American Journal of Veterinary Research

Index for Volume 72
No. 1 – 12    January – December 2011

Published by

AMERICAN VETERINARY MEDICAL ASSOCIATION

1931 N MEACHAM RD, SUITE 100, SCHAUMBURG, IL 60173-4360
## Index to News

**A**

**Access to Animal-Related Careers Program**
AAVMC gives accolades, 725

**Accreditation**

Education council schedules site visits, 7
3 universities interested in veterinary programs, 18
AVMA COE accredits Ross, UNAM, 590
Coconut trees and DVM degrees, 590
Views on NAVMEC draft report shared, 723
Ross dean retires after school accredited, 724
Organization to accredit public health departments, 725
House to consider accreditation of foreign schools, 861
Education council schedules site visits, 862
St George’s inching closer to accreditation, 864
HOD acts on global, governance, policy, and bylaws issues, 1147
NAVMEC ready for implementation, 1294
Education council schedules site visits, 1294
USDA accreditation training available, 1295
Foreign accreditation, AVMA governance to be reviewed, 1424
St George’s accredited by COE, 1562

**Acquisitions**

AVMA to purchase assets of economics commission, 1003

**Adobe Animal Hospital**

Stem cells in theory and practice, 290

**Adult Feline Progenitor Cells**

Winn awards grants for feline research, 865

**Adverse Reactions**

Groups issue warnings on improper vaccine use, 863

**Afghan Hounds**

Study examines causes of death in dogs, 859

**Africa**

Project: veterinary supplies, 6

**Agricultural Research**

Genetic markers could help avoid cattle disease, 1564

**Agriculture Appropriations Bill**

Congress could intervene over modified salmon, 1291

**AHA Animal Welfare and Research Institute**

Olson to lead new AHA welfare initiative, 593

**Alabama**

Tuskegee veterinary alumnus donates to school, 157
We’re all in this together, 723
AVMA announces new officials, candidacies, 1146
AVMA announces participants in Future Leaders Program, 1149
Student scholarships awarded; more available, 1293

**Alamo Pintado Equine Medical Center**

Stem cells in theory and practice, 290

**Alaska**

Congress could intervene over modified salmon, 1291

**American Academy of Veterinary Nutrition (AAVN)**

Nutrition research funded, 1149

**American Animal Hospital Association (AAHA)**

World Veterinary Year kicks off Jan 1, 6
AVMA to purchase assets of economics commission, 1003
Partnership to promote preventive care, 1146

**American Association of Equine Practitioners (AAEP)**

Renewed focus on race-day medications, 863
Study to consider internship experiences, expectations, 1003

**American Association of Feline Practitioners (AAFP)**

Research initiatives focus on animal health, human-animal bond, 722
Partnership launches cat health initiative, 1563

**American Association of Veterinary Clinicians (AAVC)**

Study to consider internship experiences, expectations, 1003

**American Association of Veterinary Clinicians’ Veterinary Internship and Residency Matching Program**

Board looks at veterinary economics, other issues, 721

**American Association of Veterinary Immunologists (AAVI)**

CRWAD dedicated to veterinary microbiologist Maheswaran, 427

**American Association of Veterinary Parasitologists (AAVP)**

CRWAD dedicated to veterinary microbiologist Maheswaran, 427

**American Board of Veterinary Practitioners (ABVP)**

AVMA gives accolades, 725

**American College of Laboratory Animal Medicine (ACLAM)**

Proposal to schedule propofol draws reactions, 592

**American College of Poultry Veterinarians (ACPV)**

Oklahoma State’s new dean gets to work, 1565

**American College of Veterinary Anesthesiologists (ACVA)**

Proposal to schedule propofol draws reactions, 592

**American College of Veterinary Clinical Pharmacology (ACVCP)**

American College of Veterinary Clinical Pharmacology, 2011;72:1149
Correction: 2011;72:1298

**American College of Veterinary Emergency and Critical Care (ACVECC)**

University of Minnesota launches Animal Trauma Center, 591

**American College of Veterinary Internal Medicine (ACVM)**

ACVM honors researchers, 1298
Colorado professor takes over as NC State dean, 1565

**American College of Veterinary Microbiologists (ACVM)**

CRWAD dedicated to veterinary microbiologist Maheswaran, 427
Olson to lead new AHA welfare initiative, 593
Board looks at veterinary economics, other issues, 721

**American College of Veterinary Pathology (ACVP)**

ACVP announces diplomates, 429

**American College of Veterinary Sports Medicine and Rehabilitation (ACVS)**

Sports medicine and rehab specialty to publish certification requirements, 860
New specialty college issues certification requirements, sets exam date, 1294

**American College of Veterinary Surgeons (ACVS)**

Veterinary editors added to AVMA publications staff, 1563

**American Humane Association (AHA)**

Japan’s animal relief operations face considerable challenges, 589
Olson to lead new AHA welfare initiative, 593

**American Kennel Club**

Student scholarships awarded; more available, 1293

**American Medical Association Resident Work House Policy**

SAVMA heading in a new direction, 722

**American Pet Products Association (APPA)**

Research initiatives focus on animal health, human-animal bond, 722
AVMA adopts plan addressing vet profession’s economic woes, 1423
American Society of Veterinary Medical Association Executives (ASVMAE)
Committee to improve AVMA for young members, 1003

American Veterinary Medical Association (AVMA)
World Veterinary Year kicks off Jan 1, 6
AVMA seeks input on model practice act, 7
Veterinarian’s Oath amended, among Executive Board actions, 7
Proposal to schedule propofol draws reactions, 592
Veterinary public health bills back before Congress, 592
AVMA to purchase assets of economics commission, 1003
Committee to improve AVMA for young members, 1003
Partnership to promote preventive care, 1146
AVMA recognizes contributions to profession, 1148
AVMA announces participants in Future Leaders Program, 1149
NAVMEC ready for implementation, 1292
Student loan subsidy’s end raises concerns, 1292
Sites offer help with waste issues, 1295
AVMA, FVE strengthen ties with joint statements, 1425
Partnership launches cat health initiative, 1563

American Veterinary Medical Foundation (AVMF)
Auxiliary considers leaving loan business, 158
AVMF makes disaster preparedness possible, 292
AVMF seeking scholarship, disaster training applications, 426
Board looks at veterinary economics, other issues, 721
Research initiatives focus on animal health, human-animal bond, 722
AVMA Annual Convention attracts thousands of attendees, 1147
Student scholarships awarded; more available, 1293

Analytic & Diagnostic Techniques
Researchers map sites of early FMD infection, 160
Veterinary public health bills back before Congress, 592
Safety guidance addresses radiation in the workplace, 863

Anaplasma marginale
School for Global Animal Health receives $26 million, 158

Anesthesiology
Proposal to schedule propofol draws reactions, 592

Animal Agriculture Liaison Committee (AALC)
Congress could intervene over modified salmon, 1291

Animal Decontamination Best Practice Working Group
Panel recommends protocols to aid animals in Japan’s “no-go” zone, 16
Expert panel to address radiologic impact on animals near Japan nuclear plant, 724

Animal Health
Captive elephant welfare study under way, 159
Nine veterinarians to aid USDA on animal health issues, 159

Animal Health Institute (AHI)
CRWAD dedicated to veterinary microbiologist Maheswaran, 427

Animal Health Network
Research initiatives focus on animal health, human-animal bond, 722

Animal Rights
Captive elephant welfare study under way, 159

Animal Welfare
Veterinarian’s Oath amended, among Executive Board actions, 7
Captive elephant welfare study under way, 159
Japan’s animal relief operations face considerable challenges, 589
Olson to lead new AHA welfare initiative, 593
Renewed focus on race-day medications, 863
TAMU Equine Initiative receives $2.5 million grant, 1001
Executive Board actions range from strategic plan to stem cells, 1002
Partnership to promote preventive care, 1146
Cousteau: we all have an echo, 1148
AVMA, FVE strengthen ties with joint statements, 1425

Animal Welfare Act
Parham named new APHIS administrator, 591

Anniversaries
Profession’s global leaders converge on Paris, 426

Antimicrobial Resistance
Phages gaining attention, 9

Antimicrobials
Veterinarian’s Oath amended, among Executive Board actions, 7
Cloned lysins could be used as antimicrobials, 159
AVMA, FVE strengthen ties with joint statements, 1425

Appetite Regulation
University to establish mouse research center, 1566

Applications
Deadline for AVMA fellowship approaching, 158

Appointments
Iowa State fills deanship internally, 9
NC State appoints veterinary dean as provost, 157
Parham named new APHIS administrator, 591
UC-Davis to add poultry veterinarian to faculty, 591
Olson to lead new AHA welfare initiative, 593
Ross dean retires after school accredited, 724
Colorado State searches for dean, 1001
New vet dean for UC-Davis, 1296
Colorado professor takes over as NC State dean, 1565
Oklahoma State’s new dean gets to work, 1565

AquaBounty Technologies
Congress could intervene over modified salmon, 1291

AquaAdvantage
Congress could intervene over modified salmon, 1291

Arizona
3 universities interested in veterinary programs, 18

Arkansas
3 universities interested in veterinary programs, 18
Food safety problem-solving method to be explored with grant, 293
Reconciling scope-of-practice disputes, 425
HOD acts on global, governance, policy, and bylaws issues, 1147
Agriculture department funding climate, environmental studies, 1297
Foreign accreditation, AVMA governance to be reviewed, 1424

Arkansas Veterinary Medical Association
Foreign accreditation, AVMA governance to be reviewed, 1424

Artwork
Exhibition tells history of profession, 1149

Asia
Project: veterinary supplies, 6
Renewed focus on race-day medications, 863

Assistance Animals
Panel recommends protocols to aid animals in Japan’s “no-go” zone, 16
Expert panel to address radiologic impact on animals near Japan nuclear plant, 724
Honoring the dogs of 9/11, 1291

Association for Veterinary Epidemiology (AVE)
CRWAD dedicated to veterinary microbiologist Maheswaran, 427

Association of American Veterinary Medical Colleges (AAVMC)
World Veterinary Year kicks off Jan 1, 6
Comments invited on NAVMEC draft report, 8
Veterinary school applicant-to-seat ratio trending downward, 156
Profession’s global leaders converge on Paris, 426
Veterinary public health bills back before Congress, 592
AVMA heading in a new direction, 722
Views on NAVMEC draft report shared, 723
AAVMC gives accolades, 725
Executive Board actions range from strategic plan to stem cells, 1002
AVMA to purchase assets of economics commission, 1003
Study to consider internship experiences, expectations, 1003
Partnership to promote preventive care, 1146
Foreign externships benefiting veterinary students, 1291
NAVMEC ready for implementation, 1292
AVMA adopts plan addressing vet profession’s economic woes, 1423
Learning under the influence, 1563

Association of Racing Commissioners (ARC)
Renewed focus on race-day medications, 863

Association of Zoos and Aquariums (AZA)
Captive elephant welfare study underway, 159
Research reduces guesswork of ape transfusions, 291

Australia
Renewed focus on race-day medications, 863
Partnership launches cat health initiative, 1563

Auxiliary to the American Veterinary Medical Association
Auxiliary considers leaving loan business, 158

Avian Influenza
Award winner recognized for forward thinking, 1295
Veterinarians join global disaster congress, 1297

AVMA American Board of Veterinary Specialties (ABVS)
Board looks at veterinary economics, other issues, 721
Sports medicine and rehab specialty to publish certification requirements, 860
New specialists will have to maintain certification, 1004

AVMA Animal Health Studies Subcommittee
Research initiatives focus on animal health, human-animal bond, 722

AVMA Animal Welfare Committee (AWC)
Veterinarian’s Oath amended, among Executive Board actions, 7
Board looks at veterinary economics, other issues, 721

AVMA Annual Convention
2011 July 16-19
World Veterinary Year kicks off Jan 1, 6
Veterinarian’s Oath amended, among Executive Board actions, 7
Foreign externships benefit French, American students, 1004
AVMA Annual Convention attracts thousands of attendees, 1147
The votes are in for AVMA councils, HAC, 1147
Cousteau: we all have an echo, 1148
ACVIM honors researchers, 1298

AVMA Aquatic Veterinary Medicine Committee
Board looks at veterinary economics, other issues, 721

AVMA Biennial Economic Survey
Board looks at veterinary economics, other issues, 721

AVMA Board of Governors
Foreign accreditation, AVMA governance to be reviewed, 1424

AVMA Bylaws
Delegates to deliberate on Veterinarian’s Oath, 861
HOD acts on global, governance, policy, and bylaws issues, 1147

AVMA Candidates
AVMA president-elect candidates make their case, 723
AVMA announces new officials, candidates, 1146

AVMA Congressional Science Fellowship Program
Deadline for AVMA fellowship approaching, 158
AVMA fellows take posts on Capitol Hill, 293
AVMA Congressional Science Fellows get to work on Capitol Hill, 1562

AVMA Council on Biologic and Therapeutic Agents (COBTA)
Groups issue warnings on improper vaccine use, 863
The votes are in for AVMA councils, HAC, 1147

AVMA Council on Education Candidate Qualification Review Committee
The search is on for nominations to AVMA entities, 1425

AVMA Council on Education (COE)
Education council schedules site visits, 7
3 universities interested in veterinary programs, 18
Education council schedules site visits, 427

AVMA Council on Economics Vision Steering Committee
The votes are in for AVMA councils, HAC, 1147

AVMA Council on Public Health and Regulatory Veterinary Medicine (CPHRVM)
Board looks at veterinary economics, other issues, 721
HOD acts on global, governance, policy, and bylaws issues, 1147
The votes are in for AVMA councils, HAC, 1147

AVMA Council on Research (COR)
Research initiatives focus on animal health, human-animal bond, 722
Stem cell policy updated, 1004
The votes are in for AVMA councils, HAC, 1147

AVMA Council on Veterinary Service (CVS)
The votes are in for AVMA councils, HAC, 1147

AVMA Councils and Committees
Veterinarian’s Oath amended, among Executive Board actions, 7
The votes are in for AVMA councils, HAC, 1147
Foreign accreditation, AVMA governance to be reviewed, 1424
The search is on for nominations to AVMA entities, 1425

AVMA Early Career Development Committee (ECDC)
Board looks at veterinary economics, other issues, 721
Committee to improve AVMA for young members, 1003

AVMA Economics Vision Steering Committee
Board looks at veterinary economics, other issues, 721
AVMA adopts plan addressing vet profession’s economic woes, 1423

AVMA Ed
Board looks at veterinary economics, other issues, 721

AVMA Educational Commission for Foreign Veterinary Graduates (ECFVG)
AVMA COE accredits Ross, UNAM, 590
Coconut trees and DVM degrees, 590

AVMA Future Leaders Program
Veterinarian’s Oath amended, among Executive Board actions, 7
AVMA invites nominations for trial leadership program, 292
AVMA announces participants in Future Leaders Program, 1149

AVMA Elections
Helfat wins AVMA Executive Board election, 589

AVMA Executive Board
Veterinarian’s Oath amended, among Executive Board actions, 7
Rawson elected to AVMA Executive Board, 426
Helfat wins AVMA Executive Board election, 589

AVMA Future Leaders Program
Veterinarian’s Oath amended, among Executive Board actions, 7
AVMA invites nominations for trial leadership program, 292
AVMA announces participants in Future Leaders Program, 1149

AVMA Finances
Veterinarian’s Oath amended, among Executive Board actions, 7

AVMA Future Leaders Program
Veterinarian’s Oath amended, among Executive Board actions, 7
AVMA invites nominations for trial leadership program, 292
AVMA announces participants in Future Leaders Program, 1149

AVMA Future Leaders Program
Veterinarian’s Oath amended, among Executive Board actions, 7
AVMA invites nominations for trial leadership program, 292
AVMA announces participants in Future Leaders Program, 1149

AVMA Future Leaders Program
Veterinarian’s Oath amended, among Executive Board actions, 7
AVMA invites nominations for trial leadership program, 292
AVMA announces participants in Future Leaders Program, 1149

AVMA Future Leaders Program
Veterinarian’s Oath amended, among Executive Board actions, 7
AVMA invites nominations for trial leadership program, 292
AVMA announces participants in Future Leaders Program, 1149
AVMA Governance Performance Review Committee
Board looks at veterinary economics, other issues, 721

AVMA Governmental Relations Division
Deadline for AVMA fellowship approaching, 158
AVMA fellows take posts on Capitol Hill, 293
FARAD sees slight drop in FY 2011 funding, 861
Foreign externships benefit French, American students, 1004
Student loan subsidy’s end raises concerns, 1292
AVMA Congressional Science Fellows get to work on Capitol Hill, 1562

AVMA Group Health & Life Insurance Trust (GHLIT)
The search is on for nominations to AVMA entities, 1425

AVMA Guidelines
Sites offer help with waste issues, 1295
AVMA Board approves Panel on Euthanasia report, 1562

AVMA Guidelines on Euthanasia
AVMA Board approves Panel on Euthanasia report, 1562

AVMA Headquarters
Foreign externships benefit French, American students, 1004

AVMA House Advisory Committee (HAC)
The votes are in for AVMA councils, HAC, 1147
The search is on for nominations to AVMA entities, 1425

AVMA House of Delegates (HOD)
AVMA president-elect candidates make their case, 723
Delegates to deliberate on Veterinarian’s Oath, 861
House to consider accreditation of foreign schools, 861
HOD acts on global, governance, policy, and bylaws issues, 1147
Foreign accreditation, AVMA governance to be reviewed, 1424

AVMA Institute for Companion Animal and Equine Research
Research initiatives focus on animal health, human-animal bond, 722

AVMA Judicial Council (JC)
HOD acts on global, governance, policy, and bylaws issues, 1147
The votes are in for AVMA councils, HAC, 1147

AVMA Member Services Committee (MSC)
Delegates to deliberate on Veterinarian’s Oath, 861

AVMA Membership
HOD acts on global, governance, policy, and bylaws issues, 1147

AVMA Membership and Field Services Division
Veterinarian’s Oath amended, among Executive Board actions, 7
Committee to improve AVMA for young members, 1003

AVMA Model Veterinary Practice Act
AVMA seeks input on model practice act, 7
AVMA releases draft revisions to model practice act, 1004

AVMA Model Veterinary Practice Act Task Force
AVMA seeks input on model practice act, 7

AVMA Office of the Executive Vice President
AVMA to purchase assets of economics commission, 1003

AVMA Officers
AVMA announces new officials, candidacies, 1146
HOD acts on global, governance, policy, and bylaws issues, 1147

AVMA Panel on Euthanasia
Board looks at veterinary economics, other issues, 721
AVMA Board approves Panel on Euthanasia report, 1562

AVMA Panel on Humane Slaughter
Board looks at veterinary economics, other issues, 721

AVMA PLIT
The search is on for nominations to AVMA entities, 1425

AVMA Policies
Board looks at veterinary economics, other issues, 721
Delegates to deliberate on Veterinarian’s Oath, 861
Stem cell policy updated, 1004
HOD acts on global, governance, policy, and bylaws issues, 1147

AVMA Political Action Committee (AVMAPAC)
Leininger wins AVMAPAC award, 1294
The search is on for nominations to AVMA entities, 1425

AVMA Programs for Students and Recent Graduates
AVMA invites nominations for trial leadership program, 292
Executive Board actions range from strategic plan to stem cells, 1002

AVMA Publications Division
Veterinary editors added to AVMA publications staff, 1563

AVMA Report on Veterinary Compensation (2011)
Some incomes rise, but others fall, 425

AVMA Scientific Activities Division
Veterinarian’s Oath amended, among Executive Board actions, 7

AVMA Staff
Veterinary editors added to AVMA publications staff, 1563

AVMA Steering Committee for FDA Policy on Veterinary Oversight of Antimicrobials
Veterinarian’s Oath amended, among Executive Board actions, 7

AVMA Strategic Plan
AVMA asks members for input on strategic goals, 157
Executive Board actions range from strategic plan to stem cells, 1002
AVMA adopts plan addressing vet profession’s economic woes, 1423

AVMA Strategic Planning Task Force
AVMA asks members for input on strategic goals, 157
Executive Board actions range from strategic plan to stem cells, 1002

AVMA Task Force on AVMA Programs for Students and Recent Graduates
Veterinarian’s Oath amended, among Executive Board actions, 7

AVMA Task Force on Foreign Veterinary School Accreditation
Foreign accreditation, AVMA governance to be reviewed, 1424

AVMA Task Force on Governance and Member Participation
Foreign accreditation, AVMA governance to be reviewed, 1424

AVMA Task Force on National Hazardous Waste Product Database
Sites offer help with waste issues, 1295

AVMA Task Force on the Model Veterinary Practice Act
AVMA releases draft revisions to model practice act, 1004

AVMA Task Force on Veterinary Internships
Board looks at veterinary economics, other issues, 721
Study to consider internship experiences, expectations, 1003

AVMA US Pet Ownership and Demographics Sourcebook
6 factors in declining veterinary visits, 2011;72:290
Correction: 2011;72:1426

AVMA Veterinary Leadership Experience (VLE)
Board looks at veterinary economics, other issues, 721

AVMA Veterinary Medical Assistance Teams (VMATs)
Panel recommends protocols to aid animals in Japan’s ‘no-go’ zone, 16
Expert panel to address radiologic impact on animals near Japan nuclear plant, 724
Honoring the dogs of 9/11, 1291

AVMA 20/20 Vision Commission
Board looks at veterinary economics, other issues, 721
Executive Board actions range from strategic plan to stem cells, 1002
Foreign accreditation, AVMA governance to be reviewed, 1424

AVMA Web Site
AVMA seeks input on model practice act, 7
Awards
Research awards conferred, 10
Award nods sought for influential veterinarians, 294
CRWAD dedicated to veterinary microbiologist Maheswaran, 427
Olson to lead new AHA welfare initiative, 593
Veterinarians supported in their pursuit of research careers, 593
AAVMC gives accolades, 725
Phi Zeta presents research awards, 865
Winn awards grants for feline research, 865
AVMA recognizes contributions to profession, 1148
Nutrition research funded, 1149
Honoring the dogs of 9/11, 1291
Student scholarships awarded; more available, 1293
Leininger wins AVMAPAC award, 1294
Award winner recognized for forward thinking, 1295
ACVIM honors researchers, 1298
Veterinary research fellowship awarded, 1565

Bacteria
Cloned lysins could be used as antimicrobials, 159

Bacteriophage Journal
Phages gaining attention, 9

Bacteriophages
Phages gaining attention, 9
Cloned lysins could be used as antimicrobials, 159

