**Re: Proposed changes to Veterinary Services Memorandum No. 800.203, General Licensing Considerations: Compatibility of Components**

Dear Sir or Madam:

The AVMA has reviewed the proposed revision of Veterinary Services Memorandum No. 800.203 that was issued by the CVB in August/September 2006.

We believe the current document is an improvement upon the initial draft; however some of our initial questions remain because they were not addressed in the document.

We have attached our February 27, 2006 comments for your review and response.

Sincerely,

*Bruce W. Little, DVM*

Bruce W. Little, DVM
