Re: Docket No. 2006N-0180— Agency Information Collection Activities; Proposed Collection; Comment Request; Records and Reports Concerning Experience With Approved New Animal Drugs

Dear Sir or Madam:

I am writing on behalf of the American Veterinary Medical Association (AVMA), established in 1863 and the largest veterinary medical association in the world. As a not-for-profit association, the AVMA was established to advance the science and art of veterinary medicine and to protect public health.

Being committed to the continuing availability of medicinal products that are pure, safe, potent and efficacious for animals, the AVMA encourages continued development and strengthening of adverse event reporting systems. This includes continued collaboration with constituent professional organizations, industry organizations, government entities and other stakeholders.

Thank you for this opportunity to comment.

Sincerely,

Janet D. Donlin, DVM
Assistant Executive Vice President

JDD/ECG