Banfield Pet Hospitals
Banfield reports on state of pet health, 859

Bang’s Disease
New vet dean for UC-Davis, 1296

Bayer Animal Health
6 factors in declining veterinary visits, 2011;72:290
Correction: 201;72:1426
Partnership to promote preventive care, 1146
AVMA Annual Convention attracts thousands of attendees, 1147
Survey examines decline in patient visits, 1294
AVMA adopts plan addressing vet profession’s economic woes, 1423

Bayer Veterinary Care Usage Study
6 factors in declining veterinary visits, 2011;72:290
Correction: 201;72:1426
Partnership to promote preventive care, 1146
Survey examines decline in patient visits, 1294
AVMA adopts plan addressing vet profession’s economic woes, 1423

Baylor College of Medicine
With few resources, researchers work to contain fatal elephant virus, 1006

Beef Cattle
Millions go toward cattle disease, feed intake research, 859
Genetic markers could help avoid cattle disease, 1564

Berlin Zoo
With few resources, researchers work to contain fatal elephant virus, 1006

Beyond the Basics
AVMA Annual Convention attracts thousands of attendees, 1147

Bhutan
Tufts, IFAW sign partnership agreement, 1564

Bill & Melinda Gates Foundation
School for Global Animal Health receives $26 million, 158

Biologics
FDA outlines goals, strategy, 1564

Biomarkers
NIH funds study of leishmaniasis in Brazil, 6

Biosecurity
Veterinary public health bills back before Congress, 592

Birds
One-health approach key to UN wildlife task force, 1298

Bisphenol A (BPA)
Missouri researchers say BPA exposure is underestimated, 1005

Blood
Research reduces guesswork of ape transfusions, 291

Blood Vessels
Sutureless procedure can rejoin blood vessels, 1564

Board Certification
ACVP announces diplomates, 429
New specialists will have to maintain certification, 1004
New specialty college issues certification requirements, sets exam date, 1294
ACVIM honors researchers, 1298

Books
Exhibition tells history of profession, 1149

Bovine Respiratory Disease (BRD)
Millions go toward cattle disease, feed intake research, 859
Genetic markers could help avoid cattle disease, 1564

Brakke Consulting
Survey examines decline in patient visits, 1294

Brazil
NIH funds study of leishmaniasis in Brazil, 6

Breeds
Study examines causes of death in dogs, 859

Budget Control Act
Student loan subsidy’s end raises concerns, 1292

Bulldogs
Study examines causes of death in dogs, 859

Burroughs Wellcome Fund
Program continues to foster young researchers, 1296

Bylaws
SAVMA heading in a new direction, 722
Delegates to deliberate on Veterinarian’s Oath, 861
HOD acts on global, governance, policy, and bylaws issues, 1147

California
Education council schedules site visits, 7
3 universities interested in veterinary programs, 18
Stem cells in theory and practice, 290
Racetrack surfaces just one factor in horse racing fatalities, 293
Education council schedules site visits, 427
UC-Davis to add poultry veterinarian to faculty, 591
Veterinarians supported in their pursuit of research careers, 593
We’re all in this together, 723
FARAD sees slight drop in FY 2011 funding, 861
Education council schedules site visits, 862
Research building under way at UC-Davis, 1002
With few resources, researchers work to contain fatal elephant virus, 1006
HOD acts on global, governance, policy, and bylaws issues, 1147
The votes are in for AVMA councils, HAC, 1147
Nutrition research funded, 1149
Student scholarships awarded; more available, 1293
Education council schedules site visits, 1294
New vet dean for UC-Davis, 1296
Program continues to foster young researchers, 1296
ACVIM honors researchers, 1298
Learning under the influence, 1563
Partnership launches cat health initiative, 1563
Sutureless procedure can rejoin blood vessels, 1564

California Animal Health and Food Safety Laboratory System
UC-Davis to add poultry veterinarian to faculty, 591
California Poultry Industry Federation (CPIF)
UC-Davis to add poultry veterinarian to faculty, 591

California Veterinary Medical Association
Foreign accreditation, AVMA governance to be reviewed, 1424

Calls for Applicants
AVMF seeking scholarship, disaster training applications, 426

Calls for Comments
AVMA seeks input on model practice act, 7
Comments invited on NAVMEC draft report, 8
AVMA asks members for input on strategic goals, 157
AVMA releases draft revisions to model practice act, 1004

Calls for Nominations
AVMA invites nominations for trial leadership program, 292
The search is on for nominations to AVMA entities, 1425

Calls for Proposals
Winn calls for feline research proposals, 1565

Cambodia
With few resources, researchers work to contain fatal elephant virus, 1006

Canada
Education council schedules site visits, 7
Cell trains in theory and practice, 290
CRWAD dedicated to veterinary microbiologist Maheswaran, 427
CRWAD education council schedules site visits, 427
AVMA COE accredits Ross, UNAM, 590
Research, clinical training improved at Ross, 590
Veterinarians supported in their pursuit of research careers, 593
We’re all in this together, 723
Education council schedules site visits, 862
Renewed focus on race-day medications, 863
Marine mammals succumbing to dual parasite infections, 1005
Education council schedules site visits, 1294
Wildlife center joins international coalition protecting animal and public health, 1297

Canadian Cooperative Wildlife Health Center
Wildlife center joins international coalition protecting animal and public health, 1297

Canine Distemper
Groups issue warnings on improper vaccine use, 863

Carbon Dioxide
Researchers find possible broad-spectrum antiviral, 1425

Carcasses
Sites offer help with waste issues, 1295

Cardiovascular System
Study examines causes of death in dogs, 859

Careers
Some incomes rise, but others fall, 425

Caribbean
St George’s inching closer to accreditation, 864

Cat Health Network
Research initiatives focus on animal health, human-animal bond, 722
Partnership launches cat health initiative, 1563

Cattle
Millions go toward cattle disease, feed intake research, 859
Genetic markers could help avoid cattle disease, 1564

CDC Office of State, Tribal, Local, and Territorial Support
Organization to accredit public health departments, 725

Centers for Disease Control and Prevention (CDC)
Organization to accredit public health departments, 725

Certification
Sports medicine and rehab specialty to publish certification requirements, 860

Ceylon (Sri Lanka)
CRWAD dedicated to veterinary microbiologist Maheswaran, 427

Chernobyl
FARAD sees slight drop in FY 2011 funding, 861

Chihuahua
Study examines causes of death in dogs, 859

Chikungunya
LSU researcher aims to predict emerging viruses, 1292

Chimeric Protein
Researchers find possible broad-spectrum antiviral, 1425

Chimpanzees
Some projects: veterinary supplies, 6
Research reduces guesswork of ape transfusions, 291

China
Veterinarians join global disaster congress, 1297
One-health approach key to UN wildlife task force, 1298

Chinese Society for Emergency Medicine
Veterinarians join global disaster congress, 1297

Chromosome 20
Genetic markers could help avoid cattle disease, 1564

Chronic Wasting Disease (CWD)
Lichens may combat chronic wasting disease in wildlife, 860

Client Education
HOD acts on global, governance, policy, and bylaws issues, 1147

Climate
Agriculture department funding climate, environmental studies, 1297

Clinical Skills
Research, clinical training improved at Ross, 590

Clinical Trials
FDA outlines goals, strategy, 1564

Cloning
Cloned lysins could be used as antimicrobials, 159

Clostridium perfringens
Cloned lysins could be used as antimicrobials, 159

Collaborating Centers for Research and Diagnosis of Emerging and Existing Pathogens of Wildlife
Wildlife center joins international coalition protecting animal and public health, 1297

Collaboration
Tufts, IFAW sign partnership agreement, 1564

Colorado
Project: veterinary supplies, 6
Stem cells in theory and practice, 290
AVMF makes disaster preparedness possible, 292
Colorado State searches for dean, 1001
AVMA announces new officials, candidacies, 1146
Student scholarships awarded; more available, 1293
Colorado lab devastated by fire, 1296
ACVIM honors researchers, 1298
Learning under the influence, 1563
Colorado professor takes over as NC State dean, 1565

Colorado State University College of Veterinary Medicine & Biomedical Sciences
Stem cells in theory and practice, 290
Colorado State searches for dean, 1001
ACVIM honors researchers, 1298
Colorado professor takes over as NC State dean, 1565

Colorado State University Equine Reproduction Laboratory
Colorado lab devastated by fire, 1296

Colorado State University Professional Veterinary Medical Program
Learning under the influence, 1563

Colorado Veterinary Medical Foundation
AVMF makes disaster preparedness possible, 292

Common Reading Program
AAVMC gives accolades, 725

Communication
Inclusion is catalyst for diversity, 1293
Vet student developing database software, 1295
Veterinarians join global disaster congress, 1297

Communique
Groups issue warnings on improper vaccine use, 863

Companion Animals
6 factors in declining veterinary visits, 2011;72:290
Correction: 2011;72:1426
Panel recommends protocols to aid animals in Japan’s ‘no-go’ zone, 16
University of Minnesota launches Animal Trauma Center, 591
Expert panel to address radiologic impact on animals near Japan nuclear plant, 724
Banfield reports on state of pet health, 859
Survey examines decline in patient visits, 1294
Winn calls for feline research proposals, 1565

Conference of Research Workers in Animal Diseases (CRWAD)
CRWAD dedicated to veterinary microbiologist Maheswaran, 427

 Conjunctivitis
Banfield reports on state of pet health, 859

Connecticut
HOD acts on global, governance, policy, and bylaws issues, 1147
AVMA announces participants in Future Leaders Program, 1149
AVMA Congressional Science Fellows get to work on Capitol Hill, 1562

Conservation
With few resources, researchers work to contain fatal elephant virus, 1006
One-health approach key to UN wildlife task force, 1298

Continuing Education
Board looks at veterinary economics, other issues, 721
USDA accreditation training available, 1295

Controlled Substances
Proposal to schedule propofol draws reactions, 592

Controlled Substances Act
Proposal to schedule propofol draws reactions, 592

Convention on the Conservation of Migratory Species of Wild Animals
One-health approach key to UN wildlife task force, 1298

Convention to Community Program
AVMA Annual Convention attracts thousands of attendees, 1147

Core Competencies
Views on NAVMEC draft report shared, 723
OIE seeking to define minimum competencies, 1001
NAVMEC ready for implementation, 1292

Cornell University College of Veterinary Medicine
We’re all in this together, 723
Phi Zeta presents research awards, 865
Student scholarships awarded; more available, 1293
Program continues to foster young researchers, 1296

Cystitis
Banfield reports on state of pet health, 859

Dachshunds
Study examines causes of death in dogs, 859

Dairy Cattle
Millions go toward cattle disease, feed intake research, 859
Genetic markers could help avoid cattle disease, 1564

Data
Banfield reports on state of pet health, 859

Databases
Racetrack surfaces just one factor in horse racing fatalities, 293
AVMA to purchase assets of economics commission, 1003
Wealth of wildlife data free online, 1146
Sites offer help with waste issues, 1295
Vet student developing database software, 1295

Death
Racetrack surfaces just one factor in horse racing fatalities, 293
Study examines causes of death in dogs, 859

Deepwater Horizon
Vet student developing database software, 1295

Deer
Lichens may combat chronic wasting disease in wildlife, 860

Degenerative Diseases
Stem cell policy updated, 1004

Delaware
Helfat wins AVMA Executive Board election, 589

Dengue Fever
Research, clinical training improved at Ross, 590
LSU researcher aims to predict emerging viruses, 1292

Dentistry
Banfield reports on state of pet health, 859

Depopulation
AVMA Board approves Panel on Euthanasia report, 1562

Dermabond
Sutureless procedure can rejoin blood vessels, 1564

Dermatitis
Banfield reports on state of pet health, 859

Diarrhea
Winn calls for feline research proposals, 1565

Diet
Study finds gut loops predictable, 1292
After losing weight, nearly half of dogs regain the pounds, 1564

Diluents
Groups issue warnings on improper vaccine use, 863

Dioxin
FARAD sees slight drop in FY 2011 funding, 861
Japan's animal relief operations face considerable challenges, 589
Panel recommends protocols to aid animals in Japan's 'no-go' zone, 16
AVMF seeking scholarship, disaster training applications, 426
With few resources, researchers work to contain fatal elephant virus, 1006
AVMA announces participants in Future Leaders Program, 1149

Veterinarians join global disaster congress, 1297

Disciplinary Procedures
HOD acts on global, governance, policy, and bylaws issues, 1147

Disposal
Situations offer help with waste issues, 1295

District of Columbia
Deadline for AVMA fellowship approaching, 158
Helfat wins AVMA Executive Board election, 589
With few resources, researchers work to contain fatal elephant virus, 1006
AVMA announces participants in Future Leaders Program, 1149

DNA
Millions go toward cattle disease, feed intake research, 859
Winn awards grants for feline research, 865

Dog Abdominal Surrogate for Instructional Exercises (DASIE)
Research, clinical training improved at Ross, 590

Dolphins
Marine mammals succumbing to dual parasite infections, 1005

Double-Stranded RNA-activated Caspase Oligomerizer (DRACO)
Researchers find possible broad-spectrum antiviral, 1425

Drug Abuse
Proposal to schedule propofol draws reactions, 592

Drug Disposal
Proposal to schedule propofol draws reactions, 592

Drug Enforcement Administration (DEA)
Proposal to schedule propofol draws reactions, 592

Duty Hours
SAVMA heading in a new direction, 722

EarthEcho International
Cousteau: we all have an echo, 1148

Earthquakes
Panel recommends protocols to aid animals in Japan’s 'no-go' zone, 16
Japan's animal relief operations face considerable challenges, 589

Eggs
Researchers find possible broad-spectrum antiviral, 1425

Emergencies
University of Minnesota launches Animal Trauma Center, 591

Emerging Infectious Diseases
School for Global Animal Health receives $26 million, 158
Veterinary public health bills back before Congress, 592
Wealth of wildlife data free online, 1146
Wildlife center joins international coalition protecting animal and public health, 1297

Encephalitis
Marine mammals succumbing to dual parasite infections, 1005

Endocrinology
University to establish mouse research center, 1566

England
With few resources, researchers work to contain fatal elephant virus, 1006
ACVIM honors researchers, 1298
After losing weight, nearly half of dogs regain the pounds, 1564

Environment
Veterinary public health bills back before Congress, 592
FARAD sees slight drop in FY 2011 funding, 861
Missouri researchers say BPA exposure is underestimated, 1005
Cousteau: we all have an echo, 1148
Sites offer help with waste issues, 1295
Agriculture department funding climate, environmental studies, 1297

Environmental Health Perspectives
Missouri researchers say BPA exposure is underestimated, 1005
Environmental Protection Agency (EPA)
Sites offer help with waste issues, 1295

Epidemiology
Researchers map sites of early FMD infection, 160
Award winner recognized for forward thinking, 1295
Wildlife center joins international coalition protecting animal and public health, 1297

Equine Industry
TAMU Equine Initiative receives $2.5 million grant, 1001

Equine Initiative
TAMU Equine Initiative receives $2.5 million grant, 1001

Equine Injury Database
Racetrack surfaces just one factor in horse racing fatalities, 293

Eradication
Rinderpest eradicated, 862

Escherichia spp
Phages gaining attention, 9
Cloned lysins could be used as antimicrobials, 159
Winn awards grants for feline research, 865

AVMA seeks input on model practice act, 7

AVMA Strategic Planning Task Force
AVMA asks members for input on strategic goals, 157

Task Force on AVMA Programs for Students and Recent Graduates
Veterinarian's Oath amended, among Executive Board actions, 7
AVMA invites nominations for trial leadership program, 292
Executive Board actions range from strategic plan to stem cells, 1002

AVMA Strategic Planning Task Force
Executive Board actions range from strategic plan to stem cells, 1002

AVMA Task Force on Veterinary Internships
Board looks at veterinary economics, other issues, 721
Study to consider internship experiences, expectations, 1003

AVMA Task Force on the Model Veterinary Practice Act
AVMA releases draft revisions to model practice act, 1004

AVMA Task Force on National Hazardous Waste Product Database
Sites offer help with waste issues, 1295

Scientific Task Force on Wildlife Diseases
One-health approach key to UN wildlife task force, 1298

AVMA Task Force on Governance and Member Participation
Foreign accreditation, AVMA governance to be reviewed, 1424

Task Force on Foreign Veterinary School Accreditation
Foreign accreditation, AVMA governance to be reviewed, 1424

SAVMA Task Force on Corporate Funding
Learning under the influence, 1563

Tennessee
3 universities interested in veterinary programs, 18
AVMA Congressional Science Fellows get to work on Capitol Hill, 1562

Terrorism
Veterinary public health bills back before Congress, 592

Texas
Phages gaining attention, 9
Study seeks to explain feminization of veterinary profession, 10
AVMF makes disaster preparedness possible, 292
Reconciling scope-of-practice disputes, 425
Views on NAVMEC draft report shared, 723
Millions go toward cattle disease, feed intake research, 859
House to consider accreditation of foreign schools, 861
Texas A&M obtains historical veterinary books, 864
With few resources, researchers work to contain fatal elephant virus, 1006
HOA acts on global, governance, policy, and bylaws issues, 1147
The votes are in for AVMA councils, HAC, 1147

Texas A&M University College of Agriculture & Life Sciences
TAMU Equine Initiative receives $2.5 million grant, 1001

Texas A&M University College of Veterinary Medicine & Biomedical Sciences
Phages gaining attention, 9
Millions go toward cattle disease, feed intake research, 859
TAMU Equine Initiative receives $2.5 million grant, 1001

Texas A&M University Libraries
Texas A&M obtains historical veterinary books, 864

Texas Veterinary Medical Association
House to consider accreditation of foreign schools, 861

Texas Veterinary Medical Foundation
AVMF makes disaster preparedness possible, 292

Thailand
With few resources, researchers work to contain fatal elephant virus, 1006

The Ohio State University College of Veterinary Medicine
Phi Zeta presents research awards, 865
New vet dean for UC-Davis, 1296
AVMA adopts plan addressing vet profession's economic woes, 1423
Oklahoma State's new dean gets to work, 1565

Thoroughbred Owners and Breeders Association (TOBA)
Renewed focus on race-day medications, 863

Thoroughbred Racing Associations of North America (TRANA)
Renewed focus on race-day medications, 863

Thoroughbreds
Renewed focus on race-day medications, 863

Tick-borne Infectious Diseases
Veterinary research fellowship awarded, 1565

Ticks
Research, clinical training improved at Ross, 590

Tokyo
Japan's animal relief operations face considerable challenges, 589

Toxemia
Groups issue warnings on improper vaccine use, 863

Toxicology
Panel recommends protocols to aid animals in Japan's ‘no-go’ zone, 16
Expert panel to address radiologic impact on animals near Japan nuclear plant, 724
FARAD sees slight drop in FY 2011 funding, 861
Groups issue warnings on improper vaccine use, 863
Missouri researchers say BPA exposure is underestimated, 1005
Honoring the dogs of 9/11, 1291
Sites offer help with waste issues, 1295

Toxoplasma gondii
Marine mammals succumbing to dual parasite infections, 1005

Trails for Tails Program
AVMA Annual Convention attracts thousands of attendees, 1147
Transfusions
Research reduces guesswork of ape transfusions, 291

Transmission
Lichens may combat chronic wasting disease in wildlife, 860

Trauma
University of Minnesota launches Animal Trauma Center, 591
Study examines causes of death in dogs, 859

Tri-State Bird Rescue
Vet student developing database software, 1295

Tsunami
Panel recommends protocols to aid animals in Japan’s ‘no-go’ zone, 16
Expert panel to address radiologic impact on animals near Japan nuclear plant, 724
Japan’s animal relief operations face considerable challenges, 589

Tufts University Cummings School of Veterinary Medicine
Education council schedules site visits, 7, 427
We’re all in this together, 723
Education council schedules site visits, 862
Student scholarships awarded; more available, 1293
Education council schedules site visits, 1294
Tufts, IFAW sign partnership agreement, 1564

Tulane University
LSU researcher aims to predict emerging viruses, 1292

Turtles
Research, clinical training improved at Ross, 590

Tuskegee University College of Veterinary Medicine
Tuskegee veterinary alumnus donates to school, 157
We’re all in this together, 723

UC-Davis School of Veterinary Medicine
UC-Davis to add poultry veterinarian to faculty, 591

Uganda
Tufts, IFAW sign partnership agreement, 1564

Underserved Populations
AVMF seeking scholarship, disaster training applications, 426
Veterinary public health bills back before Congress, 592

United Nations (UN)
No rest between eradication campaigns, 158
Profession’s global leaders converge on Paris, 426
Rinderpest eradicated, 862
One-health approach key to UN wildlife task force, 1298

United States
World Veterinary Year kicks off Jan 1, 6

Universidad Nacional Autónoma de México (UNAM)
AVMA COE accredits Ross, UNAM, 590
House to consider accreditation of foreign schools, 861

University of Arkansas
Food safety problem-solving method to be explored with grant, 293
Agriculture department funding climate, environmental studies, 1297

University of Bern
Partnership launches cat health initiative, 1563

University of California-Davis School of Veterinary Medicine
Education council schedules site visits, 7, 427
Veterinarians supported in their pursuit of research careers, 593
We’re all in this together, 723
FARAD sees slight drop in FY 2011 funding, 861
Education council schedules site visits, 862
Research building under way at UC-Davis, 1002
Nutrition research funded, 1149
Student scholarships awarded; more available, 1293

University of Cambridge
Colorado professor takes over as NC State dean, 1565

University of Ceylon
CRWAD dedicated to veterinary microbiologist Maheswaran, 427

University of Chicago
Research reduces guesswork of ape transfusions, 291

University of Florida-Gainesville College of Veterinary Medicine
FARAD sees slight drop in FY 2011 funding, 861
Nutrition research funded, 1149
Program continues to foster young researchers, 1296

University of Georgia College of Veterinary Medicine
Study examines causes of death in dogs, 859
Student scholarships awarded; more available, 1293
Veterinary research fellowship awarded, 1565

University of Glasgow
Racetrack surfaces just one factor in horse racing fatalities, 293

University of Guelph Ontario Veterinary College
Stem cells in theory and practice, 290
Research, clinical training improved at Ross, 590
We’re all in this together, 723

University of Idaho Caine Veterinary Teaching Center
Veterinary editors added to AVMA publications staff, 1563

University of Illinois College of Veterinary Medicine
Student scholarships awarded; more available, 1293
AVMA Congressional Science Fellows get to work on Capitol Hill, 1562

University of Liverpool
After losing weight, nearly half of dogs regain the pounds, 1564

University of Manitoba
CRWAD dedicated to veterinary microbiologist Maheswaran, 427

University of Maryland College of Computer, Mathematical, and Natural Sciences
NIH funds study of leishmaniasis in Brazil, 6

University of Minnesota College of Veterinary Medicine
CRWAD dedicated to veterinary microbiologist Maheswaran, 427
Veterinarians supported in their pursuit of research careers, 593
Student scholarships awarded; more available, 1293

