

Education and Professional Development Committee Spring 2017 Extracurricular Funding Grant Application

*The SAVMA Education and Professional Development Committee is offering **four, \$200 grants** to veterinary student organizations to provide funding for wet labs or lectures supplementing their college's curriculum.*

Our vision for this grant is for student organizations or clubs to design either a lecture and/or wet lab for a topic to which students would not otherwise be exposed. Four, \$200 grants will be offered, and winners will be chosen by the committee by SAVMA Symposium.

Applications must be submitted by a student who is a member in good standing with SAVMA. Please limit proposals to no more than 250 words and provide all required information. Alcohol must not be provided at the events, and funding must not be used for gifts to speakers. Applications that fail to stay within these limits or fail to provide all required information will not be considered for funding at this time.

Guidelines the committee will use when evaluating submissions:

- Uniqueness of proposed wet lab/lecture
- Effective supplementation of the veterinary curriculum
- Brief description of proposed event budget (ie. what the grant money will be used for)
- Impact the event will have on students who attend
- 250 word limit

Submissions are due by Monday March 6! Please email submissions as an attachment to savma.epdc@gmail.com with "Spring Extracurricular Grant" in the subject line. Also ***include your name and SAVMA ID#*** along with your submission.

Winners will be selected at SAVMA Symposium.

Good luck!!!
