughtering establishment.
IN	<p>CVI required.</p> <ul style="list-style-type: none"> ❖ CVI must be completed by licensed veterinarian within 	<p>CVI required.</p> <ul style="list-style-type: none"> ❖ CVI must be completed by licensed veterinarian within 30 days immediately prior to 	<p>CVI required.</p> <ul style="list-style-type: none"> ❖ CVI must be completed by licensed veterinarian 	N/A	N/A	<p>CVI required.</p> <ul style="list-style-type: none"> ❖ CVI must be completed by a licensed veterinarian within 30 days 	<ul style="list-style-type: none"> ❖ An animal suspected of having rabies may not be transported into IN. ❖ An animal that has been exposed to an animal

	<p>30 days immediately prior to entry.</p> <ul style="list-style-type: none"> ❖ Entry permits not required unless the dog originates from a rabies quarantine area. ❖ Every dog 3 months of age or older must be vaccinated for rabies within the 12 months or 36 months immediately prior to entry (depending on whether 1 or 3 year vaccine was used). 	<p>entry.</p> <ul style="list-style-type: none"> ❖ Entry permits not required unless the cat originates from a rabies quarantine area. ❖ Every cat 3 months of age or older must be vaccinated for rabies within the 12 months or 36 months immediately prior to entry (depending on whether 1 or 3 year vaccine was used). 	<p>within 30 days immediately prior to entry.</p> <ul style="list-style-type: none"> ❖ Entry permits not required unless the ferret originates from a rabies quarantine area. ❖ Every ferret must be vaccinated for rabies within 12 months immediately prior to entry. 			<p>immediately prior to entry.</p> <ul style="list-style-type: none"> ❖ Must have a negative EIA test within 12 months immediately prior to entry. Animals that test positive may not enter. ❖ Suckling foals accompanied by their dam that has tested negative for EIA within the last 12 months and equine delivered directly to an IN licensed auction market and sold for slaughter, are exempt from the EIA testing requirements. 	<p>infected with rabies may not be brought into IN for one year from the date of exposure.</p> <ul style="list-style-type: none"> ❖ Additional vaccines are required for the exhibition of dogs and cats in IN. ❖ CVI is <i>not</i> required for equine consigned for immediate slaughter or that are delivered directly to a slaughter establishment.
IA	<p>CVI required.</p> <ul style="list-style-type: none"> ❖ CVI must indicate apparent freedom from disease or exposure to infectious or contagious disease. ❖ All dogs 4 months of age and older must have a current rabies vaccination. 	<p>CVI required.</p> <ul style="list-style-type: none"> ❖ CVI must indicate apparent freedom from disease or exposure to infectious or contagious disease. ❖ No cats from a rabies quarantined area will be admitted. ❖ No rabies vaccination is required. 	N/A	N/A	N/A	<p>CVI required.</p> <ul style="list-style-type: none"> ❖ CVI must indicate that each animal over 6 months of age in the shipment has been tested negative for EIA within 12 months of importation. ❖ Foals under 6 months of age accompanied by their dams that meet EIA test requirements are exempt from the EIA test requirement. ❖ The name of the testing laboratory, accession number 	<ul style="list-style-type: none"> ❖ Dogs entering for exhibition and performing dogs entering for a limited period of time are exempt from the CVI requirement.