University of Minnesota Veterinary Medical Center
University of Minnesota launches Animal Trauma Center, 591

University of Missouri-Columbia Animal Health Institute

University of Missouri-Columbia College of Agriculture, Food and Natural Resources
Millions go toward cattle disease, feed intake research, 859

University of Missouri-Columbia College of Veterinary Medicine
Satisfied MU client helps fund residency program, 157
AAVMC gives accolades, 725
Missouri researchers say BPA exposure is underestimated, 1005
Student scholarships awarded; more available, 1293
ACVIM honors researchers, 1298

University of Montreal
Veterinarians supported in their pursuit of research careers, 593

University of Nebraska
Another 2+2 program in the works, 8
Agriculture department funding climate, environmental studies, 1297
University of New Mexico
LSU researcher aims to predict emerging viruses, 1292

University of Pennsylvania School of Veterinary Medicine
NIH funds study of leishmaniasis in Brazil, 6
Panel recommends protocols to aid animals in Japan’s ‘no-go’ zone, 16
Award nods sought for influential veterinarians, 294
Expert panel to address radiologic impact on animals near Japan nuclear plant, 724
Honoring the dogs of 9/11, 1291
Student scholarships awarded; more available, 1293
Vet student developing database software, 1295

University of Prince Edward Island Atlantic Veterinary College
Education council schedules site visits, 7, 427, 862, 1294

University of Sydney School of Veterinary Medicine
Partnership launches cat health initiative, 1563

University of Tennessee College of Veterinary Medicine
AVMA Congressional Science Fellows get to work on Capitol Hill, 1562

University of Wisconsin-Madison School of Veterinary Medicine
We’re all in this together, 723
Student scholarships awarded; more available, 1293
Learning under the influence, 1563
Colorado professor takes over as NC State dean, 1565
Oklahoma State’s new dean gets to work, 1565

Upper Respiratory Tract Disease
Banfield reports on state of pet health, 859

US Armed Forces
Panel recommends protocols to aid animals in Japan’s ‘no-go’ zone, 16
Expert panel to address radiologic impact on animals near Japan nuclear plant, 724

US Centers for Disease Control and Prevention (CDC)
Research, clinical training improved at Ross, 590

US Congress
AVMA fellows take posts on Capitol Hill, 293
Veterinary public health bills back before Congress, 592
FARAD sees slight drop in FY 2011 funding, 861
Congress could intervene over modified salmon, 1291
Student loan subsidy’s end raises concerns, 1292
AVMA Congressional Science Fellows get to work on Capitol Hill, 1562

US Congressional Budget Office (CBO)
Student loan subsidy’s end raises concerns, 1292

USDA Advisory Committee on Animal Health
Nine veterinarians to aid USDA on animal health issues, 159

US Department of Agriculture (USDA)
Veterinary postgraduate program in development, 8
Phages gaining attention, 9
Cloned lysins could be used as antimicrobials, 159
Nine veterinarians to aid USDA on animal health issues, 159
Researchers map sites of early FMD infection, 160
Stem cells in theory and practice, 290
Food safety problem-solving method to be explored with grant, 293
Parham named new APhIS administrator, 591
Millions go toward cattle disease, feed intake research, 859
FARAD sees slight drop in FY 2011 funding, 861
Groups issue warnings on improper vaccine use, 863
USDA accreditation training available, 1295
Agriculture department funding climate, environmental studies, 1297
Genetic markers could help avoid cattle disease, 1564

US Department of Education (DOE)
3 universities interested in veterinary programs, 18

Veterinarians join global disaster congress, 1297
Index to Subjects

Abdomen
Comparison of plasma and peritoneal indices of fibrinolysis between foals and adult horses with and without colic [AE Watts et al], 1535

Abomasum
Evaluation of a modified acetylsalicylic acid absorption test to estimate the abomasal emptying rate in Holstein-Friesian heifers [A Ehssani-Kheradgerdi et al], 1600

Abortion
Fetal protection in heifers vaccinated with a modified-live virus vaccine containing bovine viral diarrhea virus subtypes 1a and 2a and exposed during gestation to cattle persistently infected with bovine viral diarrhea virus subtype 1b [RD Leyh et al], 367

About the Cover
Introduction of new cover format for 2011, 1

Tetrameres sp in the proventriculus of a squatter pigeon from the San Diego Zoo [T Donovan], 855

Photomicrograph of a section of cartilage and subchondral bone from the medial aspect of the cenrodistal joint of a 12-year-old Thoroughbred that has been stained with toluidine blue stain, 995

Photomicrograph of cultured camel chondrocytes immunostained with monospecific antibodies against type II collagen, 1141

Photomicrograph at low magnification of a tissue section from the osteotomy site in a dog that was treated with carprofen for 120 days after undergoing tibial osteotomy, 1287

Photomicrograph of Rhinosporidium seeberi from a mass on the nasal planum of a dog [C Rodriguez et al], 1419

Photomicrograph of a section of gastric mucosa from a dog illustrating epithelial cell sloughing in response to carprofen in vitro [MA Hicks et al], 1557

Accelermotomy
Determination of lying behavior patterns in healthy beef cattle by use of wireless accelerometers [BD Robért et al], 467

Determination and application of cut points for accelerometer-based activity counts of activities with differing intensity in pet dogs [KE Michel et al], 866

Accuracy of the use of triaxial accelerometry for measuring daily activity as a predictor of daily maintenance energy requirement in healthy adult Labrador Retrievers [DJ Wrigglesworth et al], 1151

Acepromazine
Effects of acepromazine maleate or morphine on tear production before, during, and after sevoflurane anesthesia in dogs [MC Mouney et al], 1427

Acetaminophen
Evaluation of a modified acetaminophen absorption test to estimate the abomasal emptying rate in Holstein-Friesian heifers [A Ehssani-Kheradgerdi et al], 1600

Acetaminophen
Evaluation of a modified acetaminophen absorption test to estimate the abomasal emptying rate in Holstein-Friesian heifers [A Ehssani-Kheradgerdi et al], 1600

Acetabsalicylic Acid
Independent and combined effects of prednisone and acetylsalicylic acid on thromboelastography variables in healthy dogs [SK Flint et al], 1325

Activities
Determination and application of cut points for accelerometer-based activity counts of activities with differing intensity in pet dogs [KE Michel et al], 866

Accuracy of the use of triaxial accelerometry for measuring daily activity as a predictor of daily maintenance energy requirement in healthy adult Labrador Retrievers [DJ Wrigglesworth et al], 1151

Adhesions
Adhesion phenotypes of pigs of Chinese and Western breeds and a White Duroc-Erhualian crossbreed with regard to susceptibility to enterotoxigenic Escherichia coli with fimbrial adhesions K99, 987P, and F41 [X Yan et al], 80

Comparison of plasma and peritoneal indices of fibrinolysis between foals and adult horses with and without colic [AE Watts et al], 1535

Adipokines
Effect of omega-3 fatty acids on serum concentrations of adipokines in healthy cats [M Mazaki-Tovi et al], 1259

Adrenal Glands
Determination of the concentrations of triolstane and ketotriolstane that inhibit ex vivo canine adrenal gland synthesis of cortisol, corticosterone, and aldosterone [AL McGraw et al], 661

Effect of combined ligan phytoestrogen and melatonin treatment on secretion of steroid hormones by adrenal carcinoma cells [KA Fecteau et al], 875

Age
Topographic and age-dependent distribution of subchondral bone density in the elbow joints of clinically normal dogs [MJ Dickomeit et al], 491

Agglutination
Comparison of five blood-typing methods for the feline AB blood group system [M Seth et al], 203

Alpacas
Radiographic appearance of the thorax of clinically normal alpaca crias [NC Nelson et al], 1439

Almouse
Comparison of two tourniquets and determination of amikacin sulfate concentrations after metacarpophalangeal joint lavage performed simultaneously with intravenous regional limb perfusion in horses [SB Alkabes et al], 613

Amino Acids
Effects of feeding a high-protein diet following an 18-hour period of feed withholding on mammalian target of rapamycin-dependent signaling in skeletal muscle of mature horses [KR Urschel et al], 248

Amphotericin-B
Effect of flunixin meglumine on the amelioration of lameness in dairy steers with amphotericin B-induced transient synovitis-arthritis [KL Schulz et al], 1431

Amyloid
Evaluation of plasma islet amyloid polypeptide and serum glucose and insulin concentrations in non-diabetic cats classified by body condition score and in cats with naturally occurring diabetes mellitus [MS Henson et al], 1052

Anacondas
Ultrasonographic evaluation of postprandial heart variation in juvenile Paraguay anacondas (Eunectes notaeus) [P Zerbe et al], 1253

Analgnesia
Evaluation of subcutaneous and oral administration of robenacoxib and meloxicam for the treatment of acute pain and inflammation associated with orthopedic surgery in dogs [P Gruet et al], 184

Comparison of the efficacy and adverse effects of sustained-release buprenorphine hydrochloride following subcutaneous administration and buprenorphine hydrochloride following oral transmucosal administration in cats undergoing ovariohysterectomy [DL Catbagan et al], 461

Antinociceptive effects of nalbuphine hydrochloride in Hispaniolan Amazon parrots (Amazona ventralis) [D Sanchez-Migallon Guzman et al], 736

Pharmacokinetics of nalbuphine hydrochloride after intravenous and oral transmucosal administration in cats [TH Ferreira et al], 746

Effect of topical vapocoolant spray on response to arthrocentesis and intravenous catheterization in unsedated horses [CT Fjordbak et al], 746

Effect of perzinfotel and a proprietary phospholipase A2 inhibitor on kinetic parameters of osteoporosis in healthy humans [AP Flannery et al], 415

Effect of combined ligan phytoestrogen and melatonin treatment on secretion of steroid hormones by adrenal carcinoma cells [KA Fecteau et al], 875

Plasma concentrations and behavioral, antinociceptive, and physiologic effects of methadone after intravenous and oral transmucosal administration in cats [TH Ferreira et al], 764
Pharmacokinetics and physiologic effects of intramuscularly administered xylazine hydrochloride-ketamine hydrochloride-butabarbital tartrate alone or in combination with orally administered sodium salicylate on biomarkers of pain in Holstein calves following castration and dehorning [SL Baldridge et al], 1305
Effect of flunixin meglumine on the amelioration of lameness in dairy steers with amphotericin B-induced transient synovitis-arthritis [KL Schulz et al], 1431
Effect of maropitant, a neurokinin 1 receptor antagonist, on anesthetic requirements during noxious visceral stimulation of the ovary in dogs [P Boscan et al], 1576
Evaluation of thoracic epigastric analgesia induced by lidocaine, ketamine, or both administered via a lumbar sacral approach in dogs [R DeRossi et al], 1580
Analytic & Diagnostic Techniques
Evaluation of changes in haptoglobin and C-reactive protein concentrations caused by freezing of saliva and meat juice samples collected from healthy and diseased pigs [AM Gutiérrez et al], 11
Influence of blood collection technique on platelet function and coagulation variables in dogs [NB Bauer et al], 64
Effects of location for collection of air samples on a farm and time of day of sample collection on airborne concentrations of virulent Rhodococcus equi at two horse breeding farms [KR Kuksi et al], 73
Use of a meat challenge test to estimate peak postprandial triglyceride concentrations in dogs [KF Elliott et al], 161
Assessment of five ELISAs for measurement of leptin concentrations in dogs [A Tvarenovcicute et al], 169
Evaluation of five blood-typing methods for the feline AB blood group system [M Seth et al], 203
Estimation of intrathoracic arterial diameter by means of computed tomographic angiography in Hispaniolan Amazon parrots [H Beaufrère et al], 210
Ultrasoundographic characterization of the liver, caudal vena cava, portal vein, and gallbladder in goats [U Braun et al], 219
Evaluation of a nine-point body condition scoring system in physically
Ultrasonographic characterization of the liver, caudal vena cava, portal vein, and gallbladder in goats [U Braun et al], 219
Evaluation of a nine-point body condition scoring system in physically invective pet cats [CR Bjornvad et al], 433
Assessment of microcirculatory changes by use of sidestream dark
Evaluation of a nine-point body condition scoring system in physically
Comparison of echocardiographic indices of myocardial strain with invasive measurements of left ventricular systolic function in anesthetized healthy dogs [NM Culwell et al], 650
Comparison of results for weight-adjusted and fixed-amount bronchoalveolar lavage techniques in healthy Beagles [MA Melamies et al], 694
Impact of successive freezing-thawing cycles on 3-T magnetic resonance images of the digits of isolated equine limbs [GE Bolen et al], 780
Development and validation of a sandwich ELISA for use in measuring concentrations of canine surfactant protein A in serum of dogs [K Sone et al], 833
Determination and application of cut points for accelerometer-based activity counts of activities with differing intensity in pet dogs [KE Michel et al], 866
Development of a flow cytometric assay for detection of coated platelets in dogs and evaluation of binding of coated platelets to recombinant human coagulation factor VIIa [T Knudsen et al], 1007
Evaluation of oscillographic and vascular access port arterial blood pressure measurement techniques versus implanted telemetry in anesthetized cats [RJ Zwijnenberg et al], 1015
Accuracy of the use of triaxial accelerometer for measuring daily activity as a predictor of daily maintenance energy requirement in healthy adult Labrador Retrievers [DJ Wriglesworth et al], 1151
Assessment of repeatability of a wireless, inertial sensor-based lameness evaluation system for horses [KG Keegan et al], 1156
Determination of body water compartments in neonatal foals by use of indicator dilution techniques and multifrequency bioelectrical impedance analysis [CL Fielding et al], 1390
Evaluation of a modified acetaminophen absorption test to estimate the abomasal emptying rate in Holstein-Friesian heifers [A Ehsumi-Kheradgerdi et al], 1600
Anatomy
Sole depth and weight-bearing characteristics of the palmar surface of the feet of feral horses and domestic Thoroughbreds [BA Hampson et al], 727
Evaluation of primary epidermal lamellar density in the forefoot of near-term fetal Australian feral and domesticated horses [BA Hampson et al], 871
Anatomic, histologic, and two-dimensional-echocardiographic evaluation of mitral valve anatomy in dogs [M Borgarelli et al], 1186
Comparison of cross-sectional anatomy and computed tomography of the tarsus in horses [EVR Raes et al], 1209
Evaluation of radiographic, computed tomographic, and cadaveric anatomy of the head of boar constrictors [T Banzato et al], 1592
Anesthesiology
Effects of isoflurane anesthesia on cerebrovascular autoregulation in horses [RJ Brosnan et al], 18
Evaluation of the effects of thiopental, propofol, and etomidate on glomerular filtration rate measured by the use of dynamic computed tomography in dogs [J Chang et al], 146
Refinement and initial validation of a multidimensional composite scale for use in assessing acute postoperative pain in cats [JT Brondani et al], 174
Evaluation of subcutaneous and oral administration of robenacoxib and meloxicam for the treatment of acute pain and inflammation associated with orthopedic surgery in dogs [P Gruet et al], 184
Effects of intravenous administration of lidocaine on the minimum alveolar concentration of sevoflurane in horses [ML Rezende et al], 446
Comparison of the cardiovascular effects of equipotent anesthetic doses of sevoflurane alone and sevoflurane plus an intravenous infusion of lidocaine in horses [AE Wagner et al], 452
Effect of duration and type of anesthetic on tear production in dogs [MK Shepard et al], 608
Accuracy of isoflurane, halothane, and sevoflurane vaporizers during high oxygen flow and at maximum vaporizer dial setting [TD Ambrisko et al], 751
Comparison of the effects of racemic ketamine and S-ketamine for anesthesia in Rheeem gazelles (Gazella subgutturosa marica) and Subgutturosa gazelles (Gazella subgutturosa subgutturosa) [O Martin-Jurado et al], 1164
Effect of sedation protocol on glomerular filtration rate in cats as determined by use of quantitative renal scintigraphy [MD Winter et al], 1222
Comparison of use of an infrared anesthetic gas monitor and refractometry for measurement of anesthetic agent concentrations [TD Ambrisko et al], 1299
Effects of acepromazine maleate or morphine on tear production before, during, and after sevoflurane anesthesia in dogs [MC Mouney et al], 1427
Anesthetic induction with guaifenesin and propofol in adult horses [RJ Brosnan et al], 1569
Angiography
Estimation of intrathoracic arterial diameter by means of computed tomographic angiography in Hispaniolan Amazon parrots [H Beaufrère et al], 210
Evaluation of oscillometric and vascular access port arterial blood pressure measurement techniques versus implanted telemetry in anesthetized cats [RJ Zwijnenberg et al], 1015
Accuracy of the use of triaxial accelerometer for measuring daily activity as a predictor of daily maintenance energy requirement in healthy adult Labrador Retrievers [DJ Wriglesworth et al], 1151
Assessment of repeatability of a wireless, inertial sensor-based lameness evaluation system for horses [KG Keegan et al], 1156
Determination of body water compartments in neonatal foals by use of indicator dilution techniques and multifrequency bioelectrical impedance analysis [CL Fielding et al], 1390
Evaluation of a modified acetaminophen absorption test to estimate the abomasal emptying rate in Holstein-Friesian heifers [A Ehsumi-Kheradgerdi et al], 1600
Anthelmintics
Plasma disposition, concentration in the hair, and anthelmintic efficacy of eprinomectin after topical administration in donkeys [GC Gokbulut et al], 1639
Antifungals
In vitro antimicrobial properties of caprylic acid, monocaprylin, and sodium caprylate against Dermatophilus congolensis [SR Valipe et al], 331
Antimicrobial Resistance
Evaluation of the contribution of gyrA mutation and efflux pumps to fluoroquinolone and multidrug resistance in pathogenic Escherichia coli isolates from dogs and cats [BW Shaheen et al], 25
Effects of two simulated oxytetracycline dosing regimens on horizontal transfer of antimicrobial resistance plasmids in an in vitro pharmacodynamic model [BV Lubbers et al], 977
Antimicrobials
Pharmacokinetics and bioavailability of ceftizoxime in healthy ducks [L Yuan et al], 122
Disposition of gamithromycin in plasma, pulmonary epithelial lining fluid, bronchoalveolar cells, and lung tissue in cattle [S Giguère et al], 326
Tear, cornea, and aqueous humor concentrations of ciprofloxacin and moxifloxacin after topical ocular application in ophthalmologically normal horses [HD Westermeyer et al], 398
Comparison of two tourniquets and determination of amikacin sulfate concentrations after metacarpophalangeal joint lavage performed simultaneously with intravenous regional limb perfusion in horses [SB Alibaug et al], 613
Evaluation of the efficacy of gallium maltolate for chemoprophylaxis against pneumonia caused by *Rhodococcus equi* infection in foals [MK Chaffin et al], 945
Evaluation of the in vitro activity of gallium nitrate against *Mycobacterium avium* subsp *paratuberculosis* [M-E Fecteau et al], 1243
Pharmacokinetics of long-acting cefiotirin crystalline-free acid in helmeted guineafowl (*Numida meleagris*) after a single intramuscular injection [KB Wojick et al], 1514

Aqueocentesis
Fluorophotometric and tonometric evaluation of ocular effects following aqeo centrifusion performed with needles of various sizes in dogs [RA Alibaug et al], 555

Aqueous Humor
Evaluation of four drugs for inhibition of paracentesis-induced blood-aqueous humor barrier breakdown in cats [AJ Rankin et al], 826

Arabian Horses
Inheritance of cerebellar abiotrophy in Arabians [LS Brault et al], 940

Arrhythmias
Influence of electrode position on cardioversion energy requirements during transvenous electrical cardioversion in horses [EE Preiss et al], 1193

Arteries
Comparison of flow-mediated vasodilation in femoral and brachial arteries in healthy dogs [ID Jones et al], 1029

Arthritis
Effect of flunixin meglumine on the amelioration of lameness in dairy steers with amphotericin B-induced transient synovitis-arthritis [KL Schulz et al], 1431

Arthrocentesis
Effect of topical vapocoolant spray on response to arthrocentesis and intravenous catheterization in unsedated horses [CT Fjordbak et al], 746

Aspirin
Evaluation of effects of low-dose aspirin administration on urinary thromboxane metabolites in healthy dogs [CM Hoh et al], 1038

Atherosclerosis
Estimation of intrathoracic arterial diameter by means of computed tomographic angiography in Hispaniolan Amazon parrots [H Beaufére et al], 210

Australia
Nutritional analysis of gastric contents and body condition score at a single time point in feral horses in Australia [BA Hampson et al], 1226

B

Bacteria
Effects of location for collection of air samples on a farm and time of day of sample collection on airborne concentrations of virulent *Rhodococcus equi* at two horse breeding farms [KR Kuske et al], 73
Adhesion phenotypes of pigs of Chinese and Western breeds and a White Duroc-Erhualian crossbred with regard to susceptibility to enterotoxigenic *Escherichia coli* with fimbrial adhesions K99, 987P, and F41 [X Yan et al], 80
Genotypic relatedness and phenotypic characterization of *Staphylococcus schleiferi* subspecies in clinical samples from dogs [CL Cain et al], 96
Evaluation of the effects of a commercially available *Salmonella Newport* sidereophile receptor and porin protein vaccine on fecal shedding of *Salmonella* bacteria and health and performance of feedlot cattle [CC Dodd et al], 239
Comparison of two commercial ovine *Campylobacter* vaccines and an experimental bacterin in guinea pigs inoculated with *Campylobacter jejuni* [ER Burrough et al], 799
Shedding of chlamydiae in relation to titers of serum chlamydiae-specific antibodies and serum concentrations of two acute-phase proteins in cats without conjunctivitis [B Ström Holst et al], 806

Evaluation of the in vitro activity of gallium nitrate against *Mycobacterium avium* subsp *paratuberculosis* [M-E Fecteau et al], 1243
Enterotoxin production, enterotoxin gene distribution, and genetic diversity of *Staphylococcus aureus* recovered from milk of cows with subclinical mastitis [L Oliveira et al], 1361
Evaluation of the risk of paratuberculosis in adult cows fed *Mycobacterium avium* subsp *paratuberculosis* DNA-positive or -negative colostrum as calves [P Pithua et al], 1456
Effects of opsonization of *Rhodococcus equi* on bacterial viability and phagocyte activation [DR Dawson et al], 1465
Evaluation of the Helicobacteraceae in the oral cavity of dogs [M Craven et al], 1476
Serologic response to *Mannheimia haemolytica* in calves concurrently inoculated with inactivated or modified-live preparations of *M haemolytica* and viral combination vaccines containing modified-live bovine herpesvirus type 1 [VS Cortese et al], 1541
Impact of isoflupredone acetate treatment on clinical signs and weight gain in weaning heifers with experimentally induced *Mannheimia haemolytica* bronchopneumonia [J Hewson et al], 1613

