AVMA/AVMF 2nd Opportunity Summer Research Scholarship Program
Application Instructions

The AVMA/AVMF 2nd Opportunity Summer Research Scholarship is intended to provide support for students who have previously conducted a summer research project and are seeking to gain a second summer of research experience. Ideally, student applicants would be continuing their prior research project but that is not an absolute requirement. Students are expected to submit an abstract of their results for presentation at the Merial-NIH Veterinary Scholars Symposium. Nominations are limited to 1 (one) per school, and a maximum of 5 (five) total scholarships will be awarded for 2015.

Deadline for students to submit an application to their school: January 16, 2015

Selection Process & Timeline:
- Each school is to select and forward one applicant for consideration for this program by January 30, 2015.
- Applications should be e-mailed to Cheri Kowal, Manager of Programs and Impact, American Veterinary Medical Foundation, ckowal@avma.org (847-285-6691)
- Applications will be considered and ranked by the members of the AVMA Council on Research, and applicants will be notified of acceptance by February 28, 2015.

Awards: $5,000 research scholarship plus $1,000 to supplement travel expenses to the Merial-NIH symposium
Applicants must submit the following as a single PDF document:

1. Completed AVMA/AVMF 2nd Opportunity Summer Research Scholarship Program Application Form (next page)

2. Project Description
   The Description must be limited to 2 pages, single spaced, ³⁄₄ inch margins, Times or Times New Roman size 12 or Arial size 11 font. **Failure to adhere to these guidelines will result in disqualification.**

   The project description should include a summary describing the project and how the project will promote animal health: a description of the applicant’s role in the project; and the mentor’s qualifications. The project description should also detail inclusion of other elements of research training, including opportunities such as orientation to scientific research, ethics and appropriate use of animal in research, introduction to grant writing and publication, seminars, field trips, journal clubs, etc. Include references and/or citations in the project summary.

3. Institutional Letter
   Applicant must supply a letter from the institution providing a statement of the student’s good standing in the professional curriculum.

4. Mentor Letter & IACUC assurance
   A letter from the mentor(s) must be submitted that endorses the student, the project and the student’s specific role in that study. The letter must also describe the research environment in regards to facilities, laboratory space, field research, etc. Finally, for projects that involve the use of live animals, the mentor must indicate the status of IACUC approval.