						and date of the test must be included on the CVI.	
KS	<p>CVI required.</p> <ul style="list-style-type: none"> ❖ Dogs over 3 months of age must have proof of a current rabies vaccination. 	<p>CVI required.</p> <ul style="list-style-type: none"> ❖ Cats over 3 months of age must have proof of a current rabies vaccination. 	CVI required.	CVI required.	CVI required.	<p>CVI required.</p> <ul style="list-style-type: none"> ❖ Horses, asses and zebras must have a negative EIA test within 12 months prior to entry. ❖ Foals under 6 months of age, nursing their negative dams are not required to be tested. 	N/A
KY	<p>CVI required.</p> <ul style="list-style-type: none"> ❖ All dogs over 4 months of age imported for sale, exhibition or any other purpose shall be vaccinated against rabies by a licensed veterinarian. 	<p>CVI required.</p> <ul style="list-style-type: none"> ❖ All cats over 4 months of age imported for sale, exhibition or any other purpose shall be vaccinated against rabies by a licensed veterinarian. 	<p>CVI required.</p> <ul style="list-style-type: none"> ❖ All ferrets over 4 months of age imported for sale, exhibition or any other purpose shall be vaccinated against rabies by a licensed veterinarian. 	<p>CVI required.</p> <ul style="list-style-type: none"> ❖ All imported psittacine or pet birds shall be accompanied by a CVI and be inspected and found free of infectious and communicable diseases within 15 days immediately prior to entry. 	CVI required.	<p>CVI required.</p> <ul style="list-style-type: none"> ❖ All horses or other equidae, except unweaned foals accompanied by their dam shall be negative to an EIA test within 12 months prior to entry or shall be tested for EIA within 2 weeks of entry. 	<ul style="list-style-type: none"> ❖ Service dogs are exempt from CVI requirement, but must have a current rabies vaccination certificate. ❖ An Equine Interstate Event Permit from states participating with Kentucky shall be accepted for exhibition purposes in lieu of the CVI and EIA test report if they are within 6 months of the issue date and there has been no change of ownership.
LA	<p>Official Health Certificate required.</p> <ul style="list-style-type: none"> ❖ OHC must be issued by an accredited veterinarian and 	<p>Official Health Certificate required.</p> <ul style="list-style-type: none"> ❖ OHC must be issued by an accredited veterinarian and must show immunization 	N/A	<p>Entry Permit required.*</p> <ul style="list-style-type: none"> ❖ Psittacine birds and mynah birds may be 	Official Health Certificate required.	<p>Official Health Certificate required.</p> <ul style="list-style-type: none"> ❖ OHC must state the animals are healthy, free from signs of infectious or 	<ul style="list-style-type: none"> ❖ Dogs and cats 3 months of age and younger are exempt from the rabies vaccination requirement.

	<p>must show immunization against rabies within 12 months prior to entry.</p> <ul style="list-style-type: none"> ❖ OHC must state the dogs are healthy, free from signs of infectious or contagious diseases and signs of internal and/or external parasites. 	<p>against rabies within 12 months prior to entry.</p> <ul style="list-style-type: none"> ❖ OHC must state the cats are healthy, free from signs of infectious or contagious diseases and signs of internal and/or external parasites. 		<p>imported into LA under permit by the State Veterinarian. All birds imported into LA will be quarantined at destination for 90 days.</p>		<p>contagious diseases and signs of internal and/or external parasites.</p> <ul style="list-style-type: none"> ❖ OHC is valid for 30 days only. ❖ All horses must be accompanied by a record of a negative EIA test within the 12 months prior to entry. The laboratory name, case number, results, and date of test must appear on the health certificate. 	
ME	<p>CVI not required*</p> <ul style="list-style-type: none"> ❖ Dogs not imported for resale, 3 months of age and older, must have a current rabies vaccination. ❖ Dogs imported for adoption, resale or exhibition must have a CVI and an entry permit. Dogs imported for exhibition may only reside at the place of exhibition and may not be moved to any private place or farm in Maine. 	<p>CVI not required*</p> <ul style="list-style-type: none"> ❖ Cats not imported for resale, 3 months of age and older, must have a current rabies vaccination. ❖ Cats imported for adoption, resale or exhibition must have a CVI and an entry permit. ❖ Cats imported for exhibition may only reside at the place of exhibition and may not be moved to any private place or farm in Maine. 	<p>CVI not required*</p> <ul style="list-style-type: none"> ❖ Ferrets not imported for resale do not require a CVI. ❖ A person importing ferrets for resale may only obtain ferrets from suppliers who have obtained a permit for shipping ferrets into Maine. ❖ Ferrets imported 	<p>CVI not required*</p> <ul style="list-style-type: none"> ❖ Pet birds without a change of ownership do not require a CVI. ❖ Pet birds imported for resale require a CVI within 30 days prior to importation. ❖ Any person importing pet birds for resale may only obtain pet birds from suppliers who have obtained a permit from the Maine Department of Agriculture. 	N/A	<p>CVI required.</p> <ul style="list-style-type: none"> ❖ CVI must have been issued within the 30 days preceding importation. ❖ An official equine infectious anemia test must be conducted with negative results within 12 months preceding the date of importation for all animals 180 days of age and older.