Bacteriophages
Isolation and characterization of two bacteriophages with strong in vitro antimicrobial activity against *Pseudomonas aeruginosa* isolated from dogs with ocular infections [TMA Santos et al], 1079

Baroreceptor
Selected cardiopulmonary values and baroreceptor reflex in conscious green iguanas (*Iguana iguana*) [SM Hernandez et al], 1519

Beagles
Evaluation of an acute focal epidural mass model to characterize the intracranial pressure-volume relationship in healthy Beagles [RA Packer et al], 103
Comparison of results for weight-adjusted and fixed-amount bronchalevel lavage techniques in healthy Beagles [MA Melamies et al], 694

Beef Cattle
Evaluation of the effects of a commercially available *Salmonella Newport* sidereophile receptor and porin protein vaccine on fecal shedding of *Salmonella* bacteria and health and performance of feedlot cattle [CC Dod et al], 239
Determination of lying behavior patterns in healthy beef cattle by use of wireless accelerometers [BD Robért et al], 467

Behavior
Determination of lying behavior patterns in healthy beef cattle by using of wireless accelerometers [BD Robért et al], 467
Associations among behavioral and acute physiologic responses to lipopolysaccharide-induced clinical mastitis in lactating dairy cows [JL Zimov et al], 620
Plasma concentrations and behavioral, antinociceptive, and physiologic effects of methadone after intravenous and oral transmucosal administration in cats [TH Ferreira et al], 764
Determination and application of cut points for accelerometer-based activity counts of activities with differing intensity in pet dogs [KE Michel et al], 866
Accuracy of the use of triaxial accelerometry for measuring daily activity as a predictor of daily maintenance energy requirement in healthy adult Labrador Retrievers [DJ Wrigglesworth et al], 1151

Beta Cells
Evaluation of beta-cell sensitivity to glucose and first-phase insulin secretion in obese dogs [KR Verkest et al], 357

Bile Acids
Effect of twice-daily oral administration of hydrocortisone on the bile acids composition of gallbladder bile in dogs [PH Kook et al], 1607

Bioavailability
Pharmacokinetics and bioavailability of cefquinome in healthy ducks [L Yuan et al], 122

Bioelectrical Impedance
Determination of body water compartments in neonatal foals by use of indicator dilution techniques and multifrequency bioelectrical impedance analysis [CL Fielding et al], 1390

JAVMA, Vol 72, No. 1-12, January-December, 2011

Index 31
Biomarkers
Effects of extracorporeal shock wave therapy and polysulfated glycosaminoglycan treatment on subchondral bone, serum biomarkers, and synovial fluid biomarkers in horses with induced osteoarthritis [CE Kawcak et al], 772

Biomechanics
Symmetry of hind limb mechanics in orthopedically normal trotting Labrador Retrievers [GR Colborne et al], 336
Effect of differences in tendon properties on functionality of the passive stay apparatus in horses [SW Gussekloo et al], 474
Changes in hoof surface strain distribution in response to moderate exercise in Standardbreds [B Faramarzi et al], 484
Effects of industrial polystyrene foam insulation pads on the center of pressure and load distribution in the forefoot of clinically normal horses [JA Schleining et al], 628
Accuracy of pressure plate kinetic asymmetry indices and their correlation with visual gait assessment scores in lame and nonlame dogs [M Oosterlinck et al], 820
Comparison of temporospatial and kinetic variables of walking in small and large dogs on a pressure-sensing walkway [J Kim et al], 1171
Evaluation of biomechanical effects of four stimulation devices placed on the hind feet of trotting horses [HM Clayton et al], 1489
Biomechanical comparison after in vitro laminar vertebral stabilization and vertebral body plating of the first and second lumbar vertebrae in specimens obtained from canine cadavers [SC Knell et al], 1681

Biomedical Instrumentation
Refinement and initial validation of a multidimensional composite scale for use in assessing acute postoperative pain in cats [JT Brondani et al], 174

Biomodels
Evaluation of the effect of computed tomography scan protocols and freeform fabrication methods on bone biomodel accuracy [KL Fitzwater et al], 1178

Biopsy
Evaluation of minimally invasive excisional brain biopsy and intracranial brachtery catheter placement in dogs [RA Packet et al], 109

Birds
Estimation of intrathoracic arterial diameter by means of computed tomographic angiography in Hispaniolan Amazon parrots [H Beaufrère et al], 210
Effect of West Nile virus DNA-plasmid vaccination on response to live virus challenge in red-tailed hawks (Buteo jamaicensis) [PT Redig et al], 1065
Pharmacokinetics of long-acting cefotiofur crystalline-free acid in helmeted guineafowl (Numida meleagris) after a single intramuscular injection [KB Wojick et al], 1514

Black Walnut
Evaluation of the in vitro effects of aqueous black walnut extract on equine mononuclear cells [DJ Hurley et al], 2011;72:318
Correction: 2011;72:511
Evaluation of the ability of aqueous black walnut extracts to induce the production of reactive oxygen species [DJ Hurley et al], 308

Blood
Effects of isoflurane anesthesia on cerebrovascular autoregulation in horses [RJ Brosnan et al], 18
Evaluation of equine peripheral blood apheresis product, bone marrow, and adipose tissue as sources of mesenchymal stem cells and their differentiation potential [BJ Ahern et al], 127
Comparison of five blood-typing methods for the feline AB blood group system [M Seth et al], 203

Blood Pressure
Effects of isoflurane anesthesia on cerebrovascular autoregulation in horses [RJ Brosnan et al], 18
Evaluation of oscillometric and vascular access port arterial blood pressure measurement techniques versus implanted telemetry in anesthetized cats [RJ Zwijnenberg et al], 1015

Boa Constrictors
Evaluation of radiographic, computed tomographic, and cadaveric anatomy of the head of boa constrictors [T Banzato et al], 1592

Body Condition Score
Assessment of five ELISAs for measurement of leptin concentrations in dogs [A Tvarijonaviciute et al], 169
Evaluation of a nine-point body condition scoring system in physically inactive pet cats [CR Bjornvad et al], 433
Evaluation of plasma interleukin amyloid polypeptide and serum glucose and insulin concentrations in nondiabetic cats classified by body condition score and in cats with naturally occurring diabetes mellitus [MS Henson et al], 1052
Nutritional analysis of gastric contents and body condition score at a single time point in feral horses in Australia [BA Hampson et al], 1226

Body Position
Effects of body position, imaging plane, and observer on computed tomographic measurements of the lumbosacral intervertebral foramen area in dogs [BM Higgins et al], 905

Body Water
Determination of body water compartments in neonatal foals by use of indicator dilution techniques and multifrequency bioelectrical impedance analysis [CL Fielding et al], 1390

Bone
Evaluation of equine peripheral blood apheresis product, bone marrow, and adipose tissue as sources of mesenchymal stem cells and their differentiation potential [BJ Ahern et al], 127
Topographic and age-dependent distribution of subchondral bone density in the elbow joints of clinically normal dogs [H Ochi et al], 634
Effects of long-term administration of carprofen on healing of a tibial osteotomy in dogs [H Ochi et al], 634
Effects of extracorporeal shock wave therapy and polysulfated glycosaminoglycan treatment on subchondral bone, serum biomarkers, and synovial fluid biomarkers in horses with induced osteoarthritis [CE Kawcak et al], 772
Evaluation of the effect of computed tomography scan protocols and freeform fabrication methods on bone biomodel accuracy [KL Fitzwater et al], 1178
Effect of pilot hole diameter and tapping on insertion torque and axial pullout strength of 4.0-mm cancellous bone screws [KAR Kunkel et al], 1660
Angle of insertion and confirmation of angles measured after in vitro implantation during laminar vertebral stabilization in vertebral columns obtained from canine cadavers [SC Knell et al], 1674

Bone Marrow
Evaluation of equine peripheral blood apheresis product, bone marrow, and adipose tissue as sources of mesenchymal stem cells and their differentiation potential [BJ Ahern et al], 127
Perfusion method for harvesting bone marrow cells from dogs [M Sato et al], 1344

Book Reviews: For Your Library
Advances in the Canine Cranial Cruciate Ligament, by Peter Muir [NJ Buote], 430
The Laboratory Xenopus sp, by Sherrill L Green [RA Wagner], 430
The Merck Veterinary Manual (10th edition), edited by Cynthia M Kahn [DD Nestor], 430
Basic Confocal Microscopy, By Robert L Price & W Gray (Jay) Jerome [E Brannick], 1561
Techniques Training: Mouse–A Visual Guide to Research Techniques, By David DeOmillis, Amy Bergstedt, & Keith M Astrofsky [JB Rodgers], 1561

Bovine Leukosis Virus (BLV)
Effect of infection with bovine leukemia virus on lymphocyte proliferation and apoptosis in dairy cattle [RJ Enskine et al], 1059

Bovine Respiratory Disease (BRD)
Effectiveness of sorting calves with high risk of developing bovine respiratory disease on the basis of serum haptoglobin concentration at the time of arrival at a feedlot [BP Holland et al], 1349

Bovine Respiratory Syncytial Virus (BRSV)
Assessment of IgE response and cytokine gene expression in pulmonary efferent lymph collected after ovalbumin inhalation during experimental infection of calves with bovine respiratory syncytial virus [LJ Gershwin et al], 134
Cannanulae
Evaluation of minimally invasive excisional brain biopsy and intracranial brachytherapy cannula placement in dogs [RA Packet et al], 109

Cattle
Evaluation of the effects of a commercially available Salmonella Newport siderophore receptor and porin protein vaccine on fecal shedding of Salmonella bacteria and health and performance of feedlot cattle [CC Dodd et al], 239

Determination of lying behavior patterns in healthy beef cattle by use of wireless accelerometers [BD Robért et al], 467

Associations among behavioral and acute physiologic responses to lipopolysaccharide-induced clinical mastitis in lactating dairy cows [JL Zimov et al], 620

Characterization of the risk of deer-cattle interactions in Minnesota by use of an on-farm environmental assessment tool [BM Knust et al], 924

Use of data collected at cessation of lactation to predict incidence of sole ulcers and white line disease during the subsequent lactation in dairy cows [VS Machado et al], 1338

Enterotoxins production, enterotoxin gene distribution, and genetic diversity of Staphylococcus aureus recovered from milk of cows with subclinical mastitis [L Oliveira et al], 1361

Evaluation of a modified acetaminophen absorption test to estimate the abomasal emptying rate in Holstein-Friesian heifers [A Ehsani-Kheradgerdi et al], 1600

Cavalier King Charles Spaniels
Effects of syringomyelia on electrodiagnostic test results in Cavalier King Charles Spaniels [TR Harcourt-Brown et al], 595

Cefquinome
Pharmacokinetics and bioavailability of cefquinome in healthy ducks [L Yuan et al], 122

Ceftiofur
Pharmacokinetics of long-acting ceftiofur crystalline-free acid in helmeted guineafowl (Numida meleagris) after a single intramuscular injection [KB Wojick et al], 1514

Cerebellar Abiotrophy
Inheritance of cerebellar abiotrophy in Arabians [LS Brault et al], 940

China
Adhesion phenotypes of pigs of Chinese and Western breeds and a White Duroc-Erbraluan crossbreed with regard to susceptibility to enterotoxigenic Escherichia coli with fimbrial adhesions K99, 957P, and F41 [X Yan et al], 80

Chitosan
Hyaluronic acid and chondrogenesis of murine bone marrow mesenchymal stem cells in chitosan sponges [Z Schwartz et al], 42

Chlamydia spp
Shedding of chlamydiae in relation to titers of serum chlamydiae-specific antibodies and serum concentrations of two acute-phase proteins in cats without conjunctivitis [B Ström Holst et al], 806

Chondrocytes
Modulation of cytokine-induced prostaglandin E2 production in cultures of articular chondrocytes obtained from carpal joints of camels (Camelus dromedarius) [CG Frondoza et al], 51

Chondrogenic effects of exogenous retinoic acid or a retinoid acid receptor antagonist (LE135) on equine chondrocytes and bone marrow-derived mesenchymal stem cells in monolayer culture [SE Henderson et al], 884

Chylothorax
Feasibility of percutaneous catheterization and embolization of the thoracic duct in dogs [A Singh et al], 1527

Ciprofloxacin
Tears, cornea, and aqueous humor concentrations of ciprofloxacin and moxifloxacin after topical ocular application in ophthalmologically normal horses [HD Westermeyer et al], 398

Clinical Pathology
Influence of blood collection technique on platelet function and coagulation variables in dogs [NB Bauer et al], 64

Comparison of five blood-typing methods for the feline AB blood group system [M Seth et al], 203

Specificity of a canine pancreas-specific lipase assay for diagnosing pancreatitis in dogs without clinical or histologic evidence of the disease [SC Neilson-Carley et al], 302

Evaluation of variations in bronchoalveolar lavage fluid in horses with recurrent airway obstruction [D Jean et al], 838

Effect of hemocrit on accuracy of two point-of-care glucometers for use in dogs [AEH Paul et al], 1204

Independent and combined effects of prednisone and acetylsalicylic acid on thromboelastography variables in healthy dogs [SK Flint et al], 1325

Clostridium spp
Humoral immunity and injection-site reactions in cattle vaccinated with a multivalent clostridial vaccine administered via subcutaneous injection or via transdermal needle-free injection [AR Woolums et al], 1124

Coagulation
Influence of blood collection technique on platelet function and coagulation variables in dogs [NB Bauer et al], 64

Effect of intravenous administration of dextrose on coagulation in healthy dogs [JL Gonzales et al], 561

Evaluation of effects of low-dose aspirin administration on urinary thromboxane metabolites in healthy dogs [CM Hoh et al], 1038

Comparison of plasma and peritoneal indices of fibrinolysis between foals and adult horses with and without colic [AE Watts et al], 1535

Coagulation Factors
Development of a flow cytometric assay for detection of coated platelets in dogs and evaluation of binding of coated platelets to recombinant human coagulation factor VIII [TK Knudsen et al], 1007

Cochlea
Evaluation of otocoustic emissions in clinically normal alert puppies [B Schemera et al], 295

Colic
Evaluation of the cyclooxygenase selectivity of robenacoxib and its effect on recovery of ischemia-injured jejunal mucosa in horses [JF Marshall et al], 226

Expression of cyclooxygenase genes in the jejunum of horses during low-flow ischemia and reperfusion [H Hilton et al], 681

In vivo and in vivo responses of mucosa from the large colon of horses to ischemia and reperfusion [AS Graham et al], 982

Effects of in vivo lidocaine administration at the time of ischemia and reperfusion on in vitro contractility of equine jejunal smooth muscle [M Guschlbauer et al], 1449

Comparison of plasma and peritoneal indices of fibrinolysis between foals and adult horses with and without colic [AE Watts et al], 1535

Intra-abdominal hyaluronan concentration in peritoneal fluid of horses with sudden signs of severe abdominal pain [JD Lillich et al], 1666

Collagen
Effects of preparation method, shear force, and exposure to collagen on release of growth factors from equine platelet-rich plasma [JA Textor et al], 2011;72:72-271

Letter: Questions statistical power of study on release of growth factors from platelet-rich plasma [JU Carmona et al], 2011;72:998

Response [JA Textor et al], 2011;72:999

Colon
Evaluation of the secretory response to endogenous and exogenous prostaglandins in mucosa from the proximal and distal portions of the colon of dogs [M Omori et al], 404

In vitro and in vivo responses of mucosa from the large colon of horses to ischemia and reperfusion [AS Graham et al], 982

Expression and subcellular localization of apical junction proteins in canine duodenal and colonic mucosa [H Ohta et al], 1046

Computed Tomography
Evaluation of the effects of thiopental, propofol, and etomidate on recovery of ischemia-injured jejunal mucosa in horses [M Guschlbauer et al], 1449

Evaluation of the secretory response to endogenous and exogenous prostaglandins in mucosa from the proximal and distal portions of the colon of dogs [M Omori et al], 404

In vitro and in vivo responses of mucosa from the large colon of horses to ischemia and reperfusion [AS Graham et al], 982

Expression and subcellular localization of apical junction proteins in canine duodenal and colonic mucosa [H Ohta et al], 1046

Computed Tomography
Estimation of intrathoracic arterial diameter by means of computed tomographic angiography in Hispaniolan Amazon parrots [H Beaufre et al], 210

Evaluation of triphasic helical computed tomography of the kidneys in clinically normal dogs [S Lee et al], 345

Relationships of hip joint volume ratios with degrees of joint laxity and degenerative disease from youth to maturity in a canine population predisposed to hip joint osteoarthritis [LL D’Amico et al], 376

Computed tomographic anatomy of the equine stifle joint [E Van der Vekens et al], 512

Effects of body position, imaging plane, and observer on computed tomographic measurements of the lumbosacral intervertebral foraminal area in dogs [BM Higgins et al], 905

Evaluation of the effect of computed tomography scan protocols and freeform fabrication methods on bone biodegradable accuracy [KL Fitzwater et al], 1178

Comparison of cross-sectional anatomy and computed tomography of the tarsus in horses [EV Raes et al], 1209

Evaluation of glomerular filtration rate by use of dynamic computed tomography and Patlak analysis in clinically normal cats [J Chang et al], 1276

Evaluation of radiographic, computed tomographic, and cadaveric anatomy of the head of boa constrictors [T Banzato et al], 1592

Conjunctivitis
Shedding of chlamydiae in relation to titers of serum chlamydiae-specific antibodies and serum concentrations of two acute-phase proteins in cats without conjunctivitis [B Ström Holst et al], 806

Corrections

Analgesic effects of tramadol hydrochloride administered via caudal epidural injection in healthy adult cattle [A Baniadam et al], 2010;71:720-725

Correction: 2011;72:1550

Evaluation of 12- and 24-month survival rates after treatment with masitinib in dogs with nonresectable mast cell tumors [KA Hahn et al], 2010;71:1354

Correction: 2011;72:247

Evaluation of a three-dimensional kinematic model for canine gait and analysis [Y-C Fu], 2010;71:1118

Correction: 2011;72:416

Evaluation of the in vitro effects of aqueous black walnut extract on equine mononuclear cells [DJ Hurley et al], 2011;72:318

Correction: 2011;72:511

Cortisol
Determination of the concentrations of triolastone and ketotriolastone that inhibit ex vivo canine adrenal gland synthesis of cortisol, corticosterone, and aldosterone [AL McGraw et al], 661

Cortisone
Pharmacokinetics of intra-articular, intravenous, and intramuscular administration of triamcinolone acetonide and its effect on endogenous plasma hydrocortisone and cortisol concentrations in horses [LR Soma et al], 1234

C-reactive Protein
Evaluation of changes in haptoglobin and C-reactive protein concentrations caused by freezing of saliva and meat juice samples collected from healthy and diseased pigs [AM Gutiérrez et al], 11

Crias
Radiographic appearance of the thorax of clinically normal alpaca crias [NC Nelson et al], 1439

CTLA4-Ig
Effect of cyclosporine, dexamethasone, and human CTLA4-Ig on production of cytokines in lymphocytes of clinically normal cats and cats undergoing renal transplantation [LR Aronson et al], 540

Cyclooxygenase
Evaluation of the cyclooxygenase selectivity of robenacoxib and its effect on recovery of ischemia-injured jejunal mucosa in horses [JF Marshall et al], 228

Expression of cyclooxygenase genes in the jejunum of horses during low-flow ischemia and reperfusion [H Hilton et al], 681

Cyclosporine
Effect of cyclosporine, dexamethasone, and human CTLA4-Ig on production of cytokines in lymphocytes of clinically normal cats and cats undergoing renal transplantation [LR Aronson et al], 540

Effects of powdered whole grapefruit and metoclopramide on the pharmacokinetics of cyclosporine in dogs [NE Radwanski et al], 687

Cystitis
Urodynamic evaluation of female cats with idiopathic cystitis [CH Wu et al], 577

Effects of oral administration of N-acetyl-D-glucosamine on plasma and urine concentrations of glycosaminoglycans in cats with idiopathic cystitis [J Panchapathan et al], 843

Comparison of urine protein profiles in cats without urinary tract disease and cats with idiopathic cystitis, bacterial urinary tract infection, or urolithiasis [SLK Lemberger et al], 1407

Cytochrome P450
Inhibition of cytochrome P450 enzymes involved in ketamine metabolism by use of liver microsomes and specific cytochrome P450 enzymes from horses, dogs, and humans [LD Mössner et al], 1505

Cytokines
Modulation of cytokine-induced prostaglandin E2 production in cultures of articular chondrocytes obtained from carpal joints of camels (Camelus dromedarius) [CG Frondoza et al], 51

Assessment of IgE response and cytokine gene expression in pulmonary effluent lymph collected after ovalbumin inhalation during experimental infection of calves with bovine respiratory syncytial virus [LJ Gershwin et al], 134

Effect of cyclosporine, dexamethasone, and human CTLA4-Ig on production of cytokines in lymphocytes of clinically normal cats and cats undergoing renal transplantation [LR Aronson et al], 540

Comparison of the response to experimentally induced short-term inflammation in the temporomandibular and metacarpophalangeal joints of horses [JL Carmalt et al], 1586

Dairy Cattle
Associations among behavioral and acute physiologic responses to lipopolysaccharide-induced clinical mastitis in lactating dairy cows [JL Zimov et al], 620

Effect of infection with bovine leukemia virus on lymphocyte proliferation and apoptosis in dairy cattle [RJ Enskine et al], 1059

Use of data collected at cessation of lactation to predict incidence of sole ulcers and white line disease during the subsequent lactation in dairy cows [VS Machado et al], 1338

Dark Field Microscopy
Assessment of microcirculatory changes by use of sidestream dark field microscopy during hemorrhagic shock in dogs [AM Peruski et al], 438

Deer
Characterization of the risk of deer-cattle interactions in Minnesota by use of an on-farm environmental assessment tool [BM Knust et al], 924

Dermatology
In vitro antimicrobial properties of caprylic acid, monacaprylin, and sodium caprylate against Dermatophilus congolensis [SR Valipe et al], 331

Dermatophilus congolensis
In vitro antimicrobial properties of caprylic acid, monacaprylin, and sodium caprylate against Dermatophilus congolensis [SR Valipe et al], 331

Detomidine
Pharmacokinetics and pharmacodynamics of detomidine following sublingual administration to horses [HKD Knych et al], 1378

Dexamethasone
Effect of cyclosporine, dexamethasone, and human CTLA4-Ig on production of cytokines in lymphocytes of clinically normal cats and cats undergoing renal transplantation [LR Aronson et al], 540

Dextrose
Effect of intravenous administration of dextrose on coagulation in healthy dogs [JL Gonzales et al], 561
Diabetes Mellitus
Evaluation of plasma islet amyloid polypeptide and serum glucose and insulin concentrations in nondiabetic cats classified by body condition score and in cats with naturally occurring diabetes mellitus [MS Henson et al], 1052

Diarrhea
Adhesion phenotypes of pigs of Chinese and Western breeds and a White Duroc-Erthualian crossbred with regard to susceptibility to enterotoxigenic Escherichia coli with fimbrial adhesions K99, 987P, and F41 [X Yan et al], 80

Diet
Use of a meal challenge test to estimate peak postprandial triglyceride concentrations in dogs [KF Elliott et al], 161
Assessment of five ELISAs for measurement of leptin concentrations in dogs [A Tvarijonaviciute et al], 169
Effects of feeding a high-protein diet following an 18-hour period of feed withholding on mammalian target of rapamycin-dependent signaling in skeletal muscle of mature horses [KR Urschel et al], 248
Effect of water content in a canned food on voluntary food intake and body weight in cats [A Wei et al], 918

Digestive System
Evaluation of the cyclooxygenase selectivity of robenacoxib and its effect on recovery of ischemia-injured jejunal mucosa in horses [JF Marshall et al], 226
Specificity of a canine pancreas-specific lipase assay for diagnosing pancreatitis in dogs without clinical or histologic evidence of the disease [SC Neilson-Carley et al], 302
Evaluation of the secretory response to endogenous and exogenous prostaglandins in mucosa from the proximal and distal portions of the colon of dogs [M Omori et al], 404
Expression of cyclooxygenase genes in the jejunum of horses during low-flow ischemia and reperfusion [H Hilton et al], 681
In vitro and in vivo responses of mucosa from the large colon of horses to ischemia and reperfusion [AS Graham et al], 982
Expression and subcellular localization of apical junction proteins in canine duodenal and colonic mucosa [H Ohta et al], 1046
Effects of in vivo lidocaine administration at the time of ischemia and reperfusion on in vitro contractility of equine jejunal smooth muscle [M Guschlbauer et al], 1449
Evaluation of the Helicobacteraceae in the oral cavity of dogs [M Craven et al], 1476
Evaluation of a modified acetaminophen absorption test to estimate the abomasal emptying rate in Holstein-Friesian heifers [A Ehsani-Kheradgardi et al], 1600

Digits
Impact of successive freezing-thawing cycles on 3-T magnetic resonance images of the digits of isolated equine limbs [GE Bolen et al], 780

DNA
Safety and efficacy of a xenogeneic DNA vaccine encoding for human tyrosinase as adjunctive treatment for oral malignant melanoma in dogs following surgical excision of the primary tumor [DA Grosenbaugh et al], 1631

Doberman Pinschers
Evaluation of N-terminal pro-B-type natriuretic peptide as a diagnostic marker of various stages of cardiomyopathy in Doberman Pinschers [G Weis et al], 642
Evaluation of 10 genes encoding cardiac proteins in Doberman Pinschers with dilated cardiomyopathy [ML O’Sullivan et al], 932
Radiographic vertebral canal and vertebral body ratios in Doberman Pinschers with and without clinical signs of caudal cervical spondylomyelopathy [S De Decker et al], 958
Magnetic resonance imaging vertebral canal and body ratios in Doberman Pinschers with and without disk-associated cervical spondylomyelopathy and clinically normal English Foxhounds [S De Decker et al], 1496

Donkeys
Plasma disposition, concentration in the hair, and anthemintic efficacy of eprinomectin after topical administration in donkeys [GC Gokbulut et al], 1639

Ducks
Pharmacokinetics and bioavailability of ceftiofur in healthy ducks [LYuan et al], 122

Duodenum
Expression and subcellular localization of apical junction proteins in canine duodenal and colonic mucosa [H Ohta et al], 1046

Ears
Evaluation of otoacoustic emissions in clinically normal alert puppies [B Schemera et al], 295

Echocardiography
Comparison of echocardiographic indices of myocardial strain with invasive measurements of left ventricular systolic function in anesthetized healthy dogs [NM Culwell et al], 650
Anatomic, histologic, and two-dimensional-echocardiographic evaluation of mitral valve anatomy in dogs [M Borgarelli et al], 1186

Elbow Joints
Topographic and age-dependent distribution of subchondral bone density in the elbow joints of clinically normal dogs [MJ Dickmeis et al], 491

Electrodes
Investigation of the use of three electroencephalographic electrodes for long-term electroencephalographic recording in awake and sedated dogs [FMK James et al], 384

Electroencephalography
Investigation of the use of three electroencephalographic electrodes for long-term electroencephalographic recording in awake and sedated dogs [FMK James et al], 384
Evaluation of the electroencephalogram in young cats [MJ Lewis et al], 391

Electromyography
Effects of sympathetic on electrodagnostic test results in Cavalier King Charles Spaniels [TR Harcourt-Brown et al], 595

Electronic Stimulation
Evaluation of biomechanical effects of four stimulation devices placed on the hind feet of trotting horses [HM Clayton et al], 1489

ELISA
Assessment of five ELISAs for measurement of leptin concentrations in dogs [A Tvarijonaviciute et al], 169
Development and validation of a sandwich ELISA for use in measuring concentrations of canine surfactant protein A in serum of dogs [K Sone et al], 833

Embolization
Feasibility of percutaneous catheterization and embolization of the thoracic duct in dogs [A Singh et al], 1527

Endocrinology
Evaluation of beta-cell sensitivity to glucose and first-phase insulin secretion in obese dogs [KR Verkest et al], 357
Glucose and insulin dynamics associated with continuous rate infusion of dextrose solution or dextrose solution and insulin in healthy and endotoxin-exposed horses [JH Han et al], 521
Determination of the concentrations of triostane and ketotristane that inhibit ex vivo canine adrenal gland synthesis of cortisol, corticosterone, and aldosterone [AL McGraw et al], 661
Evaluation of the effects of pregnancy on insulin sensitivity, insulin secretion, and glucose dynamics in Thoroughbred mares [LA George et al], 666
Effect of combined lignan phytoestrogen and melatonin treatment on secretion of steroid hormones by adrenal carcinoma cells [KA Fecteau et al], 675
Evaluation of plasma islet amyloid polypeptide and serum glucose and insulin concentrations in nondiabetic cats classified by body condition score and in cats with naturally occurring diabetes mellitus [MS Henson et al], 1052
Pharmacokinetics of intra-articular, intravenous, and intramuscular administration of triamcinolone acetonide and its effect on endogenous plasma hydrocortisone and corticosterone concentrations in horses [LR Soma et al], 1234
Endotoxemia
Effects of hyperbaric oxygen treatment on horses with experimentally induced endotoxemia [CA Baumgart et al], 1266

Endotoxin
Glucose and insulin dynamics associated with continuous rate infusion of dextrose solution or dextrose solution and insulin in healthy and endotoxin-exposed horses [JH Han et al], 521

English Foxhounds
Magnetic resonance imaging vertebral canal and body ratios in Doberman Punschers with and without disk-associated cervical spondylomyelopathy and clinically normal English Foxhounds [S De Decker et al], 1496

Enterotoxin
Enterotoxin production, enterotoxin gene distribution, and genetic diversity of Staphylococcus aureus recovered from milk of cows with subclinical mastitis [L-Oliveira et al], 1361

Environment
Characterization of the risk of deer-cattle interactions in Minnesota by use of an on-farm environmental assessment tool [BM Knust et al], 924

Epidemiology
Characterization of the temporal and spatial distribution and reproductive ratio of vesicular stomatitis outbreaks in Mexico in 2008 [M Arroyo et al], 233
Evaluation of the effects of a commercially available Salmonella Newport siderophore receptor and porin protein vaccine on fecal shedding of Salmonella bacteria and health and performance of feedlot cattle [CC Dodd et al], 239
Characterization of the risk of deer-cattle interactions in Minnesota by use of an on-farm environmental assessment tool [BM Knust et al], 924
Use of data collected at cessation of lactation to predict incidence of sole ulcers and white line disease during the subsequent lactation in dairy cows [VS Machado et al], 1338
Evaluation of the risk of paratuberculosis in adult cows fed Mycobacterium avium subsp paratuberculosis DNA-positive or -negative colorectal as calves [P Pithua et al], 1456

Epidermis
Evaluation of primary epidermal lamellar density in the forefeet of near-term fetal Australian feral and domesticated horses [BA Hampson et al], 871

Epidural Mass Model
Evaluation of an acute focal epidural mass model to characterize the intracranial pressure-volume relationship in healthy Beagles [RA Packer et al], 103

Epithelial Cells
Evaluation of infectivity of a canine lineage H3N8 influenza A virus in ponies and in primary equine respiratory epithelial cells [AM Quintana et al], 1071

Eprinomectin
Plasma disposition, concentration in the hair, and anthelminthic efficacy of eprinomectin after topical administration in donkeys [GC Gokbulut et al], 1639

Escherichia coli
Evaluation of the contribution of gyrA mutation and efflux pumps to fluoroquinolone and multidrug resistance in pathogenic Escherichia coli isolates from dogs and cats [BW Shaheen et al], 25
Adhesion phenotypes of pigs of Chinese and Western breeds and a White Duroc-Erhuilian crossbreed with regard to susceptibility to enterotoxigenic Escherichia coli with fimbrial adhesions K99, 987P, and F41 [X Yan et al], 90

Etomidate
Evaluation of the effects of thiopental, propofol, and etomidate on glomerular filtration rate measured by the use of dynamic computed tomography in dogs [J Chang et al], 146

Exercise
Changes in hoof surface strain distribution in response to moderate exercise in Standardbreds [B Faramarzi et al], 484

Extracorporeal Shock Wave Therapy
Effects of extracorporeal shock wave therapy and polysulfated glycosaminoglycan treatment on subchondral bone, serum biomarkers, and synovial fluid biomarkers in horses with induced osteoarthritis [CE Kawcak et al], 772

Eyes
Tear, cornea, and aqueous humor concentrations of ciprofloxacin and moxifloxacin after topical ocular application in ophthalmologically normal horses [HD Westermeyer et al], 398
Fluorophotometric and tonometric evaluation of ocular effects following aqueocentesis performed with needles of various sizes in dogs [RA Allbaugh et al], 555
Evaluation of four drugs for inhibition of paracentesis-induced bloody-aqueous humor barrier breakdown in cats [AU Rankin et al], 826
Effectiveness of acepromazine maleate or morphine on tear production before, during, and after sevofofurane anesthesia in dogs [MC Mouney et al], 1427

Famiclovir
Evaluation of orally administered famciclovir in cats experimentally infected with feline herpesvirus type-1 [SM Thomasy et al], 85

Feed
Effect of water content in a canned food on voluntary food intake and body weight in cats [A Wei et al], 918

Feedlots
Evaluation of the effects of a commercially available Salmonella Newport siderophore receptor and porin protein vaccine on fecal shedding of Salmonella bacteria and health and performance of feedlot cattle [CC Dodd et al], 239
Effectiveness of sorting calves with high risk of developing bovine respiratory disease on the basis of serum haptoglobin concentration at the time of arrival at a feedlot [BP Holland et al], 1349

Feet
Effects of industrial polystyrene foam insulation pads on the center of pressure and load distribution in the forefeet of clinically normal horses [JA Schleining et al], 628
Sole depth and weight-bearing characteristics of the palmar surface of the feet of feral horses and domestic Thoroughbreds [BA Hampson et al], 727
Evaluation of primary epidermal lamellar density in the forefeet of near-term fetal Australian feral and domesticated horses [BA Hampson et al], 871
Evaluation of biomechanical effects of four stimulation devices placed on the hind feet of trotting horses [HM Clayton et al], 1489

Feline Herpesvirus
Evaluation of orally administered famciclovir in cats experimentally infected with feline herpesvirus type-1 [SM Thomasy et al], 85

Feral Animals
Sole depth and weight-bearing characteristics of the palmar surface of the feet of feral horses and domestic Thoroughbreds [BA Hampson et al], 727
Nutritional analysis of gastric contents and body condition score at a single time point in feral horses in Australia [BA Hampson et al], 1226

Fibrillin 2
Evaluation of a fibrillin 2 gene haplotype associated with hip dysplasia and incipient osteoarthritis in dogs [SG Friedenberg et al], 529

Fibrin
Evaluation of the use of an autologous platelet-rich fibrin membrane to enhance tendon healing in dogs [LC Visser et al], 699

Fibrinolysis
Comparison of plasma and peritoneal indices of fibrinolysis between foals and adult horses with and without colic [AE Watts et al], 1535

Flow Cytometry
Development of a flow cytometric assay for detection of coated platelets in dogs and evaluation of binding of coated platelets to recombinant human coagulation factor VIIa [TK Knudsen et al], 1007
Flunixin
Effect of flunixin meglumine on the amelioration of lameness in dairy steers with amphotericin B-induced transient synovitis-arthritis [KL Schulz et al], 1431

Fluoroquinolone
Evaluation of the contribution of gyrA mutation and efflux pumps to fluoroquinolone and multidrug resistance in pathogenic Escherichia coli isolates from dogs and cats [BW Shaheen et al], 25

Food Safety
Evaluation of the effects of a commercially available Salmonella Newport siderophore receptor and porin protein vaccine on fecal shedding of Salmonella bacteria and health and performance of feedlot cattle [CC Dodd et al], 239

Fractures
Effects of long-term administration of carprofen on healing of a tibial ostotomy in dogs [H Ochi et al], 634

In vitro comparison of stiffness of plate fixation of radii from large- and small-breed dogs [CM Gauthier et al], 1112

Freezing
Evaluation of changes in haptoglobin and C-reactive protein concentrations caused by freezing of saliva and meat juice samples collected from healthy and diseased pigs [AM Gutiérrez et al], 11

Fungi
In vitro antimicrobial properties of caprylic acid, monocaprylin, and sodium caprylate against Dermatophilus congolensis [SR Valipe et al], 331

G
Furosemide
Effects of furosemide and the labeled dosage of pimobendan on the circulating renin-angiotensin-aldosterone system in clinically normal dogs [AG Lantis et al], 1646

Gait
Evaluation of biomechanical effects of four stimulation devices placed on the hind feet of trotting horses [HM Clayton et al], 1489

Gait Analysis
Accuracy of pressure plate kinetic asymmetry indices and their correlation with visual gait assessment scores in lame and nonlame dogs [M Oosterlinck et al], 820

Gallbladder
Ultrasonographic characterization of the liver, caudal vena cava, portal vein, and gallbladder in goats [U Braun et al], 219

Effect of twice-daily oral administration of hydrocortisone on the bile acids composition of gallbladder bile in dogs [PH Kook et al], 1607

Glutyramycin
Evaluation of the efficacy of galium maltolate for chemophrophylaxis against pneumonia caused by Rhodococcus equi infection in foals [MK Chaffin et al], 945

Evaluation of the in vitro activity of galium nitrate against Mycobacterium avium subsp paratuberculosis [M-E Fecteau et al], 1243

Gamithromycin
Disposition of gamithromycin in plasma, pulmonary epithelial lining fluid, bronchoalveolar cells, and lung tissue in cattle [S Giguère et al], 326

Gas Monitor
Comparison of use of an infrared anesthetic gas monitor and refractometer for measurement of anesthetic agent concentrations [TD Ambrisko et al], 1299

Gazelles
Comparison of the effects of racemic ketamine and S-ketamine for anesthesia in Rheeom gazelles (Gazella subgutturosa marica) and Subgutturosa gazelles (Gazella subgutturosa subgutturosa) [O Martin-Jurado et al], 1164

Genetic Analysis
Genotypic relatedness and phenotypic characterization of Staphylococcus schleiferi subspecies in clinical samples from dogs [CL Cain et al], 96

Genetics
Genotypic relatedness and phenotypic characterization of Staphylococcus schleiferi subspecies in clinical samples from dogs [CL Cain et al], 96

Glucometers
Evaluation of the effects of pregnancy on insulin sensitivity, insulin concentrations in nondiabetic cats classified by body condition score and in cats with naturally occurring diabetes mellitus [MS Henson et al], 1052

Glucose and insulin dynamics associated with continuous rate infusion of dextrose solution or dextrose solution and insulin in healthy and endotoxin-exposed horses [JH Han et al], 521

Evaluation of the effects of pregnancy on insulin sensitivity, insulin secretion, and glucose dynamics in Thoroughbred mares [LA George et al], 666

Evaluation of plasma islet amyloid polypeptide and serum glucose and insulin concentrations in nondiabetic cats classified by body condition score and in cats with naturally occurring diabetes mellitus [MS Henson et al], 1052

Glucose and insulin dynamics associated with continuous rate infusion of dextrose solution or dextrose solution and insulin in healthy and endotoxin-exposed horses [JH Han et al], 521

Glycosaminoglycans
Effects of extracorporeal shock wave therapy and polysulfated glycosaminoglycan treatment on subchondral bone, serum biomarkers, and synovial fluid biomarkers in horses with induced osteoarthritis [CE Kawcak et al], 772

Effects of oral administration of N-acetyl-D-glucosamine on plasma and urine concentrations of glycosaminoglycans in cats with idiopathic cystitis [J Panchapathanpong et al], 843

Goats
Ultrasonographic characterization of the liver, caudal vena cava, portal vein, and gallbladder in goats [U Braun et al], 219

Grapefruit
Effects of powdered whole grapefruit and metoclopramide on the pharmacokinetics of cyclosporine in dogs [NE Radwanski et al], 687

Greyhounds
Pharmacokinetics and antinoceptive effects of oral tramadol hydrochloride administration in Greyhounds [B KuKanich et al], 256

Glomerular Filtration Rate
Evaluation of the effects of thiopental, propofol, and etomidate on glomerular filtration rate measured by the use of dynamic computed tomography in dogs [J Chang et al], 146

Effect of sedation protocol on glomerular filtration rate in cats as determined by use of quantitative renal scintigraphy [MD Winter et al], 1222

Evaluation of glomerular filtration rate by use of dynamic computed tomography and Patlak analysis in clinically normal cats [J Chang et al], 1276

Glomerular filtration rate estimation by use of a correction formula for slope-intercept plasma iohexol clearance in cats [NC Finch et al], 1652

Glucose
Evaluation of beta-cell sensitivity to glucose and first-phase insulin secretion in obese dogs [KR Verkest et al], 357

Glucose and insulin dynamics associated with continuous rate infusion of dextrose solution or dextrose solution and insulin in healthy and endotoxin-exposed horses [JH Han et al], 521

Evaluation of the effects of pregnancy on insulin sensitivity, insulin secretion, and glucose dynamics in Thoroughbred mares [LA George et al], 666

Evaluation of plasma islet amyloid polypeptide and serum glucose and insulin concentrations in nondiabetic cats classified by body condition score and in cats with naturally occurring diabetes mellitus [MS Henson et al], 1052

Glucose and insulin dynamics associated with continuous rate infusion of dextrose solution or dextrose solution and insulin in healthy and endotoxin-exposed horses [JH Han et al], 521

Glycosaminoglycans
Effects of extracorporeal shock wave therapy and polysulfated glycosaminoglycan treatment on subchondral bone, serum biomarkers, and synovial fluid biomarkers in horses with induced osteoarthritis [CE Kawcak et al], 772

Effects of oral administration of N-acetyl-D-glucosamine on plasma and urine concentrations of glycosaminoglycans in cats with idiopathic cystitis [J Panchapathanpong et al], 843

Goats
Ultrasonographic characterization of the liver, caudal vena cava, portal vein, and gallbladder in goats [U Braun et al], 219

Grapefruit
Effects of powdered whole grapefruit and metoclopramide on the pharmacokinetics of cyclosporine in dogs [NE Radwanski et al], 687

Greyhounds
Pharmacokinetics and antinoceptive effects of oral tramadol hydrochloride administration in Greyhounds [B KuKanich et al], 256

Growth Factor
Effects of preparation method, shear force, and exposure to collagen on release growth factors from equine platelet-rich plasma [JA Textor et al], 2011;72:271

Letter: Questions statistical power of study on release of growth factors from platelet-rich plasma [JU Carmona et al], 2011;72:998

Response [JA Textor et al], 2011;72:999

Effects of transforming growth factor-β3 and matrix metalloproteinase-3 on the pathogenesis of chronic mitral valvular disease in dogs [K Obayashi et al], 194

Evaluation of in vitro growth factor treatments on plasma islet amyloid polypeptide and serum glucose and insulin concentrations in nondiabetic cats classified by body condition score and in cats with naturally occurring diabetes mellitus [MS Henson et al], 1052

Glucose and insulin dynamics associated with continuous rate infusion of dextrose solution or dextrose solution and insulin in healthy and endotoxin-exposed horses [JH Han et al], 521
Growth Hormone
Evaluation of pulsatile plasma concentrations of growth hormone in healthy dogs and dogs with dilated cardiomyopathy [NJ Beijerink et al], 59

Guaifenesin
Anesthetic induction with gualfenesin and propofol in adult horses [RJ Brosnan et al], 1569

Guineafowl
Pharmacokinetics of long-acting cefetiomur crystalline-free acid in helmeted guineafowl (Numida meleagris) after a single intramuscular injection [KB Wojick et al], 1514

Guinea Pigs
Comparison of two commercial ovine Campylobacter vaccines and an experimental bacterin in guinea pigs inoculated with Campylobacter jejuni [ER Burrough et al], 799
Evaluation of the ability of two transfection reagents to deliver small interfering RNA molecules to equine and guinea pig cartilage in vitro [SS Dougherty et al], 813

GyrA
Evaluation of the contribution of gyrA mutation and efflux pumps to fluoroquinolone and multidrug resistance in pathogenic Escherichia coli isolates from dogs and cats [BW Shaheen et al], 25

Halothane
Accuracy of isoflurane, halothane, and sevoflurane vaporizers during high oxygen flow and at maximum vaporizer dial setting [TD Ambirsko et al], 751

Haptoglobin
Evaluation of changes in haptoglobin and C-reactive protein concentrations caused by freezing of saliva and meat juice samples collected from healthy and diseased pigs [AM Gutierrez et al], 11
Effectiveness of sorting calves with high risk of developing bovine respiratory disease on the basis of serum haptoglobin concentration at the time of arrival at a feedlot [BP Holland et al], 1349

Hawks
Effect of West Nile virus DNA-plasmid vaccination on response to live virus challenge in red-tailed hawks (Buteo jamaicensis) [PT Redig et al], 1065

Healing
Effects of long-term administration of carprofen on healing of a tibial osteotomy in dogs [H Ochi et al], 634
Evaluation of the use of an autologous platelet-rich fibrin membrane to enhance tendon healing in dogs [LC Visser et al], 699

Hearing
Evaluation of otoacoustic emissions in clinically normal alert puppies [B Schemera et al], 295

Heart
Evaluation of plasma activity of matrix metalloproteinase-2 and -9 in dogs with myxomatous mitral valve disease [LT Ljungvall et al], 1022
Anatomic, histologic, and two-dimensional-echocardiographic evaluation of mitral valve anatomy in dogs [M Borgarelli et al], 1186
Influence of electrode position on cardioversion energy requirements during transvenous electrical cardioversion in horses [EE Preiss et al], 1193
Ultrasonographic evaluation of postprandial heart variation in juvenile Paraguay anacondas (Eunectes notaeus) [PF DeSerrera et al], 295

Helicobacteraceae
Evaluation of the Helicobacteraceae in the oral cavity of dogs [M Craven et al], 1476

Hematocrit
Effect of hematocrit on accuracy of two point-of-care glucometers for use in dogs [AEH Paul et al], 1204

Hematopoietic System
Perfusion method for harvesting bone marrow cells from dogs [M Sato et al], 1344

Hereditary
Inheritance of cerebellar atrophy in Arabsians [LS Brault et al], 940

Herpesvirus
Evaluation of orally administered famciclovir in cats experimentally infected with feline herpesvirus type-1 [SM Thomasy et al], 85
Sero logic response to Mannheimia haemolytica in calves concurrently inoculated with inactivated or modified-live preparations of M haemolytica and viral combination vaccines containing modified-live bovine herpesvirus type 1 [VS Cortese et al], 1541

Hip Dysplasia
Evaluation of a fibrillin 2 gene haplotype associated with hip dysplasia and incipient osteoarthritis in dogs [SG Friedenberg et al], 529

Hip Joint
Relationships of hip joint volume ratios with degrees of joint laxity and degenerative disease from youth to maturity in a canine population predisposed to hip joint osteoarthritis [LL D’Amico et al], 376

Histology
Anatomic, histologic, and two-dimensional-echocardiographic evaluation of mitral valve anatomy in dogs [M Borgarelli et al], 1186

Histopathology
Histopathologic features of distal tarsal joint cartilage and subchondral bone in ridden and pasture-exercised horses [CA Tranquille et al], 2533

Holstein-Friesian Cattle
Evaluation of a modified acetaminophen absorption test to estimate the abomasal emptying rate in Holstein-Friesian heifers [A Ehsani-Kheradgerdi et al], 1600

Holsteins
Pharmacokinetics and physiologic effects of intramuscularly administered xylazine hydrochloride-ketamine hydrochloride-butorphanol tartrate alone or in combination with orally administered sodium salicylate on biomarkers of pain in Holstein calves following castration and dehorning [SL Baldridge et al], 1305

HooF
Changes in hoof surface strain distribution in response to moderate exercise in Standardbreds [B Faramarzi et al], 484
Effects of industrial polystyrene foam insulation pads on the center of pressure and load distribution in the forefeet of clinically normal horses [JA Schleinig et al], 628
Sole depth and weight-bearing characteristics of the palmar surface of the feet of feral horses and domestic Thoroughbreds [BA Hampson et al], 727
Evaluation of primary epidermal lamellar density in the forefoot of near-term fetal Australian feral and domesticated horses [BA Hampson et al], 871
Evaluation of biomechanical effects of four stimulation devices placed on the hind feet of trotting horses [HM Clayton et al], 1489

Hyaluronan
Intra-abdominal hyaluronan concentration in peritoneal fluid of horses with sudden signs of severe abdominal pain [JD Lillich et al], 1666

Hyaluronic Acid
Hyaluronic acid and chondrogenesis of murine bone marrow mesenchymal stem cells in chitosan sponges [Z Schwartz et al], 42

Hydrocortisone
Pharmacokinetics of intra-articular, intravenous, and intramuscular administration of triamcinolone acetonide and its effect on endogenous plasma hydrocortisone and cortisone concentrations in horses [LR Soma et al], 1234
Effect of twice-daily oral administration of hydrocortisone on the bile acids composition of gallbladder bile in dogs [PH Kook et al], 1607

Hyperadrenocorticism
Effect of twice-daily oral administration of hydrocortisone on the bile acids composition of gallbladder bile in dogs [PH Kook et al], 1607

Hyperextension
Molecular, histologic, and trace mineral characterization of metacarpophalangeal and metatarsophalangeal joint hyperextension in juvenile llamas [SA Semevolos et al], 549
Hyperlipidemia
Use of a meal challenge test to estimate peak postprandial triglyceride concentrations in dogs [KF Elliott et al], 161

IgE
Assessment of IgE response and cytokine gene expression in pulmonary efferent lymph collected after ovalbumin inhalation during experimental infection of calves with bovine respiratory syncytial virus [LJ Gershwin et al], 134

Iguanas
Selected cardiopulmonary values and baroreceptor reflex in conscious green iguanas (Iguana iguana) [SM Hernandez et al], 1519

Immunology
Effect of cyclosporine, dexamethasone, and human CTLA4-Ig on production of cytokines in lymphocytes of clinically normal cats and cats undergoing renal transplantation [LR Aronson et al], 540
Effect of infection with bovine leukosis virus on lymphocyte proliferation and apoptosis in dairy cattle [RJ Erskine et al], 1059
Evaluation of perinuclear antineutrophilic cytoplasmic antibodies in sera from dogs with inflammatory bowel disease or intestinal lymphoma [C Mancho et al], 1333

Important Resources for Veterinarians
424, 720, 1553

Inflammation
Evaluation of the in vitro effects of aqueous black walnut extract on equine mononuclear cells [DJ Hurley et al], 2011;72:318
Correction: 2011;72:511
Evaluation of subcutaneous and oral administration of robenacoxib and meloxicam for the treatment of acute pain and inflammation associated with orthopedic surgery in dogs [P Gruet et al], 184
Comparison of the response to experimentally induced short-term inflammation in the temporomandibular and metacarpophalangeal joints of horses [JL Carmalt et al], 1586

Inflammatory Bowel Disease
Evaluation of perinuclear antineutrophilic cytoplasmic antibodies in sera from dogs with inflammatory bowel disease or intestinal lymphoma [C Mancho et al], 1333

Influenza Virus
Evaluation of infectivity of a canine lineage H3N8 influenza A virus in ponies and in primary equine respiratory epithelial cells [AM Quintana et al], 1071

Injection-Site Reactions
Humoral immunity and injection-site reactions in cattle vaccinated with a multivalent clostridial vaccine administered via subcutaneous injection or via transdermal needle-free injection [AR Woolums et al], 1124

Insulin
Evaluation of beta-cell sensitivity to glucose and first-phase insulin secretion in obese dogs [KR Verkest et al], 357
Glucose and insulin dynamics associated with continuous rate infusion of dextrose solution or dextrose solution and insulin in healthy and endotoxin-exposed horses [JH Han et al], 521
Evaluation of the effects of pregnancy on insulin sensitivity, insulin secretion, and glucose dynamics in Thoroughbred mares [LA George et al], 666
Evaluation of plasma islet amyloid polypeptide and serum glucose and insulin concentrations in nondiabetic cats classified by body condition score and in cats with naturally occurring diabetes mellitus [MS Henson et al], 1052

Insulin-like Growth Factor
Evaluation of pulsatile plasma concentrations of growth hormone in healthy dogs and dogs with dilated cardiomyopathy [NJ Beijerinck et al], 59

Intervertebral Disk
Evaluation of intervertebral disk degeneration in chondrodystrophic and nonchondrodystrophic dogs by use of Pfirrmann grading of images obtained with low-field magnetic resonance imaging [N Bergknut et al], 893
Reliability of macroscopic grading of intervertebral disk degeneration in dogs by use of the Thompson system and comparison with low-field magnetic resonance imaging findings [N Bergknut et al], 899

Intervertebral Foramina
Effects of body position, imaging plane, and observer on computed tomographic measurements of the lumbosacral intervertebral foramen area in dogs [BM Higgins et al], 905

Intracranial Pressure
Evaluation of an acute focal epidural mass model to characterize the intracranial pressure-volume relationship in healthy Beagles [RA Packer et al], 103

Iohexol
Glomerular filtration rat estimation by use of a correction formula for slope-intercept plasma iohexol clearance in cats [NC Finch et al], 1652

Ischemia
Evaluation of the cyclooxygenase selectivity of robenacoxib and its effect on recovery of ischemia-injured jejunal mucosa in horses [JF Marshall et al], 226
Expression of cyclooxygenase genes in the jejunum of horses during low-flow ischemia and reperfusion [H Hilton et al], 681
In vitro and in vivo responses of mucosa from the large colon of horses to ischemia and reperfusion [AS Graham et al], 982
Effects of in vivo lidocaine administration at the time of ischemia and reperfusion on in vitro contractility of equine jejunal smooth muscle [M Guschlbauer et al], 1449

Isoflupredone
Impact of isoflupredone acetate treatment on clinical signs and weight gain in weaning heifers with experimentally induced Mannheimia haemolytica bronchopneumonia [J Hewson et al], 1613

Isoflurane
Effects of isoflurane anesthesia on cerebrovascular autoregulation in horses [RJ Brosnan et al], 18
Accuracy of isoflurane, halothane, and sevoflurane vaporizers during high oxygen flow and at maximum vaporizer dial setting [TD Ambrisko et al], 751

Jejunum
Evaluation of the cyclooxygenase selectivity of robenacoxib and its effect on recovery of ischemia-injured jejunal mucosa in horses [JF Marshall et al], 226

Joints
Modulation of cytokine-induced prostaglandin E2 production in cultures of articular chondrocytes obtained from carpal joints of camels (Camelus dromedarius) [CG Frondoza et al], 51
Relationships of hip joint volume ratios with degrees of joint laxity and degenerative disease from youth to maturity in a canine population predisposed to hip joint osteoarthritis [LL D’Amico et al], 376
Topographic and age-dependent distribution of subchondral bone density in the elbow joints of clinically normal dogs [MJ Dickomeit et al], 491
Evaluation of in vitro growth factor treatments on fibrochondrogenesis by synovial membrane cells from osteoarthritic and nonosteoarthritic joints of dogs [JJ Warnock et al], 500
Computed tomographic anatomy of the equine stifte joint [E Van der Vekens et al], 512
Molecular, histologic, and trace mineral characterization of metacarpophalangeal and metatarsophalangeal joint hypertension in juvenile llamas [SA Semevolos et al], 549
Comparison of two tourniquets and determination of amikacin sulfate concentrations after metacarpophalangeal joint lavage performed simultaneously with intravenous regional limb perfusion in horses [SB Alkabes et al], 613
Effects of extracorporeal shock wave therapy and polysulfated glycosaminoglycan treatment on subchondral bone, serum biomarkers, and synovial fluid biomarkers in horses with induced osteoarthritis [CE Kawcak et al], 772
Comparison of the response to experimentally induced short-term inflammation in the temporomandibular and metacarpophalangeal joints of horses [JL Carmalt et al], 1586
Histopathologic features of distal tarsal joint cartilage and subchondral bone in ridden and pasture-exercised horses [CA Tranquille et al], 2533
Ketamine
Comparison of the effects of racemic ketamine and S-ketamine for anesthesia in Rheem gazelles (Gazella subgutturosa marica) and Subgutturosa gazelles (Gazella subgutturosa subgutturosa) [O Martin-Jurado et al], 1164
Effect of sedation protocol on glomerular filtration rate in cats as determined by use of quantitative renal scintigraphy [MD Winter et al], 1222
Pharmacokinetics and physiologic effects of intramuscularly administered xylazine hydrochloride-ketamine hydrochloride-butorphanol tartrate alone or in combination with orally administered sodium salicylate on biomarkers of pain in Holstein calves following castration and dehorning [SL Baldridge et al], 1305
Inhibition of cytochrome P450 enzymes involved in ketamine metabolism by use of liver microsomes and specific cytochrome P450 enzymes from horses, dogs, and humans [LD Mössner et al], 1505
Evaluation of thoracic epidural analgesia induced by lidocaine, ketamine, or both administered via a lumbosacral approach in dogs [R DeRossi et al], 1580

Ketotriostane
Determination of the concentrations of trilostane and ketotriostane that inhibit ex vivo canine adrenal gland synthesis of cortisol, corticosterone, and aldosterone [AL McGraw et al], 661

Kidneys
Evaluation of triphasic helical computed tomography of the kidneys in clinically normal dogs [S Lee et al], 345

Kinematics
Symmetry of hind limb mechanics in orthopedically normal trotting Labrador Retrievers [GR Colborne et al], 336

Kinesiology
Accuracy of pressure plate kinetic asymmetry indices and their correlation with visual gait assessment scores in lame and nonlame dogs [M Oosterlinck et al], 820

Kinetics
Comparison of temporospatial and kinetic variables of walking in small and large dogs on a pressure-sensing walkway [J Kim et al], 1171

Labrador Retrievers
Symmetry of hind limb mechanics in orthopedically normal trotting Labrador Retrievers [GR Colborne et al], 336
Accuracy of the use of triaxial accelerometer for measuring daily activity as a predictor of daily maintenance energy requirement in healthy adult Labrador Retrievers [DJ Wrigglesworth et al], 1151

Lacrimation
Effect of duration and type of anesthetic on tear production in dogs [MK Shepard et al], 608

Lactation
Use of data collected at cessation of lactation to predict incidence of sole ulcers and white line disease during the subsequent lactation in dairy cows [VS Machado et al], 1338

Lamellae
Evaluation of primary epidermal lamellar density in the forefeet of near-term fetal Australian feral and domesticated horses [BA Hampson et al], 871

Lameness
Effect of perizinfetol and a proprietary phospholipase A, inhibitor on kinetic gait and subjective lameness scores in dogs with sodium urate-induced synovitis [SC Budsberg et al], 757
Accuracy of pressure plate kinetic asymmetry indices and their correlation with visual gait assessment scores in lame and nonlame dogs [M Oosterlinck et al], 820
Assessment of repeatability of a wireless, inertial sensor-based lameness evaluation system for horses [KG Keegan et al], 1156
Use of data collected at cessation of lactation to predict incidence of sole ulcers and white line disease during the subsequent lactation in dairy cows [VS Machado et al], 1338

Laminectomy
Evaluation of the in vitro effects of aqueous black walnut extract on equine mononuclear cells [DJ Hurley et al], 2011;72:318
Correction: 2011;72:511
Evaluation of the ability of aqueous black walnut extracts to induce the production of reactive oxygen species [DJ Hurley et al], 308
Effects of industrial polystyrene foam insulation pads on the center of pressure and load distribution in the forefeet of clinically normal horses [JA Schleining et al], 628
Characterization of the responses of equine digital veins and arteries to calcitonin gene-related peptide [LM Katz et al], 975

Larkspur
Comparison of the toxic effects of two duncecap larkspur (Delphinium occidentale) chemotypes in mice and cattle [D Cook et al], 706

Leptin
Assessment of five ELISAs for measurement of leptin concentrations in dogs [A Tvarijonaviciute et al], 169

Letters to the Editor
Effects of preparation method, shear force, and exposure to collagen on release growth factors from equine platelet-rich plasma [JA Textor et al], 2011;72:271
Letter: Questions statistical power of study on release of growth factors from platelet-rich plasma [JU Carmona et al], 2011;72:998
Response [JA Textor et al], 2011;72:999

Levetiracetam
Pharmacokinetics of levetiracetam after oral and intravenous administration of a single dose to clinically normal cats [MB Carnes et al], 1247

Lidocaine
Effects of intravenous administration of lidocaine on the minimum alveolar concentration of sevofoirane in horses [ML Rezende et al], 446
Comparison of the cardiovascular effects of equipotent anesthetic doses of sevoflurane alone and sevofoirane plus an intravenous infusion of lidocaine in horses [AE Wagner et al], 452
Effects of in vivo lidocaine administration at the time of ischemia and reperfusion on in vitro contractility of equine jejunal smooth muscle [M Guschlbauer et al], 1449
Evaluation of thoracic epidural analgesia induced by lidocaine, ketamine, or both administered via a lumbosacral approach in dogs [R DeRossi et al], 1580

Lignan Phytoestrogen
Effect of combined lignan phytoestrogen and melatonin treatment on secretion of steroid hormones by adrenal carcinoma cells [KA Fecteau et al], 675

Limbs
Symmetry of hind limb mechanics in orthopedically normal trotting Labrador Retrievers [GR Colborne et al], 336

Lipase
Specificity of a canine pancreas-specific lipase assay for diagnosing pancreatitis in dogs without clinical or histologic evidence of the disease [SC Neilson-Carley et al], 302

5-Lipoxygenase
5-Lipoxygenase expression and tepoxalin-induced cell death in squamous cell carcinomas in cats [JK Wakshlag et al], 1369

Liver
Ultrasoundographic characterization of the liver, caudal vena cava, portal vein, and gallbladder in goats [JU Carmona et al], 219

Llamas
Molecular, histologic, and trace mineral characterization of metacarpophalangeal and metatarsophalangeal joint hyperextension in juvenile llamas [SA Semevolos et al], 549
Pharmacokinetics of ponazuril after oral administration to healthy llamas (Lama glama), 1386

Lymphoma
Evaluation of perinuclear antineutrophilic cytoplasmic antibodies in sera from dogs with inflammatory bowel disease or intestinal lymphoma [C Mancho et al], 1333
Magnetic Resonance Angiography

Effect of combined ligan phytoestrogen and melatonin treatment on secretion of steroid hormones by adrenal carcinoma cells [KA Fecteau et al], 675

Methadone

Effect of sedation protocol on glomerular filtration rate in cats as determined by use of quantitative renal scintigraphy [MD Winter et al], 1222

Milk

Effects of powdered whole grapefruit and metoclopramide on the pharmacokinetics of cyclosporine in dogs [NE Radwanski et al], 687

Mexico

Characterization of the temporal and spatial distribution and reproductive ratio of vesicular stomatitis outbreaks in Mexico in 2008 [M Arroyo et al], 233

Microbiology

Comparison of results for commercially available microbiological media plates with results for standard bacteriologic testing of bovine milk [JA Wallace et al], 1622

Midazolam

Effect of sedation protocol on glomerular filtration rate in cats as determined by use of quantitative renal scintigraphy [MD Winter et al], 1222

Minimum Alveolar Concentration

Effects of intravenous administration of lidocaine on the minimum alveolar concentration of sevoflurane in horses [ML Rezende et al], 446

Minnesota

Characterization of the risk of deer-cattle interactions in Minnesota by use of an on-farm environmental assessment tool [BM Knust et al], 924
Effects of body position, imaging plane, and observer on computed Reliability of macroscopic grading of intervertebral disk degeneration in Evaluation of intervertebral disk degeneration in chondrodystrophic and Evaluation of subcutaneous and oral administration of robenacoxib and Musculoskeletal System Effect of growth on monocarboxylate transporters and indicators of Muscle Evaluation of the cyclooxygenase selectivity of robenacoxib and its effect Effect of twice-daily oral administration of hydrocortisone on the bile acids Mucocele Effect of growth on monocarboxylate transporters and indicators of energy metabolism in the gluteus medius muscle of Thoroughbreds [Y Kitaoka et al], 1107 Mononuclear Cells Evaluation of the in vitro effects of aqueous black walnut extract on equine mononuclear cells [DJ Hurley et al], 2011:72:318 Correction: 2011:72:511 Morphine Effects of acepromazine maleate or morphine on tear production before, during, and after sevoflurane anesthesia in dogs [MC Mouney et al], 1427 Moxifloxacin Tear, cornea, and aqueous humor concentrations of ciprofloxacin and moxifloxacin after topical ocular application in ophthalmologically normal horses [HD Westermeyer et al], 398 Mucocoele Effect of twice-daily oral administration of hydrocortisone on the bile acids composition of gallbladder bile in dogs [PH Kook et al], 1607 Mucosa Evaluation of the cyclooxygenase selectivity of robenacoxib and its effect on recovery of ischemia-injured jejunal mucosa in horses [JF Marshall et al], 226 Evaluation of the secretory response to endogenous and exogenous prostaglandins in mucosa from the proximal and distal portions of the colon of [M Omori et al], 404 Expression and subcellular localization of apical junction proteins in canine duodenal and colonic mucosa [H Ohta et al], 1046 Muscle Effect of growth on monocarboxylate transporters and indicators of energy metabolism in the gluteus medius muscle of Thoroughbreds [Y Kitaoka et al], 1107 Musculoskeletal System Evaluation of subcutaneous and oral administration of robenacoxib and meloxicam for the treatment of acute pain and inflammation associated with orthopedic surgery in dogs [P Gruet et al], 184 Effects of feeding a high-protein diet following an 18-hour period of feed withholding on mammalian target of rapamycin-dependent signaling in skeletal muscle of mature horses [KR Urschel et al], 248 Radiographic quantitative assessment of cranial tibial subluxation before and after tibial plateau leveling osteotomy in dogs [SE Kim et al], 410 Evaluation of intervertebral disk degeneration in chondrodystrophic and nonchondrodystrophic dogs by use of Pfirrmann grading of images obtained with low-field magnetic resonance imaging [N Bergknut et al], 893 Reliability of macroscopic grading of intervertebral disk degeneration in dogs by use of the Thompson system and comparison with low-field magnetic resonance imaging findings [N Bergknut et al], 899 Effects of body position, imaging plane, and observer on computed tomographic measurements of the lumbar sacral intervertebral foraminal area in dogs [BM Higgins et al], 905 Effect of growth on monocarboxylate transporters and indicators of energy metabolism in the gluteus medius muscle of Thoroughbreds [Y Kitaoka et al], 1107 Evaluation of the effect of computed tomography scan protocols and freeform fabrication methods on bone biomodel accuracy [KL Fitzwater et al], 1178 Comparison of cross-sectional anatomy and computed tomography of the tarsus in horses [EV Raes et al], 1209 Cartilage thickness of the trochlea of the talus, with emphasis on sites predisposed to osteochondrosis dissecans, in clinically normal juvenile and adult dogs [MM Brunnberg et al], 1318 Radiographic evaluation of changes in the proximal phalanx of Thoroughbreds in race training [F Beccati et al], 1482 Effect of pilot hole diameter and tapping on insertion torque and axial pullout strength of 4.0-mm cancellous bone screws [KAR Kunkel et al], 1660 Effects of sequential hole enlargement on cortical bone temperature during drilling of 6.2-mm-diameter transcortical holes in the third metacarpal bones of horse cadavers [TB Lessun et al], 1687 Mycobacterium spp Evaluation of the in vitro activity of gallium nitrate against Mycobacterium avium subsp paratuberculosis [M-E Fecteau et al], 1243 Evaluation of the risk of paratuberculosis in adult cows fed Mycobacterium avium subsp paratuberculosis DNA-positive or -negative colostrum as calves [P Pithua et al], 1456 N-acetyl-D-glucosamine Effects of oral administration of N-acetyl-D-glucosamine on plasma and urine concentrations of glycosaminoglycans in cats with idiopathic cystitis [J Panchaphanpong et al], 843 Nalbuphine Antinociceptive effects of nalbuphine hydrochloride in Hispaniolan Amazon parrots (Amazona ventralis) [D Sanchez-Migallon Guzman et al], 736 Pharmacokinetics of nalbuphine hydrochloride after intravenous and intramuscular administration to Hispaniolan Amazon parrots (Amazona ventralis) [DL Keller et al], 741 Natriuretic Peptide Evaluation of N-terminal pro-B-type natriuretic peptide as a diagnostic marker of various stages of cardiomyopathy in Doberman Pinschers [G Wess et al], 642 Nervous System Evaluation of an acute focal epidural mass model to characterize the intracranial pressure-volume relationship in healthy Beagles [RA Pack et al], 103 Evaluation of minimally invasive excisional brain biopsy and intracranial brachytherapy catheter placement in dogs [RA Packet et al], 109 Time-of-flight magnetic resonance angiography of the canine brain at 3.0 Tesla and 7.0 Tesla [P Martin-Vaquero et al], 350 Effects of syringomyelia on electrodiagnostic test results in Cavalier King Charles Spaniels [TR Harcourt-Brown et al], 596 Inheritance of cerebellar abiotrophy in Arabians [LS Brautl et al], 940 Radiographic vertebral canal and vertebral body ratios in Doberman Pinschers with and without clinical signs of caudal cervical spondyloymelopathy [S De Decker et al], 958 Evaluation of transposition of autologous bone marrow stromal cells into the cerebrospinal fluid for treatment of chronic spinal cord injury in dogs [H Nishida et al], 1118 Magnetic resonance imaging vertebral canal and body ratios in Doberman Pinschers with and without disk-associated cervical spondyloymelopathy and clinically normal English Foxhounds [S De Decker et al], 1496 Neurokinin 1 Effect of maropitant, a neurokinin 1 receptor antagonist, on anesthetic requirements during noxious visceral stimulation of the ovary in dogs [P Boscain et al], 1576 Neurology Investigation of the use of three electroencephalographic electrodes for long-term electroencephalographic recording in awake and sedated dogs [FMK James et al], 384 Evaluation of the electroencephalogram in young cats [MJ Lewis et al], 391
Neutrophils
Evaluation of perinuclear antineutrophilic cytoplasmic antibodies in sera from dogs with inflammatory bowel disease or intestinal lymphoma [CM Mancho et al], 1333

Nonsteroidal Anti-inflammatory Drugs (NSAIDs)
Evaluation of subcutaneous and oral administration of robenacoxib and meloxicam for the treatment of acute pain and inflammation associated with orthopedic surgery in dogs [P Gruet et al], 184

In vitro effect of carprofen and meloxicam on the conductance and permeability to mannitol and the histologic appearance of the gastric mucosa of dogs [MA Hicks et al], 569

Effects of long-term administration of carprofen on healing of a tibial osteotomy in dogs [H Ochi et al], 634

Nutrition
Assessment of five ELISAs for measurement of leptin concentrations in dogs [A Tvarijonaviciute et al], 169

Evaluation of the cyclooxygenase selectivity of robenacoxib and its effect on recovery of ischemia-injured jejunal mucosa in horses [JF Marshall et al], 226

Effects of feeding a high-protein diet following an 18-hour period of feed withholding on mammalian target of rapamycin-dependent signaling in skeletal muscle of mature horses [KR Urschel et al], 248

Nutritional analysis of gastric contents and body condition score at a single time point in feral horses [BA Hampson et al], 1226

Osteoarthritis
Evaluation of in vitro growth factor treatments on fibrochondrogenesis by synovial membrane cells from osteoarthritic and nonosteoarthritic joints of dogs [JJ Warnock et al], 500

Evaluation of a fibrillin 2 gene haplotype associated with hip dysplasia and incipient osteoarthritis in dogs [SG Friedenberg et al], 529

Reliability and validity of a visual analogue scale used by owners to measure chronic pain attributable to osteoarthritis in their dogs [AK Hielm-Bjorkman et al], 601

Effects of extracorporeal shock wave therapy and polysulfated glycosaminoglycan treatment on subchondral bone, serum biomarkers, and synovial fluid biomarkers in horses with induced osteoarthritis [CE Kawcak et al], 772

Osteochondrosis Disseccans
Cartilage thickness of the trochlea of the talus, with emphasis on sites predisposed to osteochondrosis disseccans, in clinically normal juvenile and adult dogs [MM Brunnberg et al], 1318

Osteotomy
Radiographic quantitative assessment of cranial tibial subluxation before and after tibial plateau leveling osteotomy in dogs [SE Kim et al], 410

Otoacoustic Emissions
Evaluation of otoacoustic emissions in clinically normal alert puppies [B Schemera et al], 295

Ovalbumin
Assessment of IgE response and cytokine gene expression in pulmonary efferent lymph collected after ovalbumin inhalation during experimental infection of calves with bovine respiratory syncytial virus [LJ Gershwin et al], 134

Ovaries
Refinement and initial validation of a multidimensional composite scale for use in assessing acute postoperative pain in cats [JT Brondani et al], 174

Comparison of the efficacy and adverse effects of sustained-release buprenorphine hydrochloride following subcutaneous administration and buprenorphine hydrochloride following oral transmucosal administration in cats undergoing ovariohysterectomy [DL Catbagan et al], 461

Effect of maropitant, a neurokinin 1 receptor antagonist, on anesthetic effects and initial validation of a multidimensional composite scale for use in assessing acute postoperative pain in cats [JT Brondani et al], 174
Comparison of the efficacy and adverse effects of sustained-release buprenorphine hydrochloride following subcutaneous administration and buprenorphine hydrochloride following oral transmucosal administration in cats undergoing ovariohysterectomy [DL Catbagan et al], 461

Oxygen
Evaluation of the ability of aqueous black walnut extracts to induce the production of reactive oxygen species [DJ Hurley et al], 308
Effects of hyperbaric oxygen treatment on horses with experimentally induced endotoxia [CA Baumwart et al], 1266

Oxycetacryncline
Effects of two simulated oxytetracyline dosing regimens on horizontal transfer of antimicrobial resistance plasmids in an in vitro pharmacodynamic model [BV Lubbers et al], 877

Pads
Effects of industrial polystyrene foam insulation pads on the center of pressure and load distribution in the forefeet of clinically normal horses [JA Schleining et al], 628

Pain
Refinement and initial validation of a multidimensional composite scale for use in assessing acute postoperative pain in cats [JT Brondani et al], 174
Evaluation of subcutaneous and oral administration of robenacoxib and meloxicam for the treatment of acute pain and inflammation associated with orthopedic surgery in dogs [P Gruet et al], 184
Pharmacokinetics and antinociceptive effects of oral tramadol hydrochloride administration in Greyhounds [B KuKanich et al], 256
Reliability and validity of a visual analogue scale used by owners to measure chronic pain attributable to osteoarthritis in their dogs [AK Hielm-Björkman et al], 601
Effect of perzinfotel and a proprietary phospholipase A2 inhibitor on kinetic gait and subjective lameness scores in dogs with sodium urate-induced synovitis [SC Buddberg et al], 757
Plasma concentrations and behavioral, antinociceptive, and physiologic effects of methadone after intravenous and oral transmucosal administration in cats [TH Ferreira et al], 764
Pharmacokinetics and physiologic effects of intramuscularly administered xylazine hydrochloride-ketamine hydrochloride-butorphanol tartrate alone or in combination with orally administered sodium salicylate on biomarkers of pain in Holstein calves following castration and dehorning [SL Baldridge et al], 1305
Effect of flunixin meglumine on the amelioration of lameness in dairy steers with amphotericin B-induced transient synovitis-arthritis [KL Schulz et al], 1431

Pancreatitis
Specificity of a canine pancreas-specific lipase assay for diagnosing pancreatitis in dogs without clinical or histologic evidence of the disease [SC Neilson-Carley et al], 302

Parasitology
Plasma disposition, concentration in the hair, and anthelmintic efficacy of eprinomectin after topical administration in donkeys [GC Gokbulut et al], 1386

Paratuberculosis
Evaluation of the risk of paratuberculosis in adult cows fed Mycobacterium avium subsp paratuberculosis DNA-positive or -negative colostrum as calves [P Pithua et al], 1456

Parrots
Estimation of intrathoracic arterial diameter by means of computed tomographic angiography in Hispaniolan Amazon parrots [H Beaufrère et al], 210
Antinociceptive effects of nalbuphine hydrochloride in Hispaniolan Amazon parrots (Amazona ventralis) [D Sanchez-Migallon Guzman et al], 736
Pharmacokinetics of nalbuphine hydrochloride after intravenous and intramuscular administration to Hispanicam Amazon parrots (Amazona ventralis) [DL Keller et al], 741

Pathology
Specificity of a canine pancreas-specific lipase assay for diagnosing pancreatitis in dogs without clinical or histologic evidence of the disease [SC Neilson-Carley et al], 302

Patlak
Evaluation of glomerular filtration rate by use of dynamic computed tomography and Patlak analysis in clinically normal cats [J Chang et al], 1276

Peritoneal Fluid
Intra-abdominal hyaluronan concentration in peritoneal fluid of horses with sudden signs of severe abdominal pain [JD Lillich et al], 1666

Perzinfotel
Effect of perzinfotel and a proprietary phospholipase A2 inhibitor on kinetic gait and subjective lameness scores in dogs with sodium urate-induced synovitis [SC Buddberg et al], 757

Pfiffmann Grading
Evaluation of intervertebral disk degeneration in chondrodystrophic and nonchondrodystrophic dogs by use of Pfiffmann grading of images obtained with low-field magnetic resonance imaging [N Bergknut et al], 893

Phalanx
Radiographic evaluation of changes in the proximal phalanx of Thoroughbreds in race training [F Beccati et al], 1482

Pharmacokinetics
Pharmacokinetics and bioavailability of cefquinome in healthy ducks [LY Yuan et al], 122
Pharmacokinetics and antinociceptive effects of oral tramadol hydrochloride administration in Greyhounds [B KuKanich et al], 256
Evaluation of an extractionless high-performance liquid chromatography-tandem mass spectrometry method for detection and quantitation of rosiglitazone in canine plasma [SA Frazier et al], 263
Effects of powdered whole grapefruit and metoclopramide on the pharmacokinetics of cyclosporine in dogs [NE Radwanski et al], 687
Pharmacokinetics of nalbuphine hydrochloride after intravenous and intramuscular administration to Hispanicam Amazon parrots (Amazona ventralis) [DL Keller et al], 741
Pharmacokinetics of tramadol and metabolites O-desmethyltramadol and N-desmethyltramadol and N-desmethyltramadol in adult horses [AJ Stewart et al], 967
Pharmacokinetics of anti-articular, intravenous, and intramuscular administration of triamcinolone acetonide and its effect on endogenous plasma hydrocortisone and cortisone concentrations in horses [LR Soma et al], 1234
Pharmacokinetics of levetracetam after oral and intravenous administration of a single dose to clinically normal cats [MB Carnes et al], 1247
Pharmacokinetics and physiologic effects of intramuscularly administered xylazine hydrochloride-ketamine hydrochloride-butorphanol tartrate alone or in combination with orally administered sodium salicylate on biomarkers of pain in Holstein calves following castration and dehorning [SL Baldridge et al], 1305
Pharmacokinetics and pharmacodynamics of detomidine following sublingual administration to horses [HKD Knych et al], 1378
Pharmacokinetics of ponazuril after oral administration to healthy llamas (Lama glama), 1386
Pharmacokinetics of long-acting ceftiofur crystalline-free acid in helmeted guineafowl (Numida meleagris) after a single intramuscular injection [KB Wojcick et al], 1514

Pharmacology
Pharmacokinetics and antinociceptive effects of oral tramadol hydrochloride administration in Greyhounds [B KuKanich et al], 256
Evaluation of an extractionless high-performance liquid chromatography-tandem mass spectrometry method for detection and quantitation of rosiglitazone in canine plasma [SA Frazier et al], 263
Disposition of gamithromycin in plasma, pulmonary epithelial lining fluid, bronchoalveolar cells, and lung tissue in cattle [S Giguère et al], 326
Pharmacokinetics of tramadol and metabolites O-desmethyltramadol and N-desmethyltramadol in adult horses [AJ Stewart et al], 967
Inhibition of cytochrome P450 enzymes involved in ketamine metabolism by use of liver microsomes and specific cytochrome P450 enzymes from horses, dogs, and humans [LD Mössner et al], 1505
Phospholipase $A_2$
Effect of perzinfotel and a proprietary phospholipase A2 inhibitor on kinetic...
gait and subjective lameness scores in dogs with sodium urate-induced synovitis [SC Budsberg et al], 757

**Physiology**

Effects of preparation method, shear force, and exposure to collagen on release growth factors from equine platelet-rich plasma [JA Textor et al], 2011;72:271

Letter: Questions statistical power of study on release of growth factors from platelet-rich plasma [JU Carmona et al], 2011;72:998

Response [JA Textor et al], 2011;72:999

Evaluation of the secretary response to endogenous and exogenous prostaglandins in mucosa from the proximal and distal portions of the colon of dogs [M Omori et al], 404

Effect of growth on monocarboxylate transporters and indicators of energy metabolism in the gluteus medius muscle of Thoroughbreds [Y Kitaoka et al], 1107

Effect of omega-3 fatty acids on serum concentrations of adipokines in healthy cats [M Mazaki-Tovi et al], 1259

Effects of hyperbaric oxygen treatment on horses with experimentally induced endotoxemia [CA Baumwart et al], 1256

Determination of body water compartments in neonatal foals by use of indicator dilution techniques and multifrequency bioelectrical impedance analysis [CL Fielding et al], 1390

Selected cardiopulmonary values and baroreceptor reflex in conscious green iguanas (Iguana iguana) [SM Hernandez et al], 1519

Evaluation of a modified acetaminophen absorption test to estimate the abomasal emptying rate in Holstein-Friesian heifers [AEHnsi-Kheradgerdi et al], 1600

Glomerular filtration rate estimation by use of a correction formula for slope-intercept plasma iohexol clearance in cats [NC Finch et al], 1652

**Pimobendan**

Effects of furosemide and the labeled dosage of pimobendan on the circulating renin-angiotensin-aldosterone system in clinically normal dogs [AC Lantis et al], 1646

**Plants**

Evaluation of the in vitro effects of aqueous black walnut extract on equine mononuclear cells [DJ Hurley et al], 2011;72:318

Correction: 2011;72:511

Evaluation of the ability of aqueous black walnut extracts to induce the production of reactive oxygen species [DJ Hurley et al], 308

Comparison of the toxic effects of two duncecap larkspur (Delphinium occidentale) chemotypes in mice and cattle [D Cook et al], 706

**Plasma**

Effects of preparation method, shear force, and exposure to collagen on release growth factors from equine platelet-rich plasma [JA Textor et al], 2011;72:271

Letter: Questions statistical power of study on release of growth factors from platelet-rich plasma [JU Carmona et al], 2011;72:998

Response [JA Textor et al], 2011;72:999

**Platelets**

Influence of blood collection technique on platelet function and coagulation variables in dogs [NB Bauer et al], 64

Evaluation of the use of an autologous platelet-rich fibrin membrane to enhance tendon healing in dogs [LC Visser et al], 699

Development of a flow cytometric assay for detection of coated platelets in dogs and evaluation of binding of coated platelets to recombinant human coagulation factor Vila [T Knudsen et al], 1007

**Plates**

In vitro comparison of stiffness of plate fixation of radii from large- and small-breed dogs [CM Gauthier et al], 1112

Biomechanical comparison after in vitro laminar vertebral stabilization and vertebral body plating of the first and second lumbar vertebrae in specimens obtained from canine cadavers [SC Knell et al], 1681

**Pneumonia**

Evaluation of the efficacy of gallium maltolate for chemophrophylaxis against pneumonia caused by Rhodococcus equi infection in foals [MK Chaffin et al], 945

Impact of isoflupredone acetate treatment on clinical signs and weight gain in weanling heifers with experimentally induced Mannheimia haemolytica bronchopneumonia [J Hewson et al], 1613

**Ponazuril**

Pharmacokinetics of ponazuril after oral administration to healthy llamas (Lama glama), 1386

**Ponies**

Evaluation of a commercially available modified-live Streptococcus equi subsp equi vaccine in ponies [LB Borst et al], 1130

**Prednisone**

Independent and combined effects of prednisone and acetylsalicylic acid on thromboelastography variables in healthy dogs [SK Flint et al], 1325

**Pregnancy**

Evaluation of the effects of pregnancy on insulin sensitivity, insulin secretion, and glucose dynamics in Thoroughbred mares [LA George et al], 666

**Propofol**

Evaluation of the effects of thiopental, propofol, and etomidate on glomerular filtration rate measured by the use of dynamic computed tomography in dogs [J Chang et al], 146

Anesthetic induction with guaifenesin and propofol in adult horses [RJ Brosnan et al], 1569

**Prostaglandins**

Effects of preparation method, shear force, and exposure to collagen on release growth factors from equine platelet-rich plasma [JA Textor et al], 2011;72:271

Letter: Questions statistical power of study on release of growth factors from platelet-rich plasma [JU Carmona et al], 2011;72:998

Response [JA Textor et al], 2011;72:999

Modulation of cytokine-induced prostaglandin E2 production in cultures of articular chondrocytes obtained from carpal joints of camels (Camelus dromedarius) [CG Frondoza et al], 51

Evaluation of the secretary response to endogenous and exogenous prostaglandins in mucosa from the proximal and distal portions of the colon of dogs [M Omori et al], 404

**Proteins**

Evaluation of changes in haptoglobin and C-reactive protein concentrations caused by freezing of saliva and meat juice samples collected from healthy and diseased pigs [AM Gutierrez et al], 11

Expression and subcellular localization of apical junction proteins in canine duodenal and colonic mucosa [H Ohta et al], 1046

**Pseudomonas aeruginosa**

Isolation and characterization of two bacteriophages with strong in vitro antimicrobial activity against Pseudomonas aeruginosa isolated from dogs with ocular infections [TMA Santos et al], 1079

**Pythons**

Evaluation of the histologic reactions to commonly used suture materials in the skin and musculature of ball pythons (Python regius) [MS McFadden et al], 1397

**Racing**

Radiographic evaluation of changes in the proximal phalanx of Thoroughbreds in race training [F Beccati et al], 1482

**Radiology**

Radiographic vertebral canal and vertebral body ratios in Doberman Pinschers with and without clinical signs of caudal cervical spondylomyelopathy (S De Decker et al), 958

Radiographic appearance of the thorax of clinically normal alpaca crias [NC Nelson et al], 1439

Radiographic evaluation of changes in the proximal phalanx of Thoroughbreds in race training [F Beccati et al], 1482

Evaluation of radiographic, computed tomographic, and cadaveric anatomy of the head of boa constrictors [T Banzato et al], 1592

**Radius**

In vitro comparison of stiffness of plate fixation of radii from large- and small-breed dogs [CM Gauthier et al], 1112
Recurrent Airway Obstruction
Evaluation of variations in bronchoalveolar lavage fluid in horses with recurrent airway obstruction [D Jean et al], 838

Refeeding
Effects of feeding a high-protein diet following an 18-hour period of feed withholding on mamalian target of rapamycin-dependent signaling in skeletal muscle of mature horses [KR Urschel et al], 248

Renin-Angiotensin-Aldosterone
Effects of furosemide and the labeled dosage of pimobendan on the circulating renin-angiotensin-aldosterone system in clinically normal dogs [AG Lantis et al], 1646

Reperfusion
Expression of cyclooxygenase genes in the jejunum of horses during low-flow ischemia and reperfusion [H Hilton et al], 681
In vitro and in vivo responses of mucosa from the large colon of horses to ischemia and reperfusion [AS Graham et al], 982

Respiratory System
Disposition of gamithromycin in plasma, pulmonary epithelial lining fluid, bronchoalveolar cells, and lung tissue in cattle [S Gigueré et al], 326
Comparison of results for weight-adjusted and fixed-amount bronchoalveolar lavage techniques in healthy Beagles [MA Melamies et al], 694
Development and validation of a sandwich ELISA for use in measuring concentrations of canine surfactant protein A in serum of dogs [K Sone et al], 833
Evaluation of variations in bronchoalveolar lavage fluid in horses with recurrent airway obstruction [D Jean et al], 838
Evaluation of infectivity of a canine lineage H3N8 influenza A virus in ponies and in primary equine respiratory epithelial cells [AM Quintana et al], 1071
Impact of isoflurane and acetate treatment on clinical signs and weight gain in weanling foals with experimentally induced Mannheimia haemolytica bronchopneumonia [J Hewson et al], 1613

Retinoic Acid
Chondrogenic effects of exogenous retinoic acid or a retinoic acid receptor antagonist (LE135) on equine chondrocytes and bone marrow-derived mesenchymal stem cells in monolayer culture [SE Henderson et al], 884

Rhodoviridae
Characterization of the temporal and spatial distribution and reproductive ratio of vesicular stomatitis outbreaks in Mexico in 2008 [M Arroyo et al], 233

Rhodococcus spp
Effects of location for collection of air samples on a farm and time of day of sample collection on airborne concentrations of virulent Rhodococcus equi at two horse breeding farms [KR Kuskie et al], 73
Evaluation of the efficacy of gallium maltolate for chemoprophylaxis against pneumonia caused by Rhodococcus equi infection in foals [MK Chaffin et al], 945
Effects of oposazolization of Rhodococcus equi on bacterial viability and phagocyte activation [DR Dawson et al], 1465

Risk Analysis
Characterization of the risk of deer-cattle interactions in Minnesota by use of an on-farm environmental assessment tool [BM Knust et al], 924
Evaluation of the risk of paratuberculosis in adult cows fed Mycobacterium avium subsp paratuberculosis DNA-positive or -negative colostrum as calves [P Pithua et al], 1456

RNA
Evaluation of the ability of two transfection reagents to deliver small interfering RNA molecules to equine and guinea pig cartilage in vitro [SS Dougherty et al], 813

Robenacoxib
Evaluation of subcutaneous and oral administration of robenacoxib and meloxicam for the treatment of acute pain and inflammation associated with orthopedic surgery in dogs [P Gruet et al], 184
Evaluation of the cyclooxygenase selectivity of robenacoxib and its effect on recovery of ischemia-injured jejunal mucosa in horses [JF Marshall et al], 226

Rosiglitazone
Evaluation of an extractionless high-performance liquid chromatography-tandem mass spectrometry method for detection and quantitation of rosiglitazone in canine plasma [SA Frazier et al], 263

S
Salmonella spp
Evaluation of the effects of a commercially available Salmonella Newport siderophore receptor and porin protein vaccine on fecal shedding of Salmonella bacteria and health and performance of feedlot cattle [CC Dodd et al], 239

Scintigraphy
Effect of sedation protocol on glomerular filtration rate in cats as determined by use of quantitative renal scintigraphy [MD Winter et al], 1222

Screws
Effect of pilot hole diameter and tapping on insertion torque and axial pullout strength of 4.0-mm cancellous bone screws [KAR Kunkel et al], 1660
Angle of insertion and confirmation of angles measured after in vitro implantation during laminar vertebral stabilization in vertebral columns obtained from canine cadavers [SC Knell et al], 1674

Serology
Shedding of chlamydiae in relation to titers of serum chlamydiae-specific antibodies and serum concentrations of two acute-phase proteins in cats without conjunctivitis [B Ström Holst et al], 806

Sevoflurane
Effects of intravenous administration of lidocaine on the minimum alveolar concentration of sevoflurane in horses [ML Rezende et al], 446
Comparison of the cardiovascular effects of equipotent anesthetic doses of sevoflurane alone and sevoflurane plus an intravenous infusion of lidocaine in horses [AE Wagner et al], 452
Accuracy of isoflurane, halothane, and sevoflurane vaporizers during high oxygen flow and at maximum vaporizer dial setting [TD Ambriko et al], 751
Effects of acepromazine maleate or morphine on tear production before, during, and after sevoflurane anesthesia in dogs [MC Mouney et al], 1427
Effect of maropitant, a neurokinin 1 receptor antagonist, on anesthetic requirements duringnoxious visceral stimulation of the ovary in dogs [P Boscan et al], 1576

Shock
Assessment of microcirculatory changes by use of sidestream dark field microscopy during hemorrhagic shock in dogs [AM Peruski et al], 438

Smooth Muscle
Effects of in vivo lidocaine administration at the time of ischemia and reperfusion on in vitro contractility of equine jejunal smooth muscle [M Guschlbauer et al], 1449

Snakes
Evaluation of the histologic reactions to commonly used suture materials in the skin and musculature of ball pythons (Python regius) [MS McFadden et al], 1397
Evaluation of radiographic, computed tomographic, and cadaveric anatomy of the head of boa constrictors [T Banzato et al], 1592

Sodium Salicylate
Pharmacokinetics and physiologic effects of intramuscularly administered xylazine hydrochloride-ketamine hydrochloride-butorphanol tartrate alone or in combination with orally administered sodium salicylate on biomarkers of pain in Holstein calves following castration and dehorning [SL Baldridge et al], 1305

Spinal Cord
Evaluation of translation of autologous bone marrow stromal cells into the cerebrospinal fluid for treatment of chronic spinal cord injury in dogs [H Nishida et al], 1118
Magnetic resonance imaging vertebral canal and body ratios in Doberman Punschers with and without disk-associated cervical spondylomyelopathy and clinically normal English Foxhounds [S De Decker et al], 1496
Spondylomyelopathy
Radiographic vertebral canal and vertebral body ratios in Doberman Pinschers with and without clinical signs of caudal cervical spondylomyelopathy [S De Decker et al], 958
Magnetic resonance imaging vertebral canal and body ratios in Doberman Pinschers with and without disk-associated cervical spondylomyelopathy and clinically normal English Foxhounds [S De Decker et al], 1496

Squamous Cell Carcinoma
5-Lipoxxygenase expression and teoxalin-induced cell death in squamous cell carcinomas in cats [JK Wakshlag et al], 1369

Standardbreds
Changes in hoof surface strain distribution in response to moderate exercise in Standardbreds [B Faramarzi et al], 484

Staphylococcus spp
Genotypic relatedness and phenotypic characterization of Staphylococcus schleiferi subspecies in clinical samples from dogs [CL Cain et al], 96
Enterotoxin production, enterotoxin gene distribution, and genetic diversity of Staphylococcus aureus recovered from milk of cows with subclinical mastitis [L Oliveira et al], 1361
Comparison of results for commercially available microbiological media plates with results for standard bacteriologic testing of bovine milk [JA Wallace et al], 1622

Statement of Ownership, Management, and Circulation
1553

Statistics
Characterization of the temporal and spatial distribution and reproductive ratio of vesicular stomatitis outbreaks in Mexico in 2008 [M Arroyo et al], 233
Evaluation of the effects of a commercially available Salmonella Newport siderophore receptor and porin protein vaccine on fecal shedding of Salmonella bacteria and health and performance of feedlot cattle [CC Dodd et al], 239

Stay Apparatus
Effect of differences in tendons properties on functionality of the passive stay apparatus in horses [SWS Gussekloo et al], 474

Stem Cells
Hyaluronic acid and chondrogenesis of murine bone marrow mesenchymal stem cells in chitosan sponges [Z Schwartz et al], 42
Evaluation of equine peripheral blood apheresis product, bone marrow, and adipose tissue as sources of mesenchymal stem cells and their differentiation potential [BJ Ahern et al], 127
Chondrogenic effects of exogenous retinoic acid or a retinoic acid receptor antagonist (LE135) on equine chondrocytes and bone marrow-derived mesenchymal stem cells in monolayer culture [SE Henderson et al], 894

Stifle Joint
Computed tomographic anatomy of the equine stifle joint [E Van der Vekens et al], 512

Stomach
In vitro effect of carprofen and meloxicam on the conductance and permeability to mannitol and the histologic appearance of the gastric mucosa of dogs [MA Hicks et al], 569

Streptococcus spp
Evaluation of a commercially available modified-live Streptococcus equi subspp equi vaccine in ponies [LB Borst et al], 1130

Stromal Cells
Evaluation of transplantation of autologous bone marrow stromal cells into the cerebrospinal fluid for treatment of chronic spinal cord injury in dogs [H Nishida et al], 1118

Surface Strain
Changes in hoof surface strain distribution in response to moderate exercise in Standardbreds [B Faramarzi et al], 484

Surfactant
Development and validation of a sandwich ELISA for use in measuring concentrations of canine surfactant protein A in serum of dogs [K Sone et al], 833

Surgery
Evaluation of minimally invasive excisional brain biopsy and intracranial brachytherapy catheter placement in dogs [RA Packet et al], 109
Refinement and initial validation of a multidimensional composite scale for use in assessing acute postoperative pain in cats [JT Brondani et al], 174
Evaluation of subcutaneous and oral administration of robenacoxib and meloxicam for the treatment of acute pain and inflammation associated with orthopedic surgery in dogs [P Gruet et al], 184
Evaluation of the histologic reactions to commonly used suture materials in the skin and musculature of ball pythons (Python regius) [MS McFadden et al], 1397
Feasibility of percutaneous catheterization and embolization of the thoracic duct in dogs [A Singh et al], 1527
Comparison of plasma and peritoneal indices of fibroinolysis between foals and adult horses with and without colic [AE Watts et al], 1535

Surveillance
Evaluation of the histologic reactions to commonly used suture materials in the skin and musculature of ball pythons (Python regius) [MS McFadden et al], 1397

Symmetry
Symmetry of hind limb mechanics in orthopedically normal trotting Labrador Retrievers [GR Colborne et al], 336

Synovial Membrane
Evaluation of in vitro growth factor treatments on fibrochondrogenesis by synovial membrane cells from osteoarthritic and nonosteoarthritic joints of dogs [JJ Warnock et al], 500

Synovitis
Effect of perzentifotol and a proprietary phospholipase A2 inhibitor on kinetic gait and subjective lameness scores in dogs with sodium urate-induced synovitis [SC Budsberg et al], 757
Effect of flunixin meglumine on the amelioration of lameness in dairy steers with amphotericin B-induced transient synovitis-arthritis [KL Schulz et al], 1431

Syringomyelia
Effects of syringomyelia on electrodiagnostic test results in Cavalier King Charles Spaniels [TR Harcourt-Brown et al], 595

Talus
Cartilage thickness of the trochlea of the talus, with emphasis on sites predisposed to osteochondrosis dissecans, in clinically normal juvenile and adult dogs [MM Brunnberg et al], 1318

Tarsal Joint
Histopathologic features of distal tarsal joint cartilage and subchondral bone in ridden and pasture-exercised horses [CA Tranquille et al], 2533

Tarsus
Comparison of cross-sectional anatomy and computed tomography of the tarsus in horses [EV Raes et al], 1209

Tears
Effect of duration and type of anesthetic on tear production in dogs [MK Shepard et al], 608
Effects of acepromazine maleate or morphine on tear production before, during, and after sevoflurane anesthesia in dogs [MC Mouney et al], 1427

Telemetry
Evaluation of oscillometric and vascular access port arterial blood pressure measurement techniques versus implanted telemetry in anesthetized cats [RJ Zwijnenberg et al], 1015
Temperature
Effects of sequential hole enlargement on cortical bone temperature during drilling of 6.2-mm-diameter transcortical holes in the third metacarpal bones of horse cadavers [TB Lescun et al], 1687

Temporomandibular Joint
Comparison of the response to experimentally induced short-term inflammation in the temporomandibular and metacarpophalangeal joints of horses [JL Carmalt et al], 1586

Tendons
Effect of differences in tendon properties on functionality of the passive stay apparatus in horses [SWS Gussekloo et al], 474
Evaluation of the use of an autologous platelet-rich fibrin membrane to enhance tendon healing in dogs [LC Visser et al], 699
Evaluation of experimentally induced injury to the superficial digital flexor tendon in horses by use of low-field magnetic resonance imaging and ultrasonography [WM Karlin et al], 791

Tepoxalin
5-Lipoxygenase expression and tepoxalin-induced cell death in squamous cell carcinomas in cats [JK Wakshlag et al], 1369

Thiopental
Evaluation of the effects of thiopental, propofol, and etomidate on 5-Lipoxygenase expression and tepoxalin-induced cell death in Tepoxalin [WM Karlin et al], 791

Thompson System
Reliability of macroscopic grading of intervertebral disk degeneration in dogs by use of the Thompson system and comparison with low-field magnetic resonance imaging findings [N Bergknut et al], 899

Thoracic Duct
Feasibility of percutaneous catheterization and embolization of the thoracic duct in dogs [A Chang et al], 146

Thorax
Radiographic appearance of the thorax of clinically normal alpaca crias [NC Nelson et al], 1439

Thoroughbreds
Evaluation of the effects of pregnancy on insulin sensitivity, insulin secretion, and glucose dynamics in Thoroughbred mares [LA George et al], 666
Sole depth and weight-bearing characteristics of the palmar surface of the feet of feral horses and domestic Thoroughbreds [BA Hampson et al], 727
Effect of growth on monocarboxylate transporters and indicators of energy metabolism in the gluteus medius muscle of Thoroughbreds [Y Kitaoka et al], 1107
Radiographic evaluation of changes in the proximal phalanx of Thoroughbreds in race training [F Beccati et al], 1482

Thromboelastography
Independent and combined effects of prednisone and acetylsalicylic acid on thromboelastography variables in healthy dogs [SK Flint et al], 1325

Thromboxane
Evaluation of effects of low-dose aspirin administration on urinary thromboxane metabolites in healthy dogs [CM Hoh et al], 1038

Tibia
Radiographic quantitative assessment of cranial tibial subluxation before and after tibial plateau leveling osteotomy in dogs [SE Kim et al], 410

Tibial Plateau
Radiographic quantitative assessment of cranial tibial subluxation before and after tibial plateau leveling osteotomy in dogs [SE Kim et al], 410

Tissue Factor
Evaluation of tissue factor expression in canine tumor cells [T Stokol et al], 1097

Tomography
Evaluation of radiographic, computed tomographic, and cadaveric anatomy of the head of boa constrictors [T Banzato et al], 1592

Tourniquets
Comparison of two tourniquets and determination of amikacin sulfate concentrations after metacarpophalangeal joint lavage performed simultaneously with intravenous regional limb perfusion in horses [SB Alkabes et al], 613

Toxicology
Evaluation of the in vitro effects of aqueous black walnut extract on equine mononuclear cells [DJ Hurley et al], 2011;72:318
Correction: 2011;72:511
Evaluation of the ability of aqueous black walnut extract to induce the production of reactive oxygen species [DJ Hurley et al], 308
Comparison of the toxic effects of two duncecap larkspur (Delphinium occidentale) chemotypes in mice and cattle [D Cook et al], 706

Tramadol
Pharmacokinetics and antinociceptive effects of oral tramadol hydrochloride administration in Greyhounds [K KuKanich et al], 256
Pharmacokinetics of tramadol and metabolites O-desmethyltramadol and N-desmethy tramadol in adult horses [AJ Stewart et al], 967

Transfection
Evaluation of the ability of two transfection reagents to deliver small interfering RNA molecules to equine and guinea pig cartilage in vitro [SS Dougherty et al], 813

Transplantation
Effect of cyclosporine, dexamethasone, and human CTLA4-Ig on production of cytokines in lymphocytes of clinically normal cats and cats undergoing renal transplantation [LR Aronson et al], 540
Perfusion method for harvesting bone marrow cells from dogs [M Sato et al], 1344

Triamcinolone
Pharmacokinetics of intra-articular, intravenous, and intramuscular administration of triamcinolone acetonide and its effect on endogenous plasma hydrocortisone and cortisol concentrations in horses [LR Soma et al], 1234

Triglycerides
Use of a meal challenge test to estimate peak postprandial triglyceride concentrations in dogs [KF Elliott et al], 161

Trilostane
Determination of the concentrations of trilostane and ketotrilostane that inhibit ex vivo canine adrenal gland synthesis of cortisol, corticosterone, and aldosterone [AL McGraw et al], 661

Trot
Evaluation of biomechanical effects of four stimulation devices placed on the hind feet of trotting horses [HM Clayton et al], 1489

Tumors
Expression of matrix metalloproteinase-2 and -9 and membrane-type 1 matrix metalloproteinase in melanocytic tumors of dogs and canine melanoma cell lines [M-J Docampo et al], 1087
Evaluation of tissue factor expression in canine tumor cells [T Stokol et al], 1097

Tyrosinase
Safety and efficacy of a xenogeneic DNA vaccine encoding for human tyrosinase as adjunctive treatment for oral malignant melanoma in dogs following surgical excision of the primary tumor [DA Grosenbaugh et al], 1631

U

Ulcers
In vitro effect of carprofen and meloxicam on the conductance and permeability to mannitol and the histologic appearance of the gastric mucosa of dogs [MA Hicks et al], 569
Use of data collected at cessation of lactation to predict incidence of sole ulcers and white line disease during the subsequent lactation in dairy cows [VS Machado et al], 1338

Ultrasonography
Ultrasonographic characterization of the liver, caudal vena cava, portal vein, and gallbladder in goats [U Braun et al], 219
Evaluation of experimentally induced injury to the superficial digital flexor tendon in horses by use of low-field magnetic resonance imaging and ultrasonography [WM Karlin et al], 791

Ultrasonographic evaluation of postprandial heart variation in juvenile Paraguay anacondas (Eunectes notaeus) [P Zerbe et al], 1253

Urinary System

Evaluation of the effects of thiopental, propofl, and etomidate on glomerular filtration rate measured by the use of dynamic computed tomography in dogs [J Chang et al], 146

Evaluation of triphasic helical computed tomography of the kidneys in clinically normal dogs [S Lee et al], 345

Urodynamic evaluation of female cats with idiopathic cystitis [CH Wu et al], 577

Effects of oral administration of N-acetyl-d-glucosamine on plasma and urine concentrations of glycosaminoglycans in cats with idiopathic cystitis [J Panchaphanpong et al], 843

Effect of sedation protocol on glomerular filtration rate in cats as determined by use of quantitative renal scintigraphy [MD Winter et al], 1222

Evaluation of glomerular filtration rate by use of dynamic computed tomography and Patlak analysis in clinically normal cats [NC Finch et al], 1652

Urodynamics

Urodynamic evaluation of female cats with idiopathic cystitis [CH Wu et al], 577

Urolithiasis

Comparison of urine protein profiles in cats without urinary tract disease and cats with idiopathic cystitis, bacterial urinary tract infection, or urolithiasis [SLK Lemberger et al], 1407

Effects of furosemide and the labeled dosage of pimobendan on the circulating renin-angiotensin-aldosterone system in clinically normal dogs [AC Lantis et al], 1646

Glomerular filtration rate estimation by use of a correction formula for slope-intercept plasma iohexol clearance in cats [NC Finch et al], 1652

Virology

Evaluation of the effects of a commercially available Salmonella Newport siderophage receptor and porin protein vaccine on fecal shedding of Salmonella bacteria and health and performance of feedlot cattle [CC Dodd et al], 239

Fetal protection in heifers vaccinated with a modified-live virus vaccine containing bovine viral diarrhea virus subtypes 1a and 2a and exposed during gestation to cattle persistently infected with bovine viral diarrhea virus subtype 1b [RD Leyh et al], 367

Comparison of two commercial ovine Campylobacter vaccines and an experimental bacterin in guinea pigs inoculated with Campylobacter jejuni [ER Burrough et al], 799

Effect of West Nile virus DNA-plasmid vaccination on response to live virus challenge in red-tailed hawks (Buteo jamaicensis) [PT Redig et al], 1065

Humoral immunity and injection-site reactions in cattle vaccinated with a multivalent clostralid vaccine administered via subcutaneous injection or via transdermal needle-free injection [AR Woolums et al], 1124

Evaluation of a commercially available modified-live Streptococcus equi subsp equi vaccine in ponies [LB Borst et al], 1130

Serologic response to Mannheimia haemolytica in calves concurrently inoculated with inactivated or modified-live preparations of M haemolytica and viral combination vaccines containing modified-live bovine herpesvirus type 1 [VS Cortese et al], 1541

Valves

Effects of transforming growth factor-β3 and matrix metalloproteinase-3 on the pathogenesis of chronic mitral valvular disease in dogs [K Obayashi et al], 194

Evaluation of plasma activity of matrix metalloproteinase-2 and -9 in dogs with myxomatous mitral valve disease [I Ljungvall et al], 1022

Anatomic, histologic, and two-dimensional-echocardiographic evaluation of mitral valve anatomy in dogs [M Borgarelli et al], 1186

Vapocoolant Spray

Effect of topical vapocoolant spray on response to arthrocentesis and intravenous catheterization in unsedated horses [CT Fjordbakk et al], 746

Vaporizers

Accuracy of isoflurane, halothane, and sevoflurane vaporizers during high oxygen flow and at maximum vaporizer dial setting [TD Ambrisko et al], 751

Vasodilation

Comparison of flow-mediated vasodilation in femoral and brachial arteries in healthy dogs [ID Jones et al], 1029

Vertebrae

Radiographic vertebral canal and vertebral body ratios in Doberman Pinschers with and without clinical signs of caudal cervical spondylomyelopathy [S De Decker et al], 958

Magnetic resonance imaging vertebral canal and body ratios in Doberman Pinschers with and without disk-associated cervical spondylomyelopathy and clinically normal English Foxhounds [S De Decker et al], 1496

Vertebral Column

Angle of insertion and confirmation of angles measured after in vitro implantation during laminar vertebral stabilization in vertebral columns obtained from canine cadavers [SC Knell et al], 1674

Biomechanical comparison after in vitro laminar vertebral stabilization and vertebral body plating of the first and second lumbar vertebrae in specimens obtained from canine cadavers [SC Knell et al], 1681

Vesicular Stomatitis

Characterization of the temporal and spatial distribution and reproductive ratio of vesicular stomatitis outbreaks in Mexico in 2008 [M Arroyo et al], 233

Vaccination

Evaluation of orally administered famciclovir in cats experimentally infected with feline herpesvirus type-1 [SM Thomasy et al], 85

Assessment of IgE response and cytokine gene expression in pulmonary effluent lymph collected after ovalbumin inhalation during experimental infection of calves with bovine respiratory syncytial virus [LJ Gershwin et al], 134

Fetal protection in heifers vaccinated with a modified-live virus vaccine containing bovine viral diarrhea virus subtypes 1a and 2a and exposed during gestation to cattle persistently infected with bovine viral diarrhea virus subtype 1b [RD Leyh et al], 367

Effect of infection with bovine leukemia virus on lymphocyte proliferation and apoptosis in dairy cattle [RJ Erskine et al], 1059

Effect of West Nile virus DNA-plasmid vaccination on response to live virus challenge in red-tailed hawks (Buteo jamaicensis) [PT Redig et al], 1065

Evaluation of infectivity of a canine lineage H3N8 influenza A virus in ponies and in primary equine respiratory epithelial cells [AM Quintana et al], 1071

Isolation and characterization of two bacteriophages with strong in vitro antimicrobial activity against Pseudomonas aeruginosa isolated from dogs with ocular infections [TMA Santos et al], 1079

Serologic response to Mannheimia haemolytica in calves concurrently inoculated with inactivated or modified-live preparations of M haemolytica and viral combination vaccines containing modified-live bovine herpesvirus type 1 [VS Cortese et al], 1541

Visual Analogue Scale

Reliability and validity of a visual analogue scale used by owners to measure chronic pain attributable to osteoarthritis in their dogs [AK Hielm-Björkman et al], 601

Walking

Comparison of temporospatial and kinetic variables of walking in small and large dogs on a pressure-sensing walkway [J Kim et al], 1171

Walnut

Evaluation of the in vitro effects of aqueous black walnut extract on equine mononuclear cells [DJ Hurley et al], 2011;72:318

Correction: 2011;72:511

Evaluation of the ability of aqueous black walnut extracts to induce the production of reactive oxygen species [DJ Hurley et al], 308
Water
Effect of water content in a canned food on voluntary food intake and body weight in cats [A Wei et al], 918
Determination of body water compartments in neonatal foals by use of indicator dilution techniques and multifrequency bioelectrical impedance analysis [CL Fielding et al], 1390

Weight
Effect of water content in a canned food on voluntary food intake and body weight in cats [A Wei et al], 918

West Nile Virus
Effect of West Nile virus DNA-plasmid vaccination on response to live virus challenge in red-tailed hawks (Buteo jamaicensis) [PT Redig et al], 1065

White Line Disease
Use of data collected at cessation of lactation to predict incidence of sole ulcers and white line disease during the subsequent lactation in dairy cows [VS Machado et al], 1338

Wolinella spp
Evaluation of the Helicobacteraceae in the oral cavity of dogs [M Craven et al], 1476

Xylazine
Pharmacokinetics and physiologic effects of intramuscularly administered xylazine hydrochloride-ketamine hydrochloride-butorphanol tartrate alone or in combination with orally administered sodium salicylate on biomarkers of pain in Holstein calves following castration and dehorning [SL Baldridge et al], 1305
